There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly falling to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case they fail to cure. Send for circulars and testimonials. Add. F. J. CHENEY & CO., Toledo Sold by Druggists, 75c. Hall's Family Pills are the best.

HORSE SCARED TO DEATH.

A horse driven by Walter Powell was literally scared to death at the ware house of the Ashland Fruit Association Thursday morning.
The horse was tied near the spur of track running by the ware house when a switch engine backed in, frightening him to a degree of terror that was pitiable. A gentleman present says that the horse moaned or bawled like a cow. The men ran out to him and released him from the vehicle. Before they could remove the harness the horse laid down and died.

There seemed to be no other explanation than that he was frightened to death.
The horse was owned by W. W. Fordney.—Town Talk.

DECISION IN MOON CASE.

The case of A. C. Hough, as administrator of the estate of Enoch L. Moon vs. Grants Pass New Water Light & Power Co., which was tried before a jury in the circuit court in September, 1900, and resulted in verdict for \$2000, and costs, was affirmed by the supreme court on Monday last.

This was the action brought against the Water Company to recover damages for the death of Enoch L. Moon on October 2nd, 1899. The case has been hotly contested in both circuit and supreme courts with the result above mentioned.

Attorneys Hough and Norton appeared for the Moon estate and attorneys Moody and Muir of Portland for the Water Company.

ACCIDENT AT BALL GAME.

Roger Entriken, a young man well and favorably known in this city, was severely and perhaps fatally injured at the ball game at Jacksonville Sunday by being struck on the head by a pitched ball. Entriken, who has played with the Grants Pass team for the past four or five years, went to this game as a substitute player.

Doyle was slightly injured in the third inning and Entriken took his place. When he went to the bat, a swift ball from the hand of Ashland's pitcher, Somers, struck him squarely in the head and he was borne unconscious from the field. It is thought that he miscalculated the course of the ball and so made no effort to avoid it. He is yet in Jacksonville and the reports describe his condition as serious in the extreme.

LAWN SOCIAL.

All are cordially invited by the ladies of the Newman Methodist Church to attend a social given by them on the evening of July 22, 1902 at the home of Mr. and Mrs. H. D. Norton. Ice cream and cake, 15 cents. A good program.

MOONLIGHT PICNIC.

A party of about 20 of the young people of this city enjoyed a picnic on Rogue river on Tuesday afternoon and evening. The spot chosen was about 10 miles up the river, just opposite Woodville. The company drove out in hacks and carriages and spent the late afternoon and early evening at one of the most beautiful of Rogue river's many picturesque spots. A merry and delightful time was enjoyed, and of the many pleasures the drive home in the moonlight was not among the least.

SAVES A WOMAN'S LIFE.

To have given up would have meant death for Mrs. Louis Craig, of Dorchester, Mass. For years she had endured untold misery from severe lung trouble and obstinate cough. "Often," she writes, "I could scarcely breathe and sometimes could not speak. All doctors and remedies failed until I used Dr. King's New Discovery for Consumption and was completely cured." Sufferers from Coughs, Colds, Throat and Lung Trouble need this grand remedy, for it never disappoints. Cure is guaranteed by W. F. Kremer. Price 50 cents and \$1.00. Trial bottles free.

CIRCUIT COURT.

Circuit court was convened on Monday by Judge Hanna. Little business of importance has yet been transacted. The Gibson murder case was taken up on Tuesday and considerable trouble has been experienced in obtaining a jury. Eleven jurors had been selected up to the time of going to press.

BRIDGE REPAIR.

Rogue River bridge will be torn up for repairs, July 28, 1902 and continue so until completed. There will be no crossing after 7 o'clock in the morning until 6 in the evening.

COLLIDED WITH CARS.

A very unusual accident occurred at the Sixth street railroad crossing on Monday evening. A freight train was switching in the yards and two loaded lumber teams belonging to C. D. Stacy were waiting to cross the track. A long line of cars backing down stopped near the crossing and Stacy attempted to cross the track with the teams. The first team crossed safely and the second had just started across, when the train again began backing up. Stacy with the foremost team, called to his driver who attempted to back up and swing his team from the track. The advancing car struck the front wheel of the wagon and shoved it from the track, while the team also was swung round out of harm's reach and were uninjured. The wagon was badly damaged.

ACCIDENT PROVED FATAL.

