BOARD OF TRADE MEETING.

A meeting of the Grants Pass board of trade was held in the parlors of the First National Bank Monday evening. The meeting was called principally for the purpose of deciding whether or not the board is to issue the description pamphlets pledged some time ago to the immigration bureau of the Harriman system.
In view of the fact that it has been and will be impossible to erect the exhibits building formerly planned by the board, it was decided a wise plan to divert the funds subscribed for this purpose towards issuing descriptive matter. Some \$600 was subscribed, \$500 of which was collected. It was unanimously voted that the entire building fund be appropriated for advertising purposes and for payment of the outstanding debts of the board of trade.
Upon motion the chair appointed four committees of two each to solicit the remainder of subscription and get signatures to the constitution. The committees appointed were: J. S. Moore and J. W. Moss; H. C. Kinney and R. Thomas; W. M. Hall and Geo. Cramer; F. W. Chausse and H. L. Gilkey.

JUNKMEN TRY TO LOOT A SAFE.

A large amount of iron from the ruins of buildings destroyed by the late fire at Grants Pass was bought up by junk dealers to Portland and was recently shipped to the rolling mills there. At the same time the safe of the Sugar Pine Lumber Company, which had been through the fire, was shipped to agent Davis of the Diebold Safe & Lock Company to be repaired, if possible, and if not, that a valuable burglar-proof chest in it might be saved. So says a reliable source among the junk and the junk dealer's men. It seems, decided to make junk of it. The consequence was that when it came to the hands of agent Davis, a day or two ago, it was in bad condition, the hinges having been broken off, the door removed and the moldings and ornamental work on the front broken and mostly removed, and the general appearance of the safe most disreputable. The only thing to be done was to house it and try to get the burglar-proof chest, which is valuable, out of it. This job Mr. Davis now has in hand, and his opinion of the fellows who got the door of the safe is that they are rascals and that they were trying to get into the safe in hope of finding valuables there.

A GRANTS PASS TOAD.

Grants Pass can put its toads up with any in the world. A Courier man can vouch for this, for he holds the proof. A few days ago he saw a big Grants Pass toad attempt to catch a bird; and he (the Courier man, not the toad) wasn't drunk either, at the time.

The circumstance happened down on the banks of Rogue river. A little Chickadee, or some such similar bird was hopping about on the ground and found himself suddenly confronted by a large toad of the horn-jumpus species. The big toad looked birdie square in the eye and birdie was hypnotized and under the big toad's influence ere he was aware. Then the toad began to creep upon his prey, but never for an instant releasing his gaze on birdie. Like a cat, the toad crept nearer and then "gathering all his strength for the final spring," as the story books say about the tigers, the toad leaped into the air and came down pounce on birdie's back. But the toad lacked the claws and other necessary implements for holding on. The sudden jar brought birdie to his senses and with a few wild shrieks, a spasmodic flutter or two and flew away into the sky, leaving the Courier man with cold perspiration wetting his brow.

LETTER FROM G. D. WILLIAMS.

To The Rogue River Courier, Grants Pass, Ore.—
"I have in front of me, your paper of August 28th; it is like a letter from home to me.
I left the Pass on the 7th of May and landed in Rampart, Alaska, the 12th of June this year. I have been over the mining country in this vicinity and find it very good; if it were in Josephine county it would be great. One can make from \$4 to \$5 per day easily enough; but that will not do here; provisions are high and packing costs 25 cents per pound. You can see that the pick and shovel are too slow. My brother and I have sent for a giant pipe and will try it next spring. If it will work, the ground is good for \$100 per day to the man.
This is a camp of 500 or 600 men besides the women and squaws. We have four general merchandise stores, seven saloons, three restaurants and a fine location for a hotel. Wages are \$1 per hour and no idle men. A new strike has just been made on the Hootlinas that promises to be the coming camp. The town has all stamped to the new field and at present Rampart is very quiet."
Yours truly,
G. D. Williams.

