

NEWS NOTES FROM OVER THE COUNTY

Althouse Notes.

The people of this valley have planted many potatoes. Gardens are very backward on account of cold north winds.

The prospect for fruit here is thought to be very poor, though blackberries are always a good crop.

Robert Grimmer & Co. have come in possession of the old Cohen ledge near Holland and luckily found a body of ore which shows much of the precious metal.

Leland Sitings.

The Leland stage, operated by Mr. Irwin, is doing a good business. A wedding is likely soon to take place if the parties do not change their minds.

Henry Miller has bought the Steam Beer mine, which he has had leased for the past year.

T. J. Mackin is hauling railroad wood. He has a large quantity in the woods to get out.

Mr. Clinton, of the Steiner ranch, will put up some much needed buildings on that ranch this summer.

The Leland Hotel is doing a good business. Mrs. Alma is a model landlady and keeps everything in perfect order about her house.

People are now cultivating their gardens which are growing finely. The farmers have on a promising outlook for big crops this year.

The Columbia mine is operating on a good head of water. A large area of ground has been piped off and a good clean-up is certain to be had.

More prospecting will be done in this vicinity this year than ever before. Many good ledges have already been found and many more will be opened this year.

A number of our people will go to Grants Pass to take in the circus and thus will a lot of money be taken out of the county, and the circus and the railroad will get it.

The work of retimbering tunnel No. 9 is progressing rapidly and by another month this tunnel, one of the longest in Southern Oregon, will be retimbered and made absolutely safe.

The camp of the crew operating the steam shovel is located half a mile north of Tunnel 9. There will be about 50 men in the crew and they will be here about eight months.

All the trestles are to be filled and some of the sharp curves are to be reduced thus shortening the track somewhat.

Better road work is being done this year on the roads than ever before in this valley.

A. H. Porter, the Leland supervisor, is doing some good work on the roads of this district.

Supervisor Porter is only grading the roads as he has no gravel to use in surfacing them and the county having no crusher, he cannot use rock of which there is plenty near at hand.

In the next district above on Grave creek, the supervisor, Wm. Light, is doing substantial and permanent work in grading, draining and graveling the roads.

A special feature of Supervisor Light's road work is that he is able to open ditches that run down hill, instead of up hill or on a level as so many supervisors are only able to do, though the water does not always run the way these tyro hydraulic engineers would have it. And he is also able to put in the culverts at the lowest points on the roads instead of up the hillside as is frequently done.

Your correspondent made a trip up Grave creek this week and found progress and prosperity on every hand. At the Greenback the 40 stamps are dropping with the regularity of clock-work and the gold product is keeping up to the rate that has made this mine one of the most profitable in Oregon.

Steam power is now used but it is to be replaced by electric power. This power is to be supplied by the station at Gold Ray and a force of men are now at work putting in the wires between Grants Pass and Greenback on which the current will be delivered to the motors at the mine. The wood used for fuel at the Greenback is cut on the mountains near by and is run in chutes to the furnaces. It is an interesting sight to witness the wood come like greased lightning down the chutes.

Newell Dyer has the contract to get out this wood but when this lot is out, his job will be finished. Across the gulch from the Greenback mine is located a promising ledge that is being developed by Newell Luman. Mr. Luman has an arrastre and has been able to make good wages with it, but owing to a light water supply he is able to operate it but a part of the time. This ledge is two feet in width and as depth is reached it steadily increases and there is reason to believe that it will show up to be as extensive and rich as its famous neighbor, the Greenback. This property would be worth investigating by persons seeking a good, safe investment.

Applegate Items

Miss Josephine Donegan having recovered from a spell of sickness re-

turned to Applegate Sunday to continue her school.

Geo. Hoffman of Thompson Creek visited Jacksonville Tuesday.

James Rock and son have closed down their sawmill for the season.

G. W. Winetrot purchased a fine piano from E. Shepard of Ashland.

Ed Gates, who spent the winter on the Applegate, left for Eastern Oregon last week.

The ball given at Roses Hall Friday, April 28th, was attended by a large crowd.

Mrs. F. O'Brien of Montana is visiting on the Applegate, the guest of Mrs. N. Pernoll.

Johnnie Knutson and Florence Mee of Thompson, attended the circus at Medford Wednesday.

Will Jordan and family of Merlin have returned to his mine, which is situated on Thompson Creek.

