The right man in the right place Conger Bros., Wilderville. will be C. F. Lovelace in the sheriff's | ... office. He is one of the fittest men for the place that could be selected in either party and if elected, will be one of our best officials. Ability to meet the requirements of the office is a sound reason for electing a camildate and It is this ability that demands votes for Lovelace from all parties." In public and private life he is a citizen without represeb and he will command as sheriff the same esteem and respect that he does as a man. If Lovelnce is elected the shortff will be the sheriff, and not a proxy, by which some other man controls the office.

Our of the thinnest campaign argoments that can be produced is that which makes a man's political faith standard to measure his ability or offi ciency as a county officer. Between national politics and the duties of county office, there is alsolutely in connection. The idea that any mas is a better or worse county official because he is a republican or a democrat, is aboutd and is uttorly threadture as a campaign argument. Personal qualification is the important thing in county politics. The Observer's attacks on the members of the county board, condemning them because they are democrats, have a nestecately shall low ring.

The inflated impalon of the Westle ereneat case, brought out a currerow to frighten rougs away from A. E. Reumes, was duly practured and is now atterty collapsed, leaving no see sible argument against his re-election. Mr. Reamve is one of the very best district attorneys Southern Oregon has ever had. Comfort and Style

When you try on a pair of shoes, look for two things-comfort and style-

You must have them both! Either one by itself is not enough. It is easy to make a stylish shoe, but it is very difficult to combine the two. To make a stylish shoe that is comfortable is the highest art.

A slice may feel comfortable yet not fit properly. Now it must fit or you are sure to have trouble, And the better it fits, the better it will wear.

The one shoe that "fits where all others fail" is "Queen Quality." It fits because it is made in an infinite variety of sizes and styles to suit all shapes of Teet and all occasions. If you want twice as many chances in selection, by Queen Quality.