AN OREGON ROMANCE.

"Hazel Pierce" by Wm. A. De, published by A. H. Hogue & Co. New York, is the title of a new book which has just made its appearance. It is a story of simple life, told in a straight forward manner, without affectation and in a style that appeals to the average modern reader. The principal characters, scenes and incidents are located in Portland, Astoria and Seaside, Oregon. From Oregon the principal characters are carried to San Francisco, Salt Lake, New Orleans, New York and the Klondike mining regions. Many of the scenes are familiar to Oregonians. Portland, Astoria, Seaside and the vessels plying on the Columbia are accurately described.

MRS. CAMP INJURED.

Mrs. E. M. Camp of the Victory mine met with a serious accident while returning from an outing at the Nest on Quines creek, Tuesday. The horse she was riding became frightened near Galesville and ran about three-quarters of a mile, then stumbled and threw the rider on the large rocks in the creek bed. Mrs. Camp was rendered unconscious and sustained a fracture of the left radius, a large gash was cut under the chin, and she was severely bruised on the body.
Dr. Boverox dressed her wounds, reduced the fracture and she was taken to the hospital at Portland on Wednesday night's train. Considering the place where she was thrown she was very fortunate in not sustaining more severe injuries or being killed outright.

There were many Grants Pass people moon-struck last Thursday night. A total eclipse of old Luna was the cause of it and scores of people gazed from their windows or from the street at the interesting spectacle. The night was clear and cloudless and perfect in every way for a free and unobstructed view of the eclipse. The earth's shadow made its appearance on the left of the moon at 8:20 and by 10 o'clock the entire moon was completely obscured, however, a faint outline of the orb was discernible through the dark shadow. By 12 o'clock the moon was entirely clear again and the eclipse was over. Many watched throughout the whole performance.
There is good fishing yet, both with fly and spoon. Let Cramer Bros. fit you out.

Have you Consulted Him?

Prof Franklyn The World's Most Famous Clairvoyant and Palmist

Who is now located at the Palace Hotel, parlors 30, corner Front and 5th streets, has done a rushing business all week, his parlors being crowded with some of the best people in the city. This would indicate that the people of Grants Pass are quick to recognize a reliable medium when one visits here. Those who have consulted the professor say that he tells them their lives better than they know it themselves and they all agree that they have been much helped through his advice. Prof. Franklyn has no equal in his profession. He stands alone, the prince of clairvoyants, and is the greatest master of the science of Palmistry the world has ever produced. He tells you what you came for without asking you a question, and guarantees to reveal every incident of your life, past, present and future; advises you on love, marriage and divorce; sales, changes, speculations, property, business losses and sickness.
If your business is unsuccessful or if you have trouble of any kind, you should see this gifted medium at once. No matter what your trouble is, he can and will help you, and if you are not helped and perfectly satisfied after a visit, he will positively refuse to accept a fee. You should remember that every person is adapted to some certain kind of business or profession and no one can make a success of his life until he finds out for what he is best fitted. You may wish to know if it is advisable to make a change in business, in love or in marriage. Shall I succeed in my undertakings? Shall I ever become wealthy? When shall I marry? How often shall I marry? Shall I ever be divorced? Does another share the love that rightfully belongs to me? If so who? In what should I invest my money? Is my disease curable?
The Prof. tells you all these things and a great many more. He is ever ready to assist those with small capital to find a quick and sure investment. Mining men and prospectors in particular should consult this gifted medium, as he is often able to save them much time and money in locating and developing their mines.
As a test in your reading he tells you your full name. All business strictly confidential and parlor: are so arranged that you meet no strangers. Lady in attendance, fee reasonable and in reach of all. Perfect satisfaction by mail, send \$1, day and date of birth and any questions you may wish to ask, to Prof. J. Franklyn, Grants Pass. The Prof. has taught some of the best known mediums in this country. Also many ladies and gentlemen who wished to use the science for their own amusement and pastime, and he expects to get many pupils here.
