## THANKSGIVING PROCLAIMED.

Thursday, Nov. 27, has been desig-  
nated as Thanksgiving day and the  
following proclamation has been is-  
sued by President Roosevelt:

"According to the yearly custom of  
our people, it falls upon the president  
at this season to appoint a day of  
festival and thanksgiving to God.

Over a century and a quarter has  
passed since this country took its  
place among the nations of the earth,  
and during that time we have had, on  
the whole, more to be thankful for  
than has fallen to the lot of any other  
people. Generation after generation  
has grown to manhood and passed  
away. Each has had to bear its  
peculiar burdens, each to face its  
special crisis, and each has known  
years of grim trial, when the country  
was menaced by malice, domestic or  
foreign, when the hand of the Lord  
was heavy upon it in death by flood  
or pestilence, when in bodily distress  
and anguish of soul it paid the  
penalty of folly and a froward heart.

Nevertheless, decade by decade we  
have struggled onward and upward.  
We now abundantly enjoy material  
well-being, and under the favor of the  
Most High we are striving earnestly  
to achieve moral and spiritual uplift-  
ing.

"The year that has just closed has  
been one of peace and overflowing  
plenty. Rarely has any people en-  
joyed greater prosperity than we are  
now enjoying. For this we render  
heartfelt and solemn thanks to the  
giver of good, and we seek to praise  
Him, not by words only, but by deeds,  
by the way in which we do our duty  
to ourselves and to our fellow-men.

"Now, therefore, I, Theodore Roose-  
velt, President of the United States,  
do hereby designate as a day of gen-  
eral thanksgiving, Thursday, the 27th  
of the coming November, and do  
recommend that throughout the land  
the people engage in their ordinary  
occupations and in their several homes  
and places of worship, render thanks  
unto Almighty God for the manifold  
blessings of the past year."

**COLONY OF BEAVER.**  
H. C. Perkins, United States Sur-  
veyor, assisted by a corps of engi-  
neers, have returned to this city,  
having completed the work of sur-  
veying the old military road of the  
Oregon & Central Land Grant through  
the Cascade forest reserve for the  
Booth-Kelly Company. The party  
has been engaged in the survey since  
the first of August.

Mr. Perkins tells of an interesting  
discovery he made in the Cascade  
Mountains, near the head waters of  
the Willamette and Des Chutes rivers.  
Far out in this remote wilderness the  
surveyors found a colony of beavers,  
100 or more in number. The colony  
is situated near the middle fork of the  
Willamette and not far from the base  
of Mount Scott. The many little in-  
dustrious workers that comprise the  
colony have dammed up the river at  
the point of this habitation, causing  
it to overflow in many places and  
causing lakes several hundred acres  
in extent to be formed.

The discovery of this colony of  
beavers is interesting and important.  
These sagacious little creatures,  
whose elegant coats of fur have caused  
them to be greatly coveted by greedy  
men for ages past, have become  
nearly extinct except in a few remote  
localities untroubled by trappers and  
hunters. This colony is perhaps the  
only one of any size or number on the  
Pacific Coast, and for this reason, as  
well as the fact that it is a part of  
the Cascade forest reserve, the Govern-  
ment should take prompt action to  
protect them.

Game Warden Quimby, who prob-  
ably knows nothing of the existence of  
the colony, can no doubt find in the  
protection of these beavers an addi-  
tional and happy duty. The sur-  
veyors report that they saw a trapper  
in the vicinity of the beaver colony,  
and feel confident that the much-  
prized, furry-coated creatures are be-  
ing caught. A wagon filled with  
traps was also encountered in the  
mountain woods, and its destination  
could easily be guessed. As the colony  
is situated near Crater Lake, Na-  
tional Park, its protection will mean  
a valuable addition to the natural  
wonders of the park.

Mr. Perkins, who is a naturalist as  
well as an engineer, spent several days  
near the colony, making a study of its  
interesting inhabitants. He said it  
was something wonderful to note the  
intelligence and skill, as well as rea-  
son, with which these little animals  
constructed their dams and reservoirs.  
While they do not reason out by math-  
ematical formula the effect that water  
has upon structures of this kind, they  
nevertheless build them with all the  
skill and ingenuity of a hydraulic en-  
gineer. One of the most remarkable  
manifestations of their unerring skill  
and certainty by which they construct  
their hydraulic enterprise that Mr.  
Perkins noticed during his visit with  
the upper Willamette beaver colony  
was the manner in which the indus-  
trious little workers felled trees.  
They use the bark for their food and  
the limbs in the building of their  
dams and houses. Mr. Perkins said  
he saw stumps two feet in diameter,  
from which the beavers have cut trees  
for their dams and reservoirs, always  
rejecting trees that lean from the  
water, for while the beavers are good  
loggers, they are better craftsmen than  
they are timbermen, their aptitude  
nature preventing them from being  
able to transport heavy logs very far  
on land. However, Mr. Perkins said  
he saw them transport brush and light  
limbs several hundred feet from the  
woods to the water, and knew some  
of them to travel several miles from  
the river or any stream.—Telegraph  
Correspondence.

