THURSDAY, OCTOBER 23, 1902.

Within the past three years 200 Mormons have settled in Grande Ronde valley. They have purchased some of the choicest farms on the Sand Ridge and divided them up into 20, 40 and 80-acre tracts, and are raising sugar beets principally. In the city of La Grande they have a commodious church building with a scating capacity for about 500 people. They own the beet sugar factory, have re-Perry, by far the most complete saw mill in Eastern Oregon, the Steel all the available timber near these thriving community at Alicel and porphyry, crumbles and washes easily cold rainy season is coming on, there union. They are industrious folk and is rich in fine and coarse gold, will doubtless be many others. highest degree.

Some interesting facts regarding the development of the wood pulp indus-

on Caundian wood pulp. The effect of this export duty would be to compel the manufacture of pulp, so far as Canada is concerned, to remain entirely in the hands of the Dominion manufacturers. The United States would be compelled to take off the 36 feet of 34-inch galvanized pipe for duty, it is claimed, or do without sale. Address Wm Bogg, Grants Pass. It is estimated that in the last twelve years from 8,000,000 to 12,000,-000 cords of pulp\_wood have been imported into the United States to Canada. It is argued by advocates of the export duty that all of this wood could have been manufactured into pulp in Canada, giving employment to thousands of Canadians and adding vastly to the wealth of the Dominion. The outcome of the discussion is awaited with much interest by the pulp and paper manufacturers of this country.

BAPTIST CONVENTION CLOSED. The final adjournment of the Baptist state convention held in Roseburg was taken Friday evening and the delegates and visitors have returned to their respective homes. The meetings there were pronounced the best ever held in the state outside of Portland and was excelled there in point of numbers only. During the sessions in Roseburg there were registered 107 delegates and 37 visitors, 64 of whom are ministers. This is a remarkably good attendance and, better still, the visitors expressed themselves as delighted with the kindness and hospitality extended to them by the residents of Roseburg. A hearty vote of thanks was also extended to the press for concise daily reports of the meetings and other courtesies shown.

The Baptist denomination now has 156 organized churches in Oregon and 36 home missionaries working in this field. The work is steadily increasing for the glory of the Kingdom. The next annual session of the convention will be held in Oregon City. A visitor writing of the convention, said:

"This is decidedly and pre-eminently a convention town. Its inhabitants combine in their make-up great versatility of genius, great literary culture and political sagacity. They all things to men; are not sectarian in their ideas, and have no prejudice against the clergy.

'Were it possible to equalize everything that happens at a convention of significance it would make a most interesting document. Fortunately, however, it is too large to put into dia- evening, by falling into the fireplace down nor reported. Discounting all spasms occasionally and doubtless one the wearisome detail and machinery of which all conventions are too full, this Roseburg convention is under the power of new and great inspirations. The delegates are full of a turmed of new things, which indicates that the Creator is never through with a man unless the man is determined to have it so. As Dr. C. A. Wooddy put it, "This convention marks the dawn of a new day for Oregon Baptists," the delegates are followed by the convention of the convention of the family of the family went a short distance from the house of the theory is in proved Liver Pilis which had been recommended to have the place in her usual health all day.
