### Bring Your Wife Along

Women are the best judges of dress, their own or the Men's. They know a good thing when they see it, and you may rely firmly on their good judgment.

Bring her with you, by all means, let her help you select your Summer clothes. She'll understand that "genuine goodness" of a Schloss Art-Tailored Suit, better, perhaps, than you. However, you are sure of good treatment here, wether you bring her or not.

The difference in the cost of a Schloss-made Suit and that made by the 'merchant tailor" will be enough to open her eyes to the possibilities for money saving. Just think, we sell a suit like either of those shown in the picture at so little a price as

\$12.50

The "merchant tailor" would want to charge \$25 for a suit not so good in fit, style or quality. Here is a clear saving of \$12 50, which your wife can find good use for in adding to her own wardrobe. No wonder she is bent on break ing you of the "merchant tailor" habit.

This label on Schloss made clothes is to protect the wearer It stands for reputation, uniform excellence and upto-dateness.

"Drop in and let us talk it over.

Outfitters to Particular People.

NEW MACHINE A WONDER

New Quartz Crusher Surpasses Expectations

The new quartz crusher, a late inention of two Grants Pass men, W B. Sherman and W. R. Whipple, of which mention was made in the last issue of the Courier, has been given a thorough test by the inventors during the past week and gave results which far exceeded their best expectations. The results of the test fully justify the spectation that the new machine will ate a revolution in the mining in The inventors themselves

were thoroughly surprised at the work of the machine which showed an efficency four fold greater than they had

This machine arrived last week from The Library is in receipt of a new the iron works. It is circular in shape, 30 inches wide and six inches high, weighing 1100 pounds. It consists of three parts; a base, a disc and a hood, The Iver Johnson is an independent The disc revolves above the base and below the hood at the rate of 1000 revolutions to the minute. The hood beng between it and the disc which nakes its wenderful crushing capacity and its possibilities are something

marvelous On Friday a test was made with different varieties of hard rock and with purphyry. It devoured them all ing appetite for quartz. During the north side of the R. R. track, for a per minute to the fineness of 75 or 80 number of private celebrations in their waist pockets filled with fire short time only, price \$475. Lots mesh.
