JOSEPHINE COUNTY
ASSESSMENT DOUBLED

Valuation 1904, \$2,034,095 and for 1905 Over \$4,000,000
Rates to be Lowered.

County Assessor W. H. Fallin has completed the field work of making up the assessment roll of Josephine county for 1905. While no totals have been made Mr. Fallin is confident the roll will show over \$4,000,000. For 1904 the roll was \$2,034,095, and this year's roll will show double that of last year. It has been the rule of County Assessor Fallin to list all property at its actual cash value or as near as can be ascertained. Under this rule the valuation on some property has not been changed but most property has been doubled and some tripled in valuation. Farm lands were rated according to their value and timber land entered as such, is assessed at \$7 an acre. Railroad land assessed last year at \$1.50 and \$2.50 per acre, is valued this year at \$3.00 and \$5.00 an acre. The county intended to have had all timber land, railroad and private, crissed this summer and given valuations according to its worth. For that purpose C. M. Stites of Williams, one of the most expert cruisers in Southern Oregon was employed. Much of the timber land is up in the mountains and the hardships and exposure on his trips caused Mr. Stites to be sick for some time which so delayed him in his work that he has been unable to complete the crissing of the timber land in time for Assessor Fallin to make his valuations by it. The crissing will be complete in ample time for next year's assessment and the vast area of timber land in Josephine county will hereafter pay taxes on its real valuation.

The Southern Pacific will now pay taxes on \$12,000 a mile on its 37 miles of road in Josephine county, instead of \$5000 a mile, the valuation last year. The railroad company put in their rolling stock at \$400 a mile, the same as last year. In making their valuations they put in locomotives at \$2000 each, passenger cars at \$1400, stock cars \$110, box cars \$105 and flat cars at \$70 each. As these valuations are less than a fourth of the worth of such rolling stock, Assessor Fallin put the company on the roll for \$1000 a mile for its rolling stock.

The Western Union Telegraph Company was assessed last year on its lines and office equipment in Josephine county at \$2945, while this year the company will pay on \$10,950. The Pacific Postal Telegraph Company paid on \$1026 last year, but this year will pay on \$7950. The Pacific States Telephone Company was on the roll last year for \$4570 and this year for \$13,500.

Assessor Fallin has been careful in fixing valuations and he expects to have the assessment roll for 1905 to be the most equitable as to property ratings of any yet made for Josephine county. While Josephine county is one of the larger counties of Oregon, both in size and value of property, yet Mr. Fallin has completed the field work, both in taking the census and listing the property with the assistance of but three deputies. Of these assistants John Kandle took the census for Grants Pass and Ex-Sheriff J. G. Hiatt of Selma, made both the census and property roll for all that part of the county lying south of Hayes Hill, on the Kerby stage road. D. E. Dotson did the field work for all the north part of the county. Mr. Dotson is now assisting Assessor Fallin in the office in making up the tax roll from the field books.

While the date is not officially set yet Assessor Fallin expects that the board of equalization will meet on the first Monday in October.

It is not the intention of Judge Booth and Commissioners Lovelace and Logan to have the assessment roll doubled with no corresponding reduction in the rate of the tax levy. They do not anticipate that the current expenses of the county for next year will be any greater than for this year, unless increased road building is undertaken, and with double the amount of property to pay taxes the rate can thus be lowered one-half. This big valuation and low tax rate will be more conducive to homeseekers and investors locating in Josephine county than a low valuation and a high tax levy; at least that has been the experience in other counties of Oregon.

Map of School Districts.

The school superintendent's office at the court house has never had a map of the county showing the school districts of the county. The superintendent as well as the district boundary board frequently have need of a map showing the relative limits of the districts for use in rearranging district boundaries and also in establishing new districts. To meet this need the county court has employed J. C. Lewis, an expert map maker, to prepare a map of the county that will show the school districts.

