This is an age of specialists. The ability to do one thing and do it well is more to be commended and is of more benefit to humanity than to do many things and none equal to the best. Dr. Lowe limits his practice to the sight fitting glasses and he puts the cream of 16 years' study and experience into them.

Seven gentlemen from Portland were in Grants Pass last week, they having located timber claims in the northern portion of Del Norte county, near the Oregon line. The gentlemen were W. A. Williams, C. E. Fields, Halvor Rosch, Chas. R. Frazier, Ed. Sharkey, Fred W. Prasp and J. O. Thomas.

**JUDGE RILEY DEAD.**  
After an illness covering a period of 19 days, during all of which time life hung by the most slender thread, County Judge M. Riley passed peacefully away, at his home at Gold Beach, on Friday, Sept. 26, 1912, surrounded by his grief-stricken family.

Mr. Riley had been a sufferer from stomach troubles for a number of years, and when the fatal stroke came which paralyzed the left half of his body, his digestive organs refused longer to perform their functions, making it evident from the first that there was no hope of even a partial recovery, and although he lingered in a semi-conscious state longer than could be expected, he continued to decline and grow weaker day by day to the end. He was buried in the Gold Beach cemetery last Sunday, in the presence of a large concourse of sorrowing friends.

Michael Riley was born in Montgomery county, New York, April 16, 1827, and was married to Maria R. Dewey, Jan. 1, 1850. He arrived in Coos county in 1853, and resided on the Coquille until 1854, when he moved with his family to Gold Beach, where he has ever since resided. Mrs. Riley having died at their home in 1894.

## ELLERS PIANO HOUSE

Of Portland, Oregon, San Francisco, Cal., Spokane, Wash., and Sacramento, Cal.

These are the houses that Ellers built. The Chickering of Boston, The Weber of New York, The Kimball of Chicago. The three best pianos in the world.

They are the pianos that Ellers built these houses with. Not however, the only pianos, there are some twenty-five different pianos for sale at the houses that Ellers built, all of them of sterling, substantial merit and all of them guaranteed by us. Among them are the Hobart M. Cable, the Hazeltine, the many toned Crown, the Decker, the Vose, the Emerson and many others, every one a first class make.

Further, we sell pianos cheaper and on better terms than any other house in the northwest, because, having these four houses that we have built up by industry and fair dealing, we handle pianos in immense quantities and therefore receive concessions that houses doing a smaller business cannot, and these advantages we offer you in the shape of lower prices on high grade instruments than any other house can.

**DR. GUNN'S BLOOD AND NERVE TONIC.**  
There is not a woman in this land but at some time in her life would have been the better for the use of this tonic. For diseases peculiar to women, a better medicine was never made. It is composed of the ingredients from which the system has been deprived by disease, over-work or dissipation. It enters at once into the circulation, building up the tissues that have been wasted, and making pure, rich blood in the most direct way. For weak, nervous and unsteady people, simply pale or feeble people, it will make strong steady nerves and give the complexion that wholesome look that indicates health. We have hundreds of letters that people have written us, saying that they have gained in good solid flesh at the rate of one to three pounds per week while using Dr. Gunn's Blood and Nerve Tonic. It should be taken after meals, one or two tablets each time. Druggists sell it 75c per box or three boxes for \$2.00, or sent postpaid on receipt of price. We are glad to make reply to letters of inquiry, the advice we give is plain, and easily understood. Address Dr. Rosanko Co., Philadelphia, Pa. For sale by W. E. Kremer.

## RECEPTION TO CONSUL MILLER

Last Friday evening the Grants Pass Board of Trade and their friends tendered Consul H. B. Miller a reception at Odd Fellows' hall. Mr. Miller was among those who laid the foundation stones of the city of Grants Pass and the meeting of Friday evening was mainly to give his many old friends an opportunity to meet him and to show their appreciation of the good work he has done for this city and Josephine county, as well as all of Southern Oregon.

There were about 100 people present at the reception. President Coe, of the Board of Trade, made the address of welcome and this was followed by a vocal solo by E. C. Suman. President Coe, in his address spoke of the good work Mr. Miller has done in the building up of Grants Pass and its development. In behalf of the Board of Trade and the citizens of Grants Pass and Josephine county, Mr. Coe extended to Consul Miller a hearty welcome.

An instrumental solo was rendered by Edward Van Dyke, followed by an address by attorney Robert G. Smith. In a happy vein Mr. Smith reviewed the early history of Grants Pass and the part Harry Miller played in the making of that history. "Why," said Mr. Smith, "during those days, when any of us went to Portland or any place north or south and people asked where we were from and we told them Grants Pass, they would say, 'Oh, yes, that's where Harry Miller lives isn't it?' So it was in everything Harry Miller and Grants Pass were almost one and the same. In fact, if it had not been for the efforts of Mr. Miller, Grants Pass would not have been in Josephine county at all. During its infancy, the town was supposed to be situated in the extreme eastern part of Jackson county, but during one year when Mr. Miller was extra prominent in politics he went to work and deliberately stole three townships from the eastern end of Jackson county and added them to Josephine. That put Grants Pass where it belonged, however it was considered one of the greatest larcenies in real estate ever committed in Oregon." Following the address of Attorney Smith, C. J. Kurth rendered a violin solo.