D. J. Mansfield left Applegate Monday for Medford where he intends to remain for some time.

Clarence Winetrot is going around with a big baseball nose, which he received from a foul tip Sunday, which we hope will not prove fatal.

Miss Lora Culy, of Steamboat, visited Miss Marie Winetrot Sunday.

Miss Ada Disworth, who is teaching school near Murphy, visited Miss Ruby Jones, Sunday.

Mr. and Mrs. Swartzfager, of Steamboat, visited Medford Monday. Their son John, who has been working near Medford, returned home with them Tuesday.

One of the most enjoyable social affairs on for a long time at Applegate was the birthday surprise party tendered John W. Pernoll, Sunday evening, April 30. John is the most popular young man on Applegate and numbers his friends by the hundreds.

The Pernoll home was beautifully decorated for the occasion, with cut flowers, La France roses predominating. Progressive whist was played, Mrs. O. E. Rose and John W. Pernoll getting first prizes and Mrs. Amanda Harriott and Elmo Throckmartin getting the consolation prizes. Delicious refreshments were served. Those present were, Mr. and Mrs. G. W. Winetrot, Mr. and Mrs. Henry Kubli, Mr. and Mrs. O. E. Rose, Mrs. J. C. Grubbe, Mrs. Amanda Harriott, Mrs. Nance Pernoll, Mrs. Miss O'Brien of Anaconda, Montana, Misses Maude, Alice and Myra Pernoll, Edith and Eva Grubbs, Gladys Rose, Messrs. E. B. Hawkins, John and Ben Harriott, Martin and Henry Pernoll, Percy Turner, Fred Wright, Elmo Throckmartin.

The Applegate and Palmer Creek baseball teams crossed bats on the former's grounds at Dunnington Flat Sunday. Applegate was the victor. Good playing was done on both sides, but the Applegate pitcher, Henry Pernoll, with his curves was too much for them. It was amusing to see them strike at the balls. Some seemed to think the bat had a hole in it, while others said the bat was short. This game puts Applegate in the lead of the Applegate Valley teams. They are now ready to receive any challenge from other teams. The fair daughters showed their interest in the game by cheering the boys from time to time. There was an unusually large crowd out to witness the game as the lookers-on always know they will see a good game when Applegate's name is on the score board. Following is the line-up:

Applegate: Pernoll p, Hamilton c, Benedict 1b, Sparlin 2b, J. Sparlin 3b, Meeks ss, Deagle rf, Throckmartin cf, Shaffer lf. Score 6 to 3. Der Capt.

Palmer Creek: Coffman p, Hamilton c, McKee 1b, Abbott 2b, Phillips 3b, Malloy ss, Haskins rf, Parsell cf, McKee lf. Score 6 to 3. Der Capt.

Woodville Notes.

Elmer Carter has returned from a trip to California.

G. F. Wright went to Grants Pass Monday on business.

J. W. Osborn and son of Grants Pass, were seen on our streets one day last week.

Wm. Bybee called here Monday on his way to Jacksonville from the Sulphur Springs.

The Homestake mine has closed for an indefinite time. Report says that work will not be resumed until Ray's electric line reaches here and is extended to the mine.

J. W. Wimer has sold his farm here to J. H. Bagley and has moved his family to their new home on Applegate. Mr. Bagley has rented this place to T. D. Williams.

J. M. Whipple has gone to the Hamersley mine, where he and two other men are doing some preparatory work in the tunnel. A full crew will be put on in a few weeks.

The hearts of the little folks and some older ones too, were gladdened by the receipt of May baskets, laden with flowers. Those who planned and carried out the scheme deserve much credit, as the baskets were very artistically and beautifully arranged.

J. W. Hasford, painter and paper hanger, has been doing work of that kind for G. F. Smithline, A. Schindler, Mrs. Randall. In fact, nearly every place in town is being improved in some way. Our school house is receiving a coat of paint and some other improvements have been made. Chas. Ensign of Sulphur Springs has contracted to do the work.

We want your property to sell.—SHERMAN & IRELAND.

Greenback Gleanings.

Weather showery at Greenback. Frank Foss from the Columbia mine was here Tuesday.

Ernest Briggs is with us again. We are glad to see you, Ernest.

Our school is closed this week, as our teacher is attending the institute at Grants Pass.

J. C. Lewis was here this week. Mr. Sutherland went to Grants Pass this week.

Six carpenters arrived Monday from Grants Pass. They will build an addition to the new mill.