These maps will be 5x7 feet in size and will also show the location of all school houses, public roads, towns and postoffices and streams.

See Voorhies for Underwood Typewriters and Typewriter supplies.

Mining is our present excitement and many farmers are bending their land. The drills will soon commence. They have two steam power drills at Grants Pass which soon will be put to work here. If the ground prospects well they will ship four more drills and a thorough investigation will be made, when if the grounds are found sufficiently rich droppers will be placed at work.

Applegate valley lies in the gold belt and its tributaries have carried gold in paying quantities. These are Poorman's, Palmer, Sterling, Little Applegate, Steamboat and Thompson creeks, and Frairie and Whiskey gulches and these have yielded immense treasures and are yet rich.

Big Applegate confined in a narrow channel and spreads out at Bridge Point and at Provolet and has many bars on which gold is deposited during the high waters of the winter, and on these bars a person can make from \$1.00 to \$1.25 by robbing.

Harvesting is over and threshing has begun in the Applegate valley. The grain crops this season are large and the quality is first-class. The farmers of this section have almost abandoned raising grain and are raising hay instead.

The threshing run this season will exceed 20 days, which is but one-half the days put in 10 or 12 years ago. Hop fields now occupy the sandy loams of the river bottoms which loosens the grain area. On the high lands, the crops are short because of so much dry weather.

Granite Hill a Post Office.

Granite Hill, on the head of Loose creek, eight miles from Grants Pass, where is located the Granite Hill mine, now has a post-office, and mail deliveries to it began this Friday. The service will be daily, except Sunday and will be carried from Grants Pass to Granite Hill by the stage that makes round trips daily, arriving at Grants Pass at 10:30 a. m. and leaving for Granite Hill at 2:30 p. m. L. B. Wickersham, manager of the Granite Hill mine, is postmaster, but the office will be in charge of Lee Hill, who conducts a store at the mine.

Granite Hill, which two years ago consisted of but a prospector's cabin, now is a thriving village of 120 people and the need of a postoffice had become a necessity and its establishment is not only of advantage to the residents of the village, but to the settlers of the adjacent district as well.

Granite Hill is the twenty-fifth in Josephine county, the other offices being:

Grants Pass, Merlin, Leland, High, Wolf Creek, Placer, Grave, Greenback, Golden, Galice, Williams, Provolet, Davidson, Murphy, Wilderville, Wonder, Selma, Dryden, Althouse, Holland, Brownstown, Kerby, Wallace, Deering.

A Family Re-Union.

Mr. and Mrs. John E. Peterson returned Friday from Portland where they viewed the fair. They also attended a reunion of the Peterson family, which was held at Forest Grove at the home of Mr. and Mrs. Louis Singren, Mrs. Singren being one of the sisters. At this reunion Mr. Peterson met his sisters, Mrs. Pauline Singren of Forest Grove, Mrs. Hortense Hill of Los Angeles, and Mrs. Lizzie Hill of Los Angeles, and his brothers O-car Peterson, of St. Paul, Minn., N. G. Peterson, of Tullahoma, Tenn., and Adolph E. Peterson of Portland.

Of the seven brothers and sisters some had not met for 32 years and it was a most happy reunion. All are in the vigor of life and not a death has broken the family circle in the present generation. Two other brothers were unable to meet with the family, they being Theodore E. Peterson, of Durango, Colo., and Victor E. Peterson.

This interesting family was raised on a farm near St. Paul, Minn. The father and two sons served in a Wisconsin regiment during the Civil War. The father being killed in the last year of the war, while the two sons, of whom is John E. Peterson, one of Grants Pass' leading real estate dealers, were in the service until their regiment was disbanded at the close of the war.

Of course Galice is spiritually healthy, as well as law abiding, but there are other functions for a person to perform besides preaching, and among the younger generation there is a crying need for a "gliver," besides who can enjoy fried chicken dinner on Sunday without the preacher as guest? Go wise Carl.