Consul Miller was then introduced and was loudly applauded as he arose to speak. Mr. Miller began his address by expressing his appreciation of the good will shown him by the people of Grants Pass and the high compliments paid him by the citizens of his old home. He said he was glad to be back in Southern Oregon once again and to breathe the delightful atmosphere of this more than delightful climate. Mr. Miller modestly declined to accept all of the credit given him in the matter of the building up of Grants Pass. He said he was only one of the several who were instrumental in the founding of this city and he simply fell in line and attempted to do his part. He felt that as much or greater credit was due the hardworking men who labored with him during those days and who saw Grants Pass rise from a mere stage station to the leading city in Southern Oregon.

Mr. Miller spoke interestingly of his more recent work in the Orient. He said he has been met everywhere, since his return, by an anxious desire on the part of everyone to know more about China. The people of the Pacific Coast are awaking to a realization of the good this country will derive by a closer commercial relation with the Orient. This relation is already much closer than it was a few years ago, and it will be still closer in a few years hence.

The evening closed with refreshments of ice cream and cake. By the good will and cheer that prevailed through the evening, Consul Miller could happily understand the feeling of appreciation all have for him in Grants Pass. It is hoped that he may some day make his home once again in Grants Pass.

**IT IS UP TO THE DOCTOR.**  
A lady wrote us a few weeks ago from Webster, Va., that she had been under a doctor's care for 4 years for dyspepsia, the pain seemed to center under her left shoulder blade, and was so severe at times that she could neither eat nor sleep. She had lost faith in her home doctor, and asked us to send us samples of our Dr. Gunn's Improved Liver Pills which had been recommended to her. We sent her two pills. In a few days she sent for a box. Now she writes that the pain under her shoulder has left her entirely, she enjoys her meals and never sleeps less than 8 hours every night, and this has all come about in two weeks, and cost her 50c, for two boxes of pills. Says the doctor charged her \$50.00 and that she told him he had better take the \$25.00 and invest it all in Dr. Gunn's Improved Liver Pills and build up his practice. We have not received the Doctor's order yet but any one having dyspepsia, biliousness, spells of sick headache can get a speedy cure by the use of these pills. For sale by W. E. Kremer.

**SUSIE FENNEL PIPES.**  
Town Talk of July 6, 1912, in speaking of Susie Fennel Pipes says: "The lady's performance place her in high rank as an artist with the violin. She has a delicate touch with the bow and draws from her instrument the most exquisite music. She was heartily enjoyed in which no one was more earnest than Col. Waterman himself. He likes a fiddle as has every Kentuckian since the first dance was given by the pioneer settlers at Harrodsburg 139 years ago."

**GAVE UP SURVEY OF CRATER LAKE.**  
The surveying party which went out to the Crater Lake Park a few weeks ago to survey the boundary lines of the park has given up the task for this season. The storms of snow, rain and wind they encountered in the mountains are said to have been fierce. The lines were to have been run wholly with solar compasses, but the cloudy weather prevented their use—hence the abandonment of the work for this season.

The work will be taken up again next summer or as soon as the snows disappear sufficiently to allow it.

**A FEW FACTS ABOUT GRANTS PASS.**  
Grants Pass is the county seat of Josephine county and lies 296 miles south of Portland, and 475 miles north of San Francisco, with both of which cities it is connected by the O. & C. R. R. It lies on the north bank of Rogue river, which together with the railroad, here runs for a short distance east and west, and at the head of a beautiful but narrow valley extending some 12 miles down the river. It is an incorporated town and has all the facilities to render life comfortable. It has an altitude of nearly 1,000 feet and lies nestled in the hills, yet with sufficient room for a city of 30,000 people. The population is nearly 3,000. It has the climate common to all the valley of Rogue river. Its summers are warm but are tempered by the breezes of the Pacific ocean and the invariably cool nights. The winters are always mild. The annual rainfall ranges from 19 to 30 inches and averages about 25 inches. The extreme limit of the thermometer in the summer is 100 degrees, while in winter it sinks as low as 10 degrees above zero. The average temperature for winter is 40 degrees and for summer, 60 degrees. Snow seldom falls in the valley and rarely remains more than a few hours.

The whole Rogue river section is one of the most salubrious in the world. The air is scented with pine, fir and cedar, and the mountains which separate Grants Pass from the ocean, 50 miles distant, while not cutting off the ocean breezes, yet shelter from the ocean fogs. For these reasons the equable climate of the locality stands without a superior for the cure of all inflammatory diseases of the nose, throat and lungs.

Grants Pass is, as before stated, an incorporated town and has a progressive corps of officers. It is the shipping point for almost the entire business of the county. Its chief support is the great mineral wealth found all around it and, indeed, almost within the corporate limits; but the lumbering, manufacturing, agricultural and fruit-raising interests which also contribute to its support, are not small and are capable of greater development.

He is retiring on account of ill health and goes out leaving his establishment in the most flourishing and prosperous condition it has ever known. He will still remain a citizen of Grants Pass and will retain the buildings in which his shops and hardware store are located as well as his home.