Harold Howard, the little girl who was so severely hurt on Monday last week by falling from a load of hay, died on Thursday, never having recovered consciousness since the accident.

Bargains in Lamps at Cramer Bros. The people of Gold Hill have again shown their liberality, by helping along with the electric light plant. When Hon. J. J. Honck suggested the idea of putting a lighting plant in our town, people generally argued that the town was too small and could not afford the expense etc. But Mr. Honck knew the people with whom he had lived for so many years; he knew he could furnish the people with light by machinery as cheaply as it could be with oil or gasoline, and in that event the money would stop at home instead of being sent away to the Standard Oil Co.—Gold Hill News.

SUICIDE.

J. T. Pritchard, a jeweler formerly in business at Roseburg, shot himself with a 32 caliber revolver in his room at Hotel Layton Sunday night and died on the following evening. The deed was committed about 11 o'clock in the evening after Pritchard had apparently retired for the night. The sound of the shot was denuded by the bedclothes so that the suicide was not discovered until about four o'clock in the morning. The unfortunate man's groans disturbed the occupants of the hotel, so that the door of his room was finally broken open and Dr. Major was called in to attend the man who was supposed to be sick. The revolver was found on the floor and an examination Prichard was found to be wounded by a bullet just above the heart. At first he denied having shot himself, but afterward admitted it. Remarks made by him previous to the deed showed his mind to have been unbalanced. His body was taken to Roseburg Tuesday evening. He was about 65 years of age.

EXPRESS OF THANKS.

We wish to express our heartfelt thanks for the kind sympathy and assistance of our friends in our recent bereavement.
John Hartman and family.

TO VISIT CRATER LAKE.

Professor Frederick V. Coville chief botanist of the Department of Agriculture, with headquarters at Washington, D. C., passed through Portland, en route to Crater Lake and the Klamath Indian reservation, where he will spend two months studying the vegetation and plant life. The Department of Agriculture has been paying no little attention to gramin, grasses and plants of the National parks and reservations, it being the desire of the Secretary of Agriculture to publish intelligent reports on these matters. Professor Coville will prepare one report on "Vegetation in the Crater Lake National Park," and another on "Grasses and Herbs Used by the Klamath Indians."

The preparation of these reports requires a great deal of study and investigation, so Professor Coville has arranged to spend a month in each district. He is accompanied by his wife, who is also a thorough botanical student.

Professor and Mrs. Coville left for Ashland, where they will make arrangements to go by team over the Dead Indian road to Crater Lake. The distinguished botanist is a graduate of Cornell University, and a member of the Phi Beta Kappa fraternity. He has been connected with the Department of Agriculture for 14 years, during which time he has visited many points of interest in the United States. He has made a special study of forestry problems, and has prepared numerous publications. Professor Coville will pass through Portland about September 20, on his return to Washington, D. C.—Oregonian.

OREGON & PACIFIC.

The survey of the Oregon & Pacific Railroad route has progressed to the extent that the committee of the Board of Trade appointed to secure right of way and terminal facilities in Crescent City, can work intelligently, and it is their intention to begin at once. The line surveyed runs mostly through stump land of Hobbs, Wall & Co., and it is not anticipated that any great trouble will be met in securing right of way concession from the company or from Geo. Wallon, through whose land the route will have to run to get opposite Whale Island, the proposed shipping point.—Del Norte Record.

TRAVELING ALL ALONE.

Mary George, a pretty little Creole girl of 11 summers, spent last night in the family waiting-room of the Grand Central Station. She was traveling all alone from Milan, Mo., to Crescent City, Cal., where she is to meet her father, John George, she said. "My mamma is in New Orleans, where I was born," she explained, "and I have been staying with my aunt at Milan. When I visit my father at Crescent City, I expect to return to my mother at New Orleans. My papa and mamma don't live together any more."

She said she had no trouble on the way, as the various conductors along the route had been very kind to her and were particular to see that she was put on board the right train every time.

She will have 100 miles of staging to do between Grants Pass and Crescent City, and will get acquainted, with some very tall, steep mountains and big red-wood trees on that trip.—Telegram.

A Minister's Mistake.

A city minister was recently handed a notice to be read from his pulpit, accompanying it was a clipping from a newspaper bearing upon the matter. The clergyman started to read the extract and found that it began: "Take Kemp's Balsam, the best Cough Cure." This was hardly what he had expected and, after a moment's hesitation, he turned it over, and found on the other side the matter intended for the reading.