W. S. Webb is back from Wolf Creek and is fitting up an office for Mr. Thompson, the underground foreman.

Mrs. Aldrich has returned from Leland where she went to assist in organizing a Maccabee lodge at that place.

We had a dog race the other day. All the canines in town were chasing Togo, the pet deer, but the admiral distanced them all.

Greenback can boast of a choir with Mrs. Gordon, who is a thorough musician, as organizer. They render some excellent singing.

A large congregation was out Sunday evening to hear Rev. Long, who delivered a very able and interesting sermon. We were pleased to see so many out. Come again.

An atrocious crime was committed near Glendale a few nights ago. The body of a man was found by the trackwalker in a burning fire of logs, brush, etc., evidently for the purpose of destroying all trace of the murderous crime. The man is unidentified so far, and no clue to the identity of the murderer. Indications show that he was killed on the railroad track and dragged out and burned.

The Leland stage narrowly escaped a serious accident last week. The team ran down Knob Hill. Just grazed corner of school house and threw the driver out. Scared scholars out through the windows, and the teacher jumped up on a chair, awe stricken. Another runaway team at the Martha. Jack Latyon's horses became frightened at the bursting of a compressed air pipe. One horse ran against a stump, broke loose from the wagon, turned summersault, landed on a rock pile. No damages but a few bruises. Incognito.

The latest in commencement programs at the Courier office. Wedding stationery that is correct and as handsome as to be had in the city.

Moore, the second hand, dealer will buy at the highest price any household or other article that may be offered for sale. And he has every kind of an article for sale cheap.

This is the season of the year when you must be careful of your hands and face. The cold raw winds which blow from the four points of the compass chap the skin—ROSE AND CUCUMBER JELLY is the only preparation that will protect the skin and prevent it from becoming rough. If your face is tender—if it becomes red, one application of ROSE AND CUCUMBER CREAM will effect a cure. It beautifies your complexion, keeping the skin velvety and fresh.

The Oregon Semi-Weekly Journal, in addition to containing Paul De Laney's new serial story, "The Shepherd," is issued twice a week and is brim full of the cream of the news of the world. It has decidedly the best market reports of any paper on the Pacific Coast. For the citizen whose postoffice facilities do not justify a daily paper, the Semi-Weekly Journal is the best investment in reading matter that can be made. For clubbing rates see the editor of this paper.

Levis and Clark Exposition Rates. Commencing May 29th and until October 15th, there will be on sale from all stations on Oregon Lines, special tickets to Portland, and return account Levis and Clark Exposition under the following conditions:

INDIVIDUAL TICKETS. Rate—One and one-third fare for round trip. Sale Dates—Daily from May 19th to October 15th, 1905. Limit—Thirty days, but not later than October 31, 1905.

PARTIES OF TEN OR MORE. For parties of 10 or more from one point (must travel together on one ticket both ways) party tickets will be sold as follows: Rate—One fare for the round trip. Sale Dates—Daily from May 25th to October 15th, 1905. Limit—Ten days.

For organized parties of 100 or more moving from one place on same date, rate and limit as for parties of 10 or more.

STOP-OVERS. No stop-overs will be allowed on any of the above tickets. They must be used for continuous passage in each direction.

COACH EXCURSIONS. Coach excursions will be run from time to time for which individual tickets good only in coaches will be sold at very low rates. Particulars as to rates, dates, etc., will be announced later.

W. E. COMAN, G. P. A. Saved by Dynamite.

Sometimes, a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for Consumption, Coughs and Croup, which cured her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At all druggists, price 50c and \$1.00; guaranteed. Trial bottle free.

THE BUSINESS POINTERS

News Notes From the Business Men to Readers.

Dr. Planagan, Physician and Dentist. M. Clemens, Prescription Druggist. A Gentleman's smoke—the Stage Line.

W. L. IRELAND writes FIRE INSURANCE. A few diamonds left at Letcher's Jewelry store.

High grade ore in small lots bought.—W. G. Wright. Bamboo Poles for 5, 10 and 15 cents at Cramer Bros.

When you don't know where to go, go to People's market. See Dr. Gobbe about your eyes Monday, May 8th, at the Josephine hotel.

Poultry netting and wire fencing in various styles and prices at Cramer Bros. And still I am insuring and selling real estate at the old stand, J. E. Peterson.

It is your own fault. If money is worth saving, its worth walking to People's market.

