"Over eight thousand strokes of the hammer are required in building a Monarch Range. The best quality of steel plate, riveted firmly to tough, unyielding malleable iron, produces in the Monarch a range unsurpassed. This thoroughness in making is rendered possible only through the use of malleable iron."

Keep Warm
and be
Comfortable....

A cold house is an inexcusable evil. There's heat when you want it and just as you want it in Cole's Original Air-Tight Wood Stoves, and on a windy day particularly the heat doesn't go up the chimney. They are not only highly ornamental as a piece of furniture, but their chief virtue is being an article of utility. They are very economical in the use of fuel and soon pay for themselves.

We have also a good line of Steel Box Stoves, Cast Lined Heaters, Steel Ranges—the Bridge & Beach Super iron—and Cook Stoves in all sizes.

HAIR-RIDDLE HARDWARE Co.
Grants Pass, Oregon.

Where Hindsight is as good as Foresight is in our
NEW STYLES
IN
WINTER HATS.

We have a large assortment of pretty, graceful and stylish hats in the latest patterns and materials, which we are selling at greatly reduced prices.

While we are closing out our entire stock of goods at cost we intend to keep our Millinery the best and latest until everything is sold.

We will be pleased to have every one call and see our stock.

Mrs. J. A. Rehkopf
South Sixth Street, Grants Pass, Ore.

Constipation.
Health is impossible, if constipation be present. Such a deplorable condition is unnecessary. There is a cure for it. Herbine will speedily remedy matters. C. A. Lindsay, E. M. Brown, Fla., writes, Feb. 12, 1902: "Having tried Herbine, I find it a fine medicine for constipation. 50 cents bottle. Sold by Slover Drug Co. and Rotermand."

Neuralgia Pains.
Rheumatism, lumbago and sciatic pains yield to the penetrating influence of Ballard's Snow Liniment. It penetrates to the nerve and bone and being absorbed into the blood, its healing properties are conveyed to every part of the body, and effect some wonderful cures. 25c, 50c, \$1.00. For sale by Slover Drug Co. and Rotermand.

The Weekly Oregonian and the Cozoria both for one year for \$2 in advance.

CHICKENPIE and other things you like will be served by the Ladies Benefit Society of the Bethany church in the Odd Fellows hall on the evening of Wednesday, 21 of December.

OUR PERSONAL COLUMN
People as They Come and Go From Day to Day.

Max Smith has returned from Portland.

J. D. Cook spent a few days in town last week.

Roseco Bratton, formerly of Kerby is now clerking at the post office.

Miss Hattie Telford went to Coletin last Thursday to spend a week.

A. U. Barnard went to Portland Monday to buy another car of furniture.

Evan Wimer visited Grants Pass Tuesday and Wednesday. He is now located at Glendale.

Louise Moon and his mother returned Monday from three or four weeks visit to Pasadena.

J. B. Crawford went to Glendale last week Tuesday for a few days rest. He returned Thursday.

H. E. Foster and W. E. Olmstead, a mining engineer of San Francisco, were examining hydraulic mining property on the Applegate this week.

Mr. and Mrs. Mort Luckett arrived Tuesday from Meringo, Ill., to make their future home with us. Mr. Luckett will work at the Myers barber shop.

Mrs. C. H. Sampson had a few minutes visit at the train Wednesday with her brother, J. G. Webber, en route from Blaine, Wash., to San Francisco.

Miss Grace Good has been confined to her room with a mild form of typhoid fever. Miss Lucille McCreekey is assisting a portion of the time at the post office.

County School Superintendent Lincoln Savage has been visiting the various schools this week. Wednesday he went to Wolf Creek, Grave, Lealand and other districts.

Mrs. Volney Colvig, while in the north, called on the Abe Astell family at Sara, Wash., and reports a pleasant time. Mr. Astell is building a fine three story dwelling on their place.

Herbert Sampson has entered upon his duties as U. S. Inspector of dredges at the government works at San Pablo bay, Cal. The work at that place will probably require about two years or more to complete. There are 250 men at work.

J. Wolke and Leo Calvert have bought stock in the Grants Pass Hardware Co. and will conduct the business under the same name. Mr. Carlson still retains an interest but will devote his time to mining. He is interested in a number of mining properties.

L. B. Garner was in town last week with some nice looking quartz, which he found on Mule creek, west of West Fork, about 25 miles. He has been working on the property the past summer, but came here to interest parties in forming a company to do more extensive work.

W. L. Ingram and W. H. Ramsey have five copper claims on Slate creek about 18 miles from Grants Pass, which show good values and they expect soon to have active work commenced in development of the mines. Already they have done considerable work and have exposed the vein for 50 feet.