**ONE WOMAN AMONG THE  
THOUSANDS.**

We received a letter from Waycross,  
Georgia, a few days ago, from a lady  
who has lived there for years. She  
writes us that she had been troubled  
with female complaint for a long  
time, until she was reduced almost to  
a shadow. It effected her mind,  
she could not remember anything  
would get so confused and so nervous  
and irritable she could hardly sleep.  
She described her case as one similar  
to that of other women, and then  
ended the letter by saying she gained  
15 lbs. last month, and never felt  
better in her life, having no trace of  
her former troubles, slept well and  
ate her meals with a relish. This  
lady commenced the use of Dr.  
Clemens' Blood and Nerve Tonic just  
six weeks before she wrote the letter  
from which we copy the above.  
This tonic is in tablet form and should  
be taken right after meals. It feeds  
the food you eat into strong rich  
blood, making solid flesh and turning  
the nerves, curing disease by making  
healthy flesh. Pale, weak, thin  
people should use this tonic. For sale

## W. C. T. U. Column

The W. C. T. U. will hold a Franch-  
ise meeting at the home of Mrs. E.  
A. Wade, Nov. 7, at 2:30 p. m.

"FOLLOW THOU ME."  
I said, "Let me walk in the fields;"  
He said, "Nay, walk in the town;"  
I said, "There are no flowers there;"  
He said, "No flowers, but a crown."

I said, "But the sky is black,  
There is nothing but noise and din"  
But He wept as he sent me back—  
"There is more," He said, "there  
is sin."

I said, "But the air is thick  
And fogs are veiling the sun;"  
He answered, "Yet souls are sick,  
And souls in the dark and lone."

I said, "I shall miss the light,  
And friends will miss me, they say;"  
He answered me, "Choose tonight  
If I am to miss you or they."

I pleaded for time to be given;  
He said, "Is it hard to decide?  
If will not seem hard in heaven  
To have followed the steps of your  
guide."

I cast one look at the field,  
Then set my face to the town;  
He said, "My child, do you yield?  
Will you leave the flowers for the  
crown?"

Then into his hand went mine,  
And into my heart came He,  
And I walk in a light divine  
The path I had feared to see.

**NATIONAL W. C. T. U. RESOLU-  
TIONS.**

A service in memory of friends and  
members who have died during the  
year was a touching feature of the  
fourth day's session of the National  
W. C. T. U. convention. Reports of  
superintendents were also presented.

During the forenoon, 10-minute re-  
ports were made by seven superintend-  
ents. Mrs. Emile D. Martin, of New  
York, reported for the department of  
literature and art. Mrs. Martin said  
there was no more hopeful sign on the  
horizon of the organization than that  
they have gained the influence of pub-  
lic sentiment. The press reflects pub-  
lic sentiment and during the past year  
the journals of the country have given  
larger space to purity and temperance.

Mrs. Martin asked for the adoption  
of a resolution passed by the New  
York Convention W. C. T. U. as follows:  
"Resolved, That the innocence of  
youth, the purity of middle age and  
the sanctity of old age are alike  
shocked and degraded by illustrations  
of the female figure unclothed upon  
billboards and in other public places.  
We will use every proper means by  
striving to awaken public sentiment,  
by appeals to city or state authorities  
and by local means, if need be, to  
have this menace to public morals  
and stumbling blocks to clean man-  
hood and womanhood removed. This  
resolution to be submitted to all  
women's clubs and societies, asking  
their approval and indorsement of  
the same and inviting their co-operation  
in the movement."

Mrs. Martin also urged the adoption  
of Miss Helen Miller Gould's resolu-  
tion to regulate the midway dances  
at the St. Louis World's Fair, which  
she said had been accepted by the wo-  
man managers. She said:  
"We take courage in the fact that  
the Controller of the Treasury has de-  
cided that the appropriation of \$5,000-  
000 for the exposition will be with-  
held unless the contract to close the  
gates to visitors on Sunday during the  
whole duration of the fair is exco-  
rded."

There has been 250,000 pages of lit-  
erature printed and distributed free  
of cost during the year.

Mrs. Mary F. Lovell, of Pennsylvania,  
for the department of mercy, in  
brief said:  
"A department that makes it its  
chief aim to systematically implant  
the humane idea in the mind of the  
human race deserves success. Cal-  
ifornia has enacted a state law dur-  
ing the year requiring humane educa-  
tion in the public schools. In Colo-  
rado the same has been done and  
credit is frankly given to the W. C.  
T. U."

Nebaska adopted at its last state  
conventions to be presented to its  
incoming legislature a protest against  
trap shooting denouncing it as brutal  
and demoralizing.

**DISC GRAPHOPHONES AND  
FLAT RECORDS.**  
Perfection in Disc Graphophones  
and Flat Records was quickly achieved  
by the Columbia Phonograph Com-  
pany, the pioneers and leaders in the  
talking machine art, when it demon-  
strated the wonderful possibilities of  
the flat indestructible records. Up  
to that time nothing important had  
been accomplished. The machines  
were faulty and the records were not  
in the same class with the cylindrical  
records used on the graphophone. A  
knowledge of how to make disc re-  
cords and the proper material for  
which to make them seemed to be en-  
tirely lacking. The wide experience  
of the record department of the  
Columbia Phonograph Company en-  
abled it to grasp the true principles  
underlying the making of disc re-  
cords, and the first product was a  
great deal better than anything that  
had been accomplished by others.  
With the lapse of time the improve-  
ment that has come with practice has  
placed the Columbia Disc Records  
far in advance of all others. They  
are characterized by smoothness,  
sweetness, clearness and naturalness.  
And while preserving all these desir-  
able qualities they are the loudest  
records on the market.