If your watch does not keep correct time, take it to Letcher's. He will make it go just right.

Timber claims, Homesteads.—W. B. Sherman, Rooms 10 and 12 Masonic Temple, Grants Pass Ore.

It is just as easy to cure a headache as it is to have one, by using WRIGHT'S PARAGON HEADACHE CURE. Go to Corner for Plumbing.

Kodaks—Courier Building. Houses for rent by SHERMAN & IRELAND.

High grade ore in small lots bought.—W. G. Wright. A splendid line of Royal Charter Oak Ranges at Corner's.

When looking for a wedding ring, let Letcher make you one. Our telephone number is 515, regular delivery. People's market.

Columbia Bicycle, second hand but in good repair, only \$15 at Cramer Bros.

NEW ARC LIGHTS SOON TO BE BURNING

Grants Pass Will Be Best Lighted Town in Southern Oregon.

Carl Guntner, city electrician, for the G. P. N. W. L., & P. Company has the work completed of setting the additional poles and of stringing the heavy copper wires that will be required in the installation of the arc lights that are to replace the incandescent lights on the business streets of Grants Pass.

The lamps and transformer former have arrived from Schenectady, N. Y., where they were manufactured, and so soon as the transformer station is completed, which is expected to be by the last of next week, the lights will be installed and Mr. Guntner expects to have the streets lighted with the new lights by the middle of this month. The transformer station will be a small brick structure and will be located on the Company's lot back of the Masonic building.

There will be nine of these arc lights, six to be on Sixth street and two on G street and one on Fifth street at the intersection of the alley that is back of the business houses along G street. Of the two lights on G street, one will be located at the crossing of Fourth street and the other will be beyond Gilbert creek at the angle where Maine street diverges from G street. The Sixth street lights will be located at the intersections of A, C, E, H, J and L streets with that street. All the arc lights will be about 35 feet from the ground and over the center of the intersection of the streets on cables that will be stretched from poles set on the street corners at opposite angles. By so locating the arc all the light can be made available in lighting the four sections of streets from each crossing. The number of incandescent lights in the city will not be decreased for the new lights are being placed on the residence streets in the outlying districts and it is probable that by the close of this year there will be more of these lights than is now in use including those now on the business streets. The depot grounds will also be better lighted for the railroad company will put up two arc lights, one at the depot and one near the round-full weight.

It will be no vain boast to state that with the new light system fully installed that Grants Pass will have the best lighted business and residence streets of any town in Southern Oregon. Medford depends only on incandescent lights and has so few of them that the streets are but poorly lighted. Ashland has reduced the number of its arc lights to six and the incandescent lights, are not so closely placed on the residence streets as are those on the streets of this city.

Boys Puncture Bicycle Tires. Hoodlum boys of Grants Pass have taken up a diversion that is a favorite of these embryo hobos of other towns, that of puncturing with tacks the rubber tires of automobiles and bicycles. Their method of doing the damage and yet avoid detection, is to pretend to be feeling the tire of an automobile that they find standing on the street, or of a bicycle that has been left on the sidewalk. They have tacks in their hand and while examining the tire, stick the tacks in it. So soon as the auto or bicycle is started, the tacks are driven their full length into the tire, puncturing it and letting the air out. These hoodlums also add to their diversion by sawing tacks along the streets and paths frequented by bicyclists. These tacks are, invariably new and as this class of boys are not over burdened with cash nor with honesty it is safe to assume that they steal them from the stores. As the police, as well as the bicycle and automobile owners and the merchants are on the lookout for these boys there is a likelihood that they will get a chance to take up their residence at the reform school where they will be given diversion in plenty as well as a wholesome training in respectability and honesty.

Growing Aches and Pains. Mrs. Josie Sumner, Bremont, Texas writes, April 15, 1902: "I have used Ballard's Snow Liniment in my family for three years. I would not be without it in the house. I have used it on my little girl for growing pains and aches in her knees. It cured her right away. I have also used it for frost bitten feet, with good success. It is the best liniment I ever used." 25c, 50c, \$1.00 For sale by Rotermund and The Model Drug Store.

The Richest Man in the World. The richest man in the world can not have his kidneys replaced nor live without them, so it is important not to neglect these organs. If Foley's Kidney Cure is taken at the first sign of danger, the symptoms will disappear and your health will be restored, as it strengthens and builds up these organs as nothing else will. Oscar Bowman, Lebanon, Ky., writes: "I have used Foley's Kidney Cure and take great pleasure in stating it cured me permanently of kidney disease, which certainly would have cost me my life." For sale by H. A. Rotermund.

