Work guaranteed, tivity at present within a radius of 50 miles from Grants Pass than there is anywhere else in the state. Our mineral field is as yet only scratched over and there are grand possibilities awaiting the miner on every hand. Grants Pass is the center of the South ern Oregon district and is the natural and only practicable distributing point for an immense area of mineral ground which is unsurpassed in the United States. Recognition of Southern Oregon district is slow in coming, but it will have to come sooner or later There are too many possibilities here to remain hidden long.

RICH RUCK AT RED BEAN

Risgs & Flamm Uncover Deposit of \$220 Ore.

At a depth of 100 feet a body of cre carrying values running as high as \$220 a ten has been uncovered by Riggs & Flamm, in the Red Bean mine, of Starveout Creek. The mine has been under development by them parties for several months past, and is making a splendid showing. Riggs & Flamm bonded the Red Bean last year to Eastern parties, and the Eastern people worked for some time upon it without success, finally giving it up. Their ill luck was due to an error in driving the tunnel, as they run parallel with the main ledge, and but a feet from it.

Republican Convention.

The republican national counten tion met in Chicago on Wednesday, June 21. The report of the committeo on permanent organization was adopted, Joseph G. Cannon was chosen personent chairman and was conducted to the chair amid a storm of applause,
