THURSDAY, AUGUST 7, 1902.

Southern California has been recently severely shocked by earthquakes. Earthquakes and volcanic disturbances are remarkably frequent this year and at least one of the most disturbing eruptions of history has been recorded. Volcanie action is a sub ject little understood by scientists and one on which theory and mere supposition are far more plentiful than netual knowledge.

According to the Crop Reporter, published by authorty of the Secretary of Agriculture, the total acreage of sugar beets this year is 260,000, divided among 11 states. Michigan leads, with 98,000 acres; California is second with 71,284; Colorado third with 39, 449, these three states having fourfifths of the total area devoted to sugar beet raising, which is insignificant when compared with that devoted to any other common crop.

A long list of decorations bestowed upon Americans whom Prince Henry met, by Emporer William, is published They are the "red eagle of the third class." the "red eagle of the fourth class," the "crown order of the fourth class," and so on. Some of them may be returned with the information that the doncers accept no third or fourthclass banbles, and that the bald-headed grey American eagle is a first-class bird. -Telegram.

Already "Tracy and Merrill shows are on the road and the only reason a book has not been printed on this theme is because the story will not be complete until Tracy is killed or escapes. Portraying such characters as heroes is a familiar form of offending against morality and one which is thoroughly fruitful in bad effects The harm done by the heroizers of the James boys, for instance, is infinitely greater than that done by the men themselves. There is nothing more demoralizing than books or plays which hold criminals up as heroes, and decency demands their extinction wherever possible.

terview at Ashland, said: "If I were a young man I would come to Oregon to live. I cannot see how any young man with any sense at all can fail to become rich in five years in this country. I predict that within ten years there will be 30,000,000 people west of the Rocky Mountains. The Isthmain canal will revolutionize this country. The Pacific Ocean will what the Atlantic i now and the Atlantic will be relegat

DOINGS IN MARBLE.

i The extensive and undeveloped miles south of Grants Pass, which have been known and passed by for nearly 25 years, have again been taker up and this time by an enterprising company of men who claim will devel op and work the great quarry as it should be worked, in extent and quantity there is nothing on the Coast that will compare with this quarry of Williams Valley. At one place in the quarry the marble forms a wall of 20 feet in height. When the new railroad is completed from here to Crescent City, transportation facilities will be offered the marble mines, and the ston can be taken out in quantity. At the present time. Portland and the entire state is supplied with marble and quarry stone from San Francisco and east ern points, when as a matter of fact we have better quarries right here at All they need is opening up.

of your local agent.

Many a hard working young w Many a hard working to spends her noon hour in an endeavor to get a little rest to carry her through the remaining hours of the day. She is weak and weary, but she cannot give up the occupation which supports her. She must go back to the office and the type with to the store and its duties, with writer, to the store and its duties with tiresome customers to wait on and ex-

acting employers to please.

For people who are weak and run down there is no medicine so wituable as Dr. Pierce's Golden Medical Discovery. cures diseases of the stomach and her organs of digestion and nutrition seases in organs remote from the stomach have their origin in a disease condition of the stomach and its allied organs. When the stomach is "weak" there is a failure to properly digest and assimilate the food which is esten. Hence the whole body, and each organ of it, suffers from lack of nutrition, \$\pi\$ that as a consequence of "weak" stomach, there may be "weak" lung, "weak heart, "weak" or torpid liver, "weak" and nutrition, "Golden Medical Discovery" enables the assimilation of the nutriment necessary for the requirement tivity of the blood-making gia so increases the supply of bloo is the vital fluid of the body.

There is no alcohol in the "Discovery" and it is entirely free from opium, co-caine, and all other narcotics. Sick and ailing people especially these affering from disease in its chronic form

valids' Hotel and Surgical Institute Buffalo, N. Y., presided over by Dr. Pierce, its chief consulting physician with the assistance of nearly a score of
