convention, apportion delegates and Humboldt Standard. recommend date for holding pri

The latest publication to be issued in this city is The Real Issue, socialist paper published by C. W. Barzee as manager and Marcus W. Robbins as editor. It is a three column folio and is filled with matter promotive of the socialistic doctrine, confining itself strictly to the Issues in behalf of which it is launched.

Mrs. Florence Mabyrick has been released from prison and this famous case is at last ended. Mrs. Maybrick is an American woman who was convicted by a British jury in England on the charge of murdering her husband. It was with the utmost difficulty that a commutation of the soutence to life imprisonment was socured. There has always been a popular doubt of her guilt, and many efforts have been made in her behalf.

Some of the newspapers of Oregon are busily discusting the impropriety of the name, "Oregon grape," by which our state plant is popularly known. Some there are who lesist on calling it the Oregon holly. No doubt exists in the mind of anyone that the name "Oregon grape" is a misnomer, as the shrub is not a grape and does not in any way resemble a grape, except in the matter of bearing fruit. But names of such things can not be changed off hand. It takes more than a flat from a committee on exhibition to accomplish such a resolt. The name is more apparently than really misleading, as no on who ever sees the shrub can over imagine for an instant that it is a grape. Perhaps the name is not well chosen, yet it seems a very good nam and has a pleasant sound. It is the popular name and will probably continue to be so long after the suggest ed substitutes are forgotten.

Couty Court Doings. County Court met on Monday,

February 1, pursuant to adjorumen of January 9.

J. E. Loomis was appointed justice of the peace for Galice precinct, to serve until his successor is elected and qualified. On petition of T. B. Elliott, a tax

amouting to \$2.40 was ordered can celled, there appearing an error in the

In the matter of building a bridge across the east fork of the Hillingto river, it appearing to the court that there is necessity for its construction that the citizens of the vicinity desire construction, that the present bridge is rapidly deteriorating, and that the Waldo Smelting & Mining Co. has agreed to cut and deliver on the ground at netnal cost, not to exceed \$6.50 per thousand fort, all necessary lumber and timbers for a bridge at er near the foot of Hogue hill on the cast bank of the east fork of the Hili nois river and in addition, to pay half the cost, of grading a road approach ing Hegue hill, not to exceed \$100, it is ordered that C. Lovelace be autitor ised to select a site for such bridge at or near Hogue hill and to process with its construction as soon as the Waldo Smelting & Mintog Co. shall furnish lumber for the purpose. The following bills were audited
