and it seemed as if everybody who

could sell out was ready to do so and

town but that had gradually deterio-rated in value, and rival villages had

to my wife and asking her to make a

move in the matter. She got three or

four other women interested, called a

meeting and a committee was appoint-

called for a meeting of the men, and it was agreed that we should take a hand

and do something for the town. We

first took hold of the streets and filled

and graded them. That was done at

public expense, as were also the repairs

to the courthouse. Then we took the

aldewallss block by block. We got our

inmber cheaper by contracting with one dealer, and the work was also

done by one contractor. The next

thing was the fences, and we pursued

ments had been made they began wak-

a new town of It. Not a dwelling or

good walks, good streets, flowers and

shrubs everywhere, and the railroad

company gave us a new depot of brick.

The merchants woke up and began to

put in plate glass fronts and to adver-

tise, and all their lost trade came back

"One of the things we did was to

clean out all the wells in town. There

them had not been pumped out for

twenty years. The year before we started in we had eighteen cases of

typhold fever. The year after we had not one single case. Some of the house-

holders had to run in debt to make

their improvements, but as an offset

real estate is worth 25 per cent more

today. Not only that, but several new

business men and at least a score of

new families have come in, and we

have got more new houses under way

today than any other town of our size

In the state. In place of the cows and hogs we have flower beds and shrub-

bery, and in place of weather beaten

houses and decayed fences we look like
