That old copybook maxim finds its most forceful application in the waste of vitality, which is called "burning the candle at both ends." A woman is

candle at both ends." A woman is often tempted beyond her strength by domestic or social demands. Some day she awakens from this waste of strength to the woeful want of it. She has become weak, nervous and miserable.

For weak, nervous run-down women, there is no better tonic and nervine than Dr. Pierce's Favorite Prescription. It restores the appetite, quiets the nerves and gives refreshing sleep. It cures local diseases peculiarly womanly which undermine the general health. It makes weak women strong, sick women well.
