A. E. VOORHIES, PROP. & MGR.

Entered at the post office at Grants Pass, Oregon, as second-class mail matter.

THURSDAY, MAY 19, 1904.

Henry M. Stanley, the well known explorer, estimated by many to be the greatest of the century, died in London last week.

Our political preferences will be found expressed in our editorial column and not in our advertising matter.

None of the candidates are better known and few are surer of election than is Hon. R. A. Booth, republican candidate for joint senator from Josephine, Douglas and Lane.

Mr. Chausse of the Observer seems to have adopted Candidate Cheshire as his own special protégé, taking the latter under his personal supervision and going about over the county to make him clerk.

C. P. Lovelace is steadily gaining in favor among the voters and he will continue to do so.

The Courier is an independent newspaper. It aims to give the news of the county and it claims a right to the legitimate profits of subscription and advertising.

More blooded stock. A recent arrival doing good work for Josephine County.

L. E. Akers received by express last Thursday night a full blooded brown Swiss bull, registered No. 1102 of the book of the Brown Swiss Cattle Breeders' Association, of Minnesota.

Sawer Bonds Voted Down. The special election held on Thursday to vote on the quantity of sawer bonds to be voted for the proposition by a vote of 10 to 20.

5 COURIER PIANO CONTEST COLUMN. I hereby cast my vote for

Date: 1904. Fill out the above coupon and send to this office.

TELEPHONE LINE TO GALICE

Galice Consolidated Mines Co. Soon Have Line Working

A. R. Cousin, manager of the Galice Consolidated Mines Co., informs us that the new telephone line is set up and will be ready to operate as soon as the necessary pipe line connections are made.

The wire for the new telephone line between Merrill and Galice has been ordered and this greatly needed improvement will soon be installed.

Base Ball Grounds. The American Athletic club has purchased a tract of land containing about three acres, near the Power house, which they are fitting up in excellent condition for ball grounds.

Cleaning Up at Rocky Gulch Mine. Harry Lewis and Frank Colvig were in town a few days this week from the Rocky Gulch mine at Galice and took in the horse race and the circus on Saturday.

The gravel that is left on the bedrock is remarkably rich, with plenty of gold in sight as the gravel is being hauled.

The Circles. Norris & Rowe's circus gave two performances here Saturday to large crowds.

The Operetta "Fashion". The operetta, "Fashion," was presented with much success on Friday evening at the Methodist church.

Whoooping Cough. "In the spring of 1903 my children had whooping cough," says Mrs. D. W. Copes, of Clatsop, Ala.

SEWER DUES WANTED. Notice is hereby given that bids will be received until 8 o'clock p. m. June 3, 1904, for the construction of the sewer from a point above the alley in block 4 intersecting Fifth street and running from there north 400 feet along Fifth street.

Remember that Dowsing Mowers have ball and roller bearings. You can save time at Century Bros.

BICYCLE THIEVES HERE

Three Wheels Stolen This Week - Two Recovered.

Bicycle thieves are again operating in Grants Pass after several months of inactivity in that line.

On Monday night Gene Good left his small size maroon colored La Crest wheel in front of Ernest Lester's home while he went in to see his sister, Gene had been in the house only a few minutes when the wheel was taken.

The same night Merin Mitchell lost his new Model Hagen No. 7223, which he had purchased less than an hour before. He left it in front of a store and while on the inside, the wheel was taken.

The Good and Mitchell wheels were found at Smith's mill south of town, having been left there by the riders.

Rinaldo Won Race. Large crowds attended the horse race at the granite track on Saturday. The contest was between "Rinaldo," the property of Baber Bros., and Sweetland and Whitsett's "Severity," for a purse of \$1000.

Rinaldo won the race, but he cannot boast of it, as Baber has broken that combination, so Rinaldo is up a stump. We think a good many democrats will be up a stump after election.

The moving picture illustrated concert given by Steel & Provost at Taylor Street church last evening, was a pronounced success.

Merlin Items. Merlin is still dry and getting drier; we have promise of rain now.

Woodville Items. Mrs. Randall left for Salem a few days ago to visit friends.

Wilderness Items. Mrs. H. D. Jones visited a few days up on Rogue river.

County Treasurer's Notice. There are found in the treasury to pay all warrants protested to April 23, 1904. Interest will cease from this date.

CORRESPONDENCE.

Island Siftings. Our wagon roads have been worked and put in good condition.

We have no sickness to report. There is plenty of work for willing hands.

Hayling will soon commence as there will be a big crop of all kinds. We are expecting more weddings in the near future.

Our school is progressing nicely, so with the same county officers who have officiated in the last few years, we will be a prosperous people.

A large amount of wood is being cut in this vicinity that is helping to make good times, with white men on the section, the money is made and spent here.

The weather is fine and balmy, with a little breeze, so it is fine for the working man. People are busy attending to their gardens, as a wet spring calls for lots of weeds.

Our stage is doing good business. Sometimes Mr. Egan has to use four horses on the stage hauling fast freight and passengers. Some of our people went to Grants Pass last week. They report lively times there. Several fine, new brick buildings under construction.

Ryan is in a muddle; he cannot boom himself, as Parker has broken that combination, so Ryan is up a stump. We think a good many democrats will be up a stump after election.

The Bone of Contention mine is still in operation. They have at the present time one foot of ore which is of value to its owners. This mine was first discovered by Edward Layton of Applegate and was soon disposed of to a Grants Pass company, which worked the property up to the year of 1903 and then was sold to Caterlin & Johnson of Portland, who are now running a tunnel of 900 feet to top a shaft, where the vein is 2 1/2 feet in width.

The Model hop yard company of Applegate expect to have a large crop this year. This yard was planted in 1892 by James Flowers & Co. of Santa Clara valley, Cal., and was run till 1895, then it changed hands, J. A. Bohkopf of Grants Pass being the successor, and is still in charge. Your correspondent visited the yard one day this week, and found the hop vines almost to the top of the poles in the twisted hops. They are from four to six feet in length. Ed Estes is in charge at the present time, and acts as superintendent for this firm, and I assure you the yard is well taken care of. Picking will begin in August if nothing interferes with the growth of the hops.

PROVOLT ITEMS.

Charles and George Fields of Provolt were at Grants Pass Saturday.

Mrs. Maggie Loech was visiting her parents and many friends at Provolt Friday.

C. M. Rexford of Applegate was at Provolt Thursday having some black-smithing done.

William Miller of Williams passed through Provolt Friday on his way to Missouri Flat, where he will visit the coming week.

Robert Bond of Bridgeport, Applegate, was at Provolt Monday, accompanied by John Perrault, the Applegate merchant.

Lem Trask of Grants Pass was at Provolt and Williams this week peddling the White sewing machine for the Hair-Riddle Hardware Co. He seemed to have had good success.

We have learned that the Golden Eagle mine has started up again under the management of Superintendent Whitehead, who has been at Gold Hill for the past two months. This mine was discovered by F. Miller some three years ago, and proved to be a good one. They are running a tunnel to tap the shaft some 250 feet, which will be completed this summer.

The Bone of Contention mine is still in operation. They have at the present time one foot of ore which is of value to its owners. This mine was first discovered by Edward Layton of Applegate and was soon disposed of to a Grants Pass company, which worked the property up to the year of 1903 and then was sold to Caterlin & Johnson of Portland, who are now running a tunnel of 900 feet to top a shaft, where the vein is 2 1/2 feet in width.