F. K. Anderson commenced mining on Galice creek with the first run of water. He had his mine fully equipped and ready to begin tearing down the bank before the rain commenced and as a consequence he lost no valuable time. Many of the miners were not ready to pipe when the rain commenced.

J. A. Blew, who has been identified with the Southern Oregon Marble Co. for several months, has severed his connection with it, and Tuesday night went to Sison, where he has accepted a position with the leading dry goods firm of that place. Mrs. Blew will remain in Ashland for a time.—Ashland Tidings.

Dr. G. L. Tufts and Capt. Malone held a number of meetings in the interest of the Anti-Saloon League. Their manner of dealing with the saloon question seems to be an efficient one and will without doubt produce results. Sunday evening a mass meeting was held at the opera house which was largely attended.

Mr. and Mrs. J. O. Sandberg arrived Sunday from Randolph, Neb., and have purchased a house to live in during the winter. He received the Courier regularly in Nebraska and is now looking up some of the farm property he has seen advertised in its columns. They expect others from the same locality to arrive in the spring.

What They Say.
Fred Croston—You have been telling about Josephine being big, heavy, heavy squash and mouser bears, but just come up to my house and see a tomato vine. It is one of the little pear tomatoes; it got started among the rosebushes and climbed the trellis and the top is 7 1/2 feet from the ground. If the vine was stretched out to full length, it would reach nine feet. We have picked hundreds of tomatoes from the vine but the frost has put a stop to it now.

A. Letcher—I would feel sorry for the man who poisoned my dog if I ever find him! He will stop that business. The dog was a full blooded Chesapeake water spaniel and I have refused \$50 for him several times. The poor fellow suffered for several days and Friday we found him dead. The children feel as though they had lost one of the family. By the way, you can talk about your 400 pound bear, but I killed a 600 pound one. Fourbit creek three weeks ago. He was a big one and I will have one of the finest bearrugs in Oregon. We killed two deer that trip, also. Got at Mount Pitt one day and had to quit, just as we couldn't carry any more game.

A new stage has been added to the Grants Pass and Crescent City route. The schedule was changed November 18, the stage leaving Grants Pass at 8 a. m. instead of 7 o'clock.

MYSTERY OF THE WEATHER
Local Weather Observer Paddock Speaks.

To anyone looking for a subject hard to comprehend, whose problems seem too deep to be solved by any human intellect, we would, without hesitation, recommend those changes in temperature, in moisture and in the winds commonly called "weather." Scientific men love to study and experiment in these fields, but they seem, invariably, to be able to proceed only to certain points and there they must stop; they cannot pass beyond, for the farther depths are enshrouded in a mystery too profound for the present capacity of the human mind.

The study of weather conditions and problems has, however, arrived at that stage of advancement where the government has deemed it wise to establish a department for the exclusive study and reporting of weather conditions. This bureau has, during the few years it has been in operation, been of great service to the country in its warnings to men both on land and on the sea.

In several instances, a knowledge of the fact that a storm was raging at sea has enabled a caution to be given to ships not to leave port, and in the case of the cyclone the probable direction it will follow has been given as a warning to those who live in its path. That all changes in the weather come as a result of the operation of fixed natural laws, is, I think, evident to all, but those laws and the "why and wherefore" of their working, is understood but imperfectly. We know, for instance, that the clouds we see above us, condense into water and descend upon the earth as rain. We know also that water is formed by the union of two gases, and that these two gases are a part of the very air we breathe and without which we could not live. Now, what is the secret of the formation of water, that it should come from clouds in torrents at some periods, and at other times, though the heavens are black with them, no rain whatever is formed? We may claim to explain all these things in all particulars, but the writer is firmly convinced that we are not standing upon the mere edge of the field of discovery; that the future is laden with a wealth of knowledge that we do not now possess, and, indeed, scarcely dream of. We have just received an object lesson on rainfall. The clouds have favored us with a little over 5/8 inches of water in two weeks' time. We are not alone in the matter however, for the storm has been general throughout the state and a good portion of the east. It is the opinion of scientists that the sun has been the controlling factor in this storm. The sun is sometimes covered to some extent with black spots, and we have been learning slowly that storm periods on the earth have a connection with them, that is, that when the sun shows a goodly array of spots, storms are sure to follow somewhere on the globe.

These phenomena in the sun, it has been ascertained, vary through a period of a little over eleven years, from a minimum, when only one or two, or perhaps none at all will be visible, to a maximum period when there will be several huge black patches upon the sun's disc, bearing all the evidences of terrific forces at work in that luminary. Such a maximum period culminated on the 31st of October, last, and at the same time the aurora borealis or "Northern lights" were seen over a large portion of the earth with a brilliancy not equaled in many years. One of these spots, visible a few weeks ago, was large enough to take in a small body the size of this little earth we live on. The storm we have just passed through has followed these phenomena, and we have had an amount of rain not equalled in the same length of time during the 14 years the station has been established at Grants Pass.

