THURSDAY, MARCH 20, 1902.

Turkey has refused to refund to the United States the ransom of \$72,500 paid to the brigands for the release of Miss Stone.

The result of the primary election in Portland is interpreted as a crushing defeat for Joe Simon and to indicate that his chances for succeeding himself in the United States senate are not of the best.

Prince Henry has taken his departure for Germany after one of the gayest times ever given any distinguished visitor to this country.

All voters should make it their business to register in season. It is poor judgment to put off this important matter until the last minute.

W. J. Wimer of Waldo, has received a letter from Senator Mitchell, written in response to an inquiry, stating that he, the senator, was earnestly in favor of an amendment providing for the election of United States senators by direct vote of the people.

The cigarette evil is one of tremendous proportions. It is alarming to observe the number of boys and young men who are slaves to this habit.

Merlin Notes

Mr. Chas. Crow was seen on our streets Saturday. Mr. Edward Bland made Grants Pass a visit last Friday. Rev. Rogers preached at the M. E. church Sunday evening.

A rich strike was made last week at the Granite Hill mine in the Louse creek district. In sinking a shaft, a three foot ledge was uncovered, showing values of \$100 to the ton.

A. N. Hulbert was in town Friday and brought with him a sample of coal from a cropping in his farm in Same Valley.

Cobel & Henson, the Silver Creek hydraulic miners, are steadily pipning and are improving to the utmost what remains of the hydraulic season.

Some of our population took in Grants Pass last week. G. W. Chapin lost a valuable cow, killed by a big tree falling on her.

Mr. Merty is improving, so is T. W. Goff. That is all the sickness we have to report.

We are wondering if Sallie found the bugnize up Tunnel 9 creek and if so we wish she would report.

We have some widows on Grave creek who are fat, fat and forty. We can boast of having some of the biggest girls in the county.

Speaking of heavy rains, we have had no great freshets here this winter. Grave creek has been fordable all winter for we have seen the ducks fording at all times.

Our primary convention was well attended and three good delegates nominated for the county convention. Registration is moving along very slowly.

Portland speaks of a smelter. What is the use of shipping rock so far when we have so many good ledges here. It would pay to erect a plant to treat our own ore at the town of Leland.

We are having nice spring weather with frequent showers, good for the miners. It will also keep up the water supply for irrigating purposes.

The placer miners are having a good run, over average. The gold output will be larger than that of any previous year, for the miners were all ready for the water when it came.

G. W. Chapin was seen on our streets selling prunes. He gets the biggest price for his fruit, because they are dried right, handled right, and are large and nice.

There is great activity in this vicinity. Close to Grave post office there are two new ledges being developed. Boyd & Co. are erecting an arstite firing ground for their quartz.

Capt. Nash was up from his placer on lower Grave creek. He is running a tunnel to tap a large blue channel which he has prospected and found rich.

We are glad to welcome our old friends and good neighbors back once more; Mr. Will Jones and family who moved down from Williams last Saturday.

A great number of friends of Uncle John John, attended his funeral last Sunday at Williams. We all regret to lose our ever kind friend and good neighbor.

Mr. J. C. Hyde hauled the last of the Johnson and Jennings hops to Grants Pass last Monday. Owing to the bad weather and roads they have been greatly delayed in hauling.

We are glad to state that Jaks Carter who was thrown from his wagon and dragged for some distance during a runaway, while hauling hops for Johnson and Jennings, received no serious wounds, and is able to be about his work again.

Dr. J. A. Lewman and sons are doing quite a bit of improving on his farm this season. But that is right. Dr. Just keep right on, for old Southern Oregon is too good a climate for Asthma.

MA AND PA. Can't Keep It Secret. The splendid work of Dr. King's New Life Pills is daily coming to light.

TREASURE FINDERS.

Various Forms of Scientific Apparatus for Locating Rich Lodes of Precious Metal. Magical devices for discovering deposits of precious metal are out of fashion nowadays.

For use in mines, an apparatus of much simplicity has been devised, consisting of a little battery, a telephone receiver and two brushes that look exactly like shaving brushes.

CHANGING A QUARTER. It Takes Just Seventy Cents in Small Coins to Do the Trick in Eleven Ways. "How much does it take to change a quarter?" asked the bartender.

Wilderville Items. Mr. Meo and Mr. Moxiek were in our city Sunday. Rev. Rodgers of Wilderville was in Merlin last Sunday.

Marrled—Near Merlin, March 17, 1902, Mr. Sam Abell and Miss Rosa Carter. The wedding was a very quiet one at the home of the bride's parents.

Leland Sittings. Some of our population took in Grants Pass last week. G. W. Chapin lost a valuable cow, killed by a big tree falling on her.

Microbes in Jewels. To the bacteriologist, as to the supper says the Lady's Fictional, nothing is sacred. In his positive greed for a new scare he will ransack the secret recesses of my lady's wardrobe.

He Loves a Few Humans. The Sultan of Turkey is extremely fond of his children, for whom he has a tiny theater, where they play small parts for his majesty's delectation.

SAND SWALLOWERS.

A community of 75 men and women in St. Louis, whose names are William Windsor, eat dirt. The dirt eaters each take every day a teaspoonful of dirt.

The dirt eaters are particularly what sort of dirt they eat. This article of singular diet is technically a sand. It comes from the river bottom and is made up of many little particles of granite, marble, quartz, and flint well rounded with age.
