AMERICANS GO TO OXFORD.

Some Students from the United States Take Course at the English University.

The few Americans who are now t be found at Oxford and Cambridge are of two classes, mays the London Speak ar. There are the sons of rich men af-Anglomania, who are often more Eve themselves. There muy be ignored, for they will not want to participate i Mr. Rhodes' scheme. The second class and it is a very small one, consists of the sons of English born parents wh have settled in America, but wish to maintain English traditions. The some themselves, possibly do not, but I believe that nearly all the new schol-arships will go to Americans the tradi-tions of whose families are largely

English. I have never heard of a pure-bred American who came to Oxford or Com bridge mersly because he thought, or his parents thought, that he could get THREE TRAINS TO THE EAST DAILY a betetr education at those universities than he could get at home. An ducted) weekly to Chicago, Kansas comes into effect as he is now. But City, reclining chair cases (seats free) in any case, the result will be the same to the Feet described. American sons of English parents are as American as anybody, stell they are not likely to forget their nationality when they find themselves at Ox-

You will have, then, in Oxford, hundred young Americans, glorying i their nationality, glorying, that is, is being unlike the other young mer who now, to use a phrase, own the place. They will bring with them ideas of what university life should be what university life is in the United States. They may be every good ideas but they will not be the ideas of Ox. ford. The Americans will form them push those ideas, and they will not do it very quietly, for those are the ways tenscionaly at first, and with immenssesorn and dislike. And there we probably he a good deal of trouble which will hard the newcomers att Ocean and River Schedule more closely together Finally, I believe that the American ideas of what
a thoroughly up-to-date university should be like socially will make way, and Oxford will to some extent be Americanised.

> County Tressurer's Notice. There are funds in the treasury to this date. Oct. 16th, 1903.