Best Liniment on Earth.
Henry D. Baldwin, Supt. City Water Works, Shillburg, Wis., writes: "I have tried many kinds of liniment, but have never received much benefit until I used Ballard's Snow Liniment for rheumatism and pains. I think it the best liniment on earth." 25c, 50c, \$1.00. For sale by Rotermand and Slover Drug Co.

The Portland Chamber of Commerce will send a letter to J. C. Stubbs, traffic manager of the Harriman system, protesting against the alleged discrimination of the Southern Pacific against Portland and other Oregon points. The counts in the indictment say that the service is inadequate, that locomotives and freight cars are old and small, that the line between Portland and California has not received its due proportion of the Harriman betterment fund, etc.

Dr. Jennings, the well known dentist, desires us to state that he expects to be in his office regularly until next spring and that his prices for all kinds of dental work will be very moderate for the high grade work that he performs. He is probably the most experienced dentist in Southern Oregon. Office in opera house block, Grants Pass.

Who would keep their children in good health should watch for the first symptoms of worms and remove them with White's Cream Vermifuge. It is the children's best tonic. It gets digestion at work so that their food does them good and they grow up healthy and strong. 50c at Slover Drug Co.

Miss Winifred Flanagan recital at 8 o'clock Friday, November 27, at L. O. O. F. hall, admission 15 cents.

Notice of Dissolution.
Notice is hereby given that the partnership heretofore existing between J. M. Booth and J. M. Rummel is dissolved. J. M. Booth having purchased all the interests of Jno. M. and F. M. Rummel. All money due on insurance or other basis due to the firm is payable to J. M. Booth who will continue the business in his name.
JNO. M. RUMMEL,
J. M. BOOTH.

THE LOCAL HAPPENINGS

Miss Laura Thomas delighted her audience in Grants Pass with "Mrs. Wiggs of the Cabbage Patch" and will delight the audience November 30.

The W. C. T. U. will meet at the home of Mrs. Lee Calvert, Friday, November 20, at 2:30 p. m. All members are urged to be present as business of importance is to be transacted.

Joe. Charrier, baker at the Bon Ton arrived Thursday and is now busy making pastries in the true French style. The combination of good baker, good flour and good ovens turning out some splendid bread at the Bon Ton.

When you get up with a bad taste in your mouth go at once to a drug store and get a free sample of Chamberlain's Stomach and Liver Tablets. One or two doses will make you well. They also cure biliousness, sick headache and constipation.

I have just received an instrument for testing the eye that is the latest improved, and glasses fitted from it are perfect. Send your eyes I children in and see if their eyes are all right. It may save them from those blackaches that they are complaining of. Alfred Letcher, Jeweler.

Lessons given by Frances Hill of Charlotte, West Virginia, in Art Embroidery, Mount Melikee and Lace work, Stamping done, Shirt waist, center pieces, new line materials. Lessons on Braid work. Ladies interested in needle work are invited to call at Mrs. J. K. Pign's. Terms: 12 lessons for \$5.

L. A. Lucas & Son have moved their hardware and harness stocks in to the new brick just completed by F. H. Schmidt. They will retain the corner for buggies, wagons, and farm implements, while the harness making and repairing will occupy the back part of the building. They now have plenty of room.

Miss Laura Thomas was an excellent reader while attending school in Grants Pass but since her graduation from the Chicago school of oratory, she stands well along toward the top of her profession, and she gains more friends and admirers with each appearance. If you want to thoroughly enjoy an evening, attend the reading Friday.

The American Athletic Club foot ball team gave their captain, Clair Jordan a surprise visit Friday evening. They spent the evening with games and foot ball talks and partook of an oyster supper. There were 12 boys present under they had a fine time and didn't miss the girls either. Each young man was given a souvenir bearing the team colors.

P. H. HARTH & SON
OUTFITTERS TO PARTICULAR PEOPLE
GRANTS PASS, OREGON

Wise Is the Man

who buys his COOL WEATHER CLOTHING in October. He has a larger assortment to select from, and he gets longer wear for the same price with the added satisfaction of being the first to appear in up-to-date apparel. It's the old story of the "early bird's" feast. How much wiser then, is the man who confines his October selection to

Schloss - Hand Tailored Clothes

A SCHLOSS-MADE SUIT is a perfect expression of the tailoring art. The design, the materials, the honest workmanship, the general effect being chosen with the specific view of the adaptability to the use it is to be put—dress, clerical or business.

The picture is intended to show the very latest favorite in FALL ATTIRE.