MAKING A GOOD ROAD

Cut-Off on Stage Road at Selma Good Piece of Work.

County Surveyor H. I. Reynolds was in the Selma neighborhood last week doing some land surveying. While there he examined the new cut-off near Selma in the Grants Pass-Crescent City stage road that the direction of Road Supervisor W. H. Wimer. Mr. Reynolds states that a good job has been done and that this section will be one of the best roads in Josephine county so soon as the rough spots are smoothed off and the widened that teams can readily pass. This new section leaves the old road just beyond the Anderson place at the point where the road heretofore crossed the right fork of Clear creek, and follows down the east bank of the creek and joins the old road near where that stream empties into Deer creek. It has a very easy grade up the creek valley, in few places reaching one per cent, and only one section has a grade of 3 1/2 per cent grade. Almost the entire distance is on solid rock, mostly slate, with a section of diorite, and when it becomes worn with travel it will be as smooth as a paved street. This new section is 1 1/2 miles in length being a few rods shorter than the abandoned section. While this new road has cost considerable to build yet it will be a most profitable investment for the county as it will never require any great expenditures for repairs for it never gets muddy nor be washed out by floods. It is a decided improvement to the stage road, over which there is more freighting and travel than on any other road in Josephine county, for it will eliminate two long hills, having grades of 10 to 12 per cent and a half mile of heavy clay road, that was almost impassable for six months of the year and the point that plagues the taxpayers is that it does away with three bridges, two across the main stream of Clear creek and one across the west fork of that creek.

This road improvement is in line with the policy now being carried out by Judge Booth and Commissioners Lovelace and Logan of locating the roads on permanent routes and of eliminating all heavy grades and swampy places, and also to do away with all bridges possible. The old make-shift plan of doing road work is now a thing of the past in Josephine county and whatever money is expended on the roads is with a view of making improvements that are practical and permanent, though the first cost may be high. As each section of road is to be improved the expenditures for repairs thereafter is reduced to a minimum and eventually, that bottomless mudhole into which the road funds of Josephine county has heretofore gone, will have been done away with.

Terrific Race With Death. "Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was the effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at all druggists; price 50c.

Workmen, Attention! All members of Josephine lodge No. 113 should attend next Monday, May 8th, to hear Brother C. Hogue, Past Grand Master Workmen, who will explain the new rates of assessment which go into effect June 1st. Alfred Letcher, M. M.

City Treasurer's Notice. There are funds in the City treasury to redeem all outstanding warrants, protested to November 1, 1902. Interest on same will cease after this date. Dated at Grants Pass, Oregon, April 22, 1905. COL. W. JOHNSON, City Treasurer.

County Treasurer's Notice. There are funds in the treasury to pay all warrants protested to January 1, 1902. Interest will cease from this date. J. T. TAYLOR, Treasurer of Josephine County, Oregon. April 28th, 1905.

Why I Can Sell the Best Millinery at Low Prices. I own my building, so have no big rent to pay. Am of the main business street so do not have many of the expenses such as big rent, high insurance and taxes, street sprinkling and a number of other bills that force other stores to keep their prices up. One Block East of Josephine Hotel is the location of my store, where can be found as large and complete a stock of Millinery Goods as ever brought to Grants Pass, and quality the best, in style the latest, and in variety of shapes and effects so full that all may find what they want. Call and look over my goods and learn my prices, whether you wish to buy or not. Cor. Seventh and E Sts. Mrs. M. P. ANDERSON.

G. A. Cobb Real Estate Company Sells Real Estate and Personal Property. Horses Bought and Sold. Josephine County property exchanged for property elsewhere. Exchanges made on easy terms. In fact, a general line of trading done in all lines of business. If you have anything to sell cheap, let me know. If you want to buy anything cheap, I have it.

LADIES, REMEMBER Dr. Schueler's Alterative & Neosanguis Cures All Female Disorders, no matter if given up by your physician. For sale by ROTERMUND, Druggist.

Grove's Tasteless Chill Tonic has stood the test 25 years. Average Annual Sales over One and a Half Million bottles. Does this record of merit appeal to you? No Cure, No Pay. 50c. Enclosed with every bottle is a Ten Cent package of Grove's Black Root Liver Pills.
