#### GREEN-APPLE WISDOM.

generations can't keep a boy from eating Green Apples. You can talk to him till you are tired, but it will do no good. He simply can't learn from anything but hard pit-of-the-stomach expanience. He

must have his own belly ache before he will believe what you tell him. Now, men are just boys grown up. It isn't green apples any longer, but it's the same old comedy with new properties. It's the question, perhaps, of a Mower. It's the old chimera of getting value without cost. It's the Mower which "is just as good as the Osborne." And the lesson is only learned after the loss of many dollars you might have earned. Why not use the green-apple common sense that you learned as a boy? ALL KINDS OF