THE RELIANCE SACK

the new three button, double breasted cut, with square effect shoulders, close clinging collar, and the latest peg-top trousers. This is the natty suit the best dressed young fellows are wearing.

We Have Them at \$15

A merchant tailor would charge you more and give you no better fit or quality, and not as much style, and keep you waiting a week or ten days, beside. We have other styles for other men, at other prices. Before you buy your FALL SUIT drop in and let us talk it over.

P. H. Harth & Son

Outfitters to Particular People.

COMING EVENTS.

Nov. 20 Friday—Popular reading by Miss Laura Thomas at opera house.

Nov. 24, Tuesday—Ward conventions.

Nov. 26, Thursday—Forester's Mask Ball, opera house.

Nov. 27, Friday—City nominating convention.

Nov. 27, Friday—Piano recital at L. O. O. F. hall by Miss Winnie Flanagan.

Dec. 2—Christmas Bazaar at L. O. O. F. hall.

Dec. 4, Friday—Lecture by Prof. Herbert C. Howe of University of Oregon.

Dec. 7, Monday—City election.

Laura Gertrude Thomas of Columbia School of Oratory captured her audience with her character impressions; she was encored again and again. Her impersonations of the colored race was declared by all, to be the best ever put on the boards of Alexandria—Alexandria Press, Minnesota. Opera house Friday evening, November 20. Reserved seats 50 cents. General admission 35 cents on sale at Horning & Dupays.

WILL GIVE PIANO RECITAL
For Benefit of the Presbyterian Manse Fund.

When the question of a manse and the manse fund was first being talked of by the Presbyterian church, there was a desire in the mind of each one of the members of the church to do something toward the cause. This desire took firm hold of little Miss Flanagan, and she started her parents, Dr. and Mrs. F. W. Flanagan a few months ago, by announcing that she was going to give a concert for the benefit of the manse fund. This, coming from a young girl of 17, was looked upon for a time as a child's fancy. Not so with the little lady—she was firm in her desire. Now she has arranged for the concert which will be held at the L. O. O. F. hall, Friday evening, November 27, commencing at 8 o'clock.

Miss Winifred Flanagan, although young in years, is an accomplished pianist, and her playing would do credit to many musicians of more mature years. She has appeared many times in public and is always heartily received, her playing being universally enjoyed. The simple fact that she is to give a recital, will, no doubt insure a full house, and the added fact of the circumstances under which it is given, should crowd the room to its fullest capacity.

Mask Ball

The Foresters are making big preparations for a good time at their annual mask ball, which will be held Thanksgiving evening, Thursday, November 26, at the opera house. Demaree's orchestra will furnish the music.

The partnership existing between J. A. Rehkopf and Jos. Rauch which has continued many years was dissolved a week or more ago, by communicating same to Charles E. Hays, Chamber of Commerce, Portland, Ore.

Blue Print Paper by the yard or roll at the Courier office.

LAURA GERTRUDE THOMAS
The Talented Impersonator and Dramatic Reader Coming.

Miss Thomas will give one of her popular readings in the Opera house on the evening of November 20th. She will be assisted by some of the best musical talent of the city. Miss Thomas needs no introduction to the people of Grants Pass. All who were fortunate enough to hear her in her interpretation of "Mrs. Wiggs of the Cabbage Patch" in the early summer, were loud in their appreciation of the high class of art exhibited in her work. She comes highly recommended by both press and pulpit. Her charming personality and naturalness, so carries you along with her, that you seem to be a party to the scene and so vividly depicts. Miss Thomas will soon return to Chicago, where she graduated from the "Columbia School of Oratory" with high honors, and has already taken her place in the front ranks of her profession. Remember the date, Opera house, Friday evening, November 20th. Auspices of Eastern Star.

Tickets are on sale at Horning & Dupoy's. Admission 35 cents, reserved seats 50 cents.

Will Render "Pinafore." For this winter's work, will take up the opera of "Pinafore," which will be staged at the close of the season. This opera is full of bright, catchy selections of which people never tire. No matter how often it is given, it always draws a crowd. There were nearly 50 present at the meeting Monday. Pinafore music will be in readiness for the next meeting.

Stephen Potter Wanted.
Anyone knowing the P. O. address of Stephen Potter, will confer a favor by communicating same to Charles E. Hays, Chamber of Commerce, Portland, Ore.

IRELAND & MEADE'S ADDITION
to Grants Pass, Oregon.

The lots in this addition are especially adapted for residence purposes as they are very large and on rolling ground and higher than the city proper. For a short time only Ireland & Meade are making remarkably low prices. It will pay you to investigate their proposition before buying elsewhere. See W. L. IRELAND or H. V. MEADE for particulars.
