VIRTUES OF RADIUM.

IT HAS CURED DISEASE WHEN OTHER REMEDIES FAILED.

Curious Instances in Which the Newly - Discovered Mineral Has Worked Wonders-Testimony of Doctors.

The experiments of scientists with in political and other conventions. radium are daily revealing fresh curative properties in that wonderful and precious mineral. Perhaps the most

This was described recently by Dr. Darier, the eminent oculist. In an Interesting conversation which our Paris correspondent had with him he men-

He r ently treated a case of rodent though the patient had for two years a single night's rest, his agony was completely and almost instantly ended by

shown that it is a powerful agent in equal amount for the same purpose. calming neuralgic and rhoumatic pains restoring sight to the blind.

In a case treated by the doctor a woman who had long suffered from epileptic fits and giddiness has not had a single attack since radium of weak intensity was annited to the temple

Radium was also tried with success, within reach. Then he would leave the on or building. house and roam about the streets for two or three hours, at the end of which these violent fits become that his wife

"He came to me and I treated him with he disappeared, and I heard nothing more of him for about three months, that the affliction from which he for- possess cementing qualities merly suffered had gone and that they were living together again.

"I have since treated other nervous patients with radium, notably a lady who suffered from photophobia, or fear of the light. She was very neurasthenic and believed that she was ataxic. She could not walk without falling and her eyes were so weak that she could not bear the light of day and had to wear dark spectacles. I diagnosed her trou ble as neurasthenia of a hysterical origin and I tried radium and applications a stronger kind than in the cases I have already mentioned, three hours per day on both temples. At the end of the third day she could bear the light without spectacles and could read and do needlework "

Men. Women and Children Stricker Down by Thousands as a Result of Carelessness.

the harvest of a war between great natenanced, by those in authority.

When an army meets with disaster the general may blame his subordinates, but the nation holds him to account. In railroading, as in war, inefficiency is a crime, and as the general in absolutely responsible for his command, the presilent and directors must be made to answer to the public. The conviction of a single \$25,000-a-year man might send a shudder round every directors' table in railroad accidents by a third.

Beautiful Women,

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all wemen beautiful. DEMAND FOR GOOD ROADS

Every Section of the Country later-Martin Dodge, director of the office of public road inquiries, Washington, recently said:

"It is remarkable what a hold the idea of good roads has taken upon the minds of the people of every class in every section. In some parts of the south this subject of good roads has actually superseded the race question

"They are begging from far off Alasthe Canadian side of Alaska, where curious instance of its influence, says good roads have received intelligent the London Mail, is that recorded below government attention, flour costs \$8. of the cure of a somnambulist who was In the distant regions, not far from the American line, the same flour costs \$32 because of the expense of hauling over the existing American roadways.

"The demands of the people throughout the south are forcing some of the some curious results which he most conservative opponents of govhad obtained in his work by experiment- ernment ald in congress from that part of the country to take an attitude of approval toward the project. It is a ulcer of the orbit, which had destroyed different matter to reply in the negathe ocular globe and all the tissues. Al- tive to the farmer who argues that the same government which gives about suffered from pains so intolerable that \$30,000,000 a year for river and har during that period he had not enjoyed bor improvements should willingly give \$8,000 000 per year for three years to enable him to build better roads, the introduction of radio-active powder. particularly when under the terms of External application of radium has the appropriation he must expend an

"The farmer, the railroads and aling caused by cancers which cannot be together on this subject. Good roads operated upon. On the other hand, Dr. feed the railways and in return reduce cash in payment of duties. an improvement of the vision isself is fited in both directions. The rural free concerned, and he does not regard as delivery and collection system in its serious the talk of those who speak of final value hinges on the question of good roads."

HIGHWAY HINTS.

Some Points on Road Construction

When a good road is built, a propsaid Dr. Durier, "on a male patient who system of maintenance should be suffered from strange somnambulistic adopted, as the most perfectly constructed road will soon go to pieces un malireat his wife and break everything less kept in constant repair, like a wag

Water and narrow tires aid one as other in destroying the roads, while, on time he would return home, go to bed the other hand, wide tires are roadand fall asleep again. So frequent did makers. They roll and harden the surface, and every loaded wagon be comes in effect a road roller.

The practice of using too soft, too brittle or rotten material on goods cannot be too severely condemned. for road building should be both hard when he and his wife came to tell me and tough and should by all means

Good material and careful mainte nance are the two most important requlsites to a good road, but the first without the second is a waste of labor and money.

The difference in the action of a narrow tire and a wide one is about the same as the difference between a crowbar and a tamper-the one tears up, the other packs down.

It is a very ordinary circumstance in France or Germany or Belgium to beat of Americans who are starting out up on a tour of 50 or 100 miles in parties of three or four vehicles and twenty to fifty people. They spend large amounts of money in the country through which these tours are taken. What is left there by the tourists who take advantage of these good roads is itself suffi-KILLED ON THE RAILROADS clent to pay the interest upon the cost.

The question is not how to make good roads, but how to keep good roads. It is evident that the travel, It is hard to understand the compla- and especially hauling, when roads are cency with which the American people soft from continued rains or especialtolerate the reckless disregard of life ly when the frost is coming out, does the greatest damage. The law prothe railroads of this country, says Les- hibits heavy hauling at such times, but he's Monthly. Each year the collected It is not often enforced. Now the remstatistics of the dead and wounded rival edy I propose is for the law to encourtrends, says a writer in the tions. In 1902 the injured numbered 64.- Indiana Farmer. If all two horse wag-662, and the killed 8,500. PUTS END TO DELAYS

Shaw Devises Plan for Hastening Delivery of Express Matter.

Companies to Deposit Lump Sums with Treasury Department and the Imported Packages Will Be at Once Released.

The treasury department has deling express matter from abroad through the customs port at New York which will expedite its delivery from eight to ten days. The new plan is the result of a personal investigation by Secretary Shaw.

Hereafter each morning the express companies will deposit a lump sum with the subtreasury large enough to cover all possible customs charges on the day's consignment. Upon its sent to the general storage. There, in the presence of a representative of the collector of the port, a representative of the express companies and a representative of the appraiser the packages will be unpacked and The duties will be paid from the deposit in the subtreasury and packages released and forwarded

In connection with this new procedure an arrangement has been made which will relieve the incoming tourists of annoyance at the piers. Cusand in allaying the excruciation suffer. most every aggregation of capital are toms authorities are forbidden by law to accept anything but actual Darier is bound to admit that he failed to obtain any definite result in to far as quently it has been the experience paper covers, or 31 stamps for the cloth-bound volume.
