Beautiful Specimen of Ore.

The Grants Pass mineral exhibit has lately received an ore specimen which is one of the most strikingly beautiful in the whole collection. It comes from Douglas county, 15 miles west of West Fork station, from a property owned by J. M. Thompson. The specimen is in a large proportion native copper, nearly the pure metal, and its vivid coloring of green and bronze makes it exceedingly attractive in appearance. Besides copper the ore also carries good values in gold. The property includes four claims and the surface showing indicates an ore body of large dimensions though the development work is not yet sufficient to demonstrate the value of the property. Samples of this ore gives assay values reported as \$8 to \$25 in gold; \$4 to \$7 in silver and \$60 to \$91 in copper per ton. The property is accessible by trail.

Baseball, the second great American game, is said to have originated from the old games called "one old cat" and "two old cat." The first match game was played in 1846.

UNDER THE NEW PRIMARY LAW

What Candidates Must Do to Obtain a Nomination for Office.

Nominations for state and county offices in Oregon next April, in the republican and the democratic parties, will be made in the manner followed last May in the Portland city primaries. The nominating primaries will be held 45 days before the general election, which will come on the first Monday in June. All nominations will be made by the direct primary method, including those for governor, the legislature and other offices in the state, and for county offices throughout Oregon. The nominating election will be the first general test of the direct primary law.
Candidates for a given nomination will have their names placed on the primary ballot, on petition of at least 2 per cent of their respective party vote last cast for Representative in Congress in their electoral district, and the one who shall receive the highest number of votes in the primary will be the nominee of this party for the office, and will be voted on in the usual manner in the June election.
The number of signatures required on a republican primary petition for a state nomination will be 1000, the maximum required by law; on a democratic petition, 800. Candidates for a republican nomination in the First Congressional District must each secure 479 signatures and in the Second District 545. Candidates for the democratic nomination must each obtain 545 signatures in the First District, and 805 in the Second. These numbers are based on the vote of each party a year ago for representative in congress. The vote of each party at that time by counties and the number of signers required for primary petitions for state and county and congressional nominations are as follows:

	Republican	Democratic
	Signatures	Signatures
Baker	1,378	1,419
Benton	913	745
Clackamas	1,747	1,624
Clatsop	1,302	664
Columbia	947	340
Cook	1,496	848
Crook	841	848
Curry	828	1,177
Douglas	2,145	1,555
Gilliam	484	363
Grant	936	473
Harney	466	327
Jackson	1,798	1,373
Josephine	599	780

Lane	2,583	2,190
Lincoln	579	318
Linn	1,982	1,805
Malheur	690	399
Marion	3,099	1,802
Morrow	738	380
Multnomah	11,250	3,813
Polk	1,364	1,052
Sherman	638	301
Tillamook	680	347
Umatilla	2,126	1,818

Wasco	1,791	845
Washington	1,783	1,001
Wheeler	494	325
Yamhill	1,612	1,139
Totals	61,096	29,030
Totals, Congressional Districts—		
First	23,970	17,157
Second	27,126	12,773

The signers of a state petition must represent at least one-tenth of the precincts in each of at least seven counties in the state, and the signers of a Congressional petition must represent at least one-tenth of the precincts in each of at least one-fourth of the counties in the district. A petition for a county nomination must contain electors residing in at least one-fifth of the precincts in the county. In a district comprising more than one county the signers must represent at least one-eighth of the precincts in each of at least two counties in the district.
It will be seen therefore that the circulation of nominating petitions will be no small task because they will have to be circulated in a number of counties and in many precincts. One county such as Multnomah is not permitted by the law to furnish all the signatures on a petition for the nomination of Governor or Multnomah, Linn, Lane, Washington and Marion combined, because seven counties must be represented on the petition.

Abscess.
W. H. Harrison, Cleveland, Miss., writes, Aug. 16, 1902: "I want to say a word of praise for Ballard's Snow Lintment. I stepped on a nail which caused the cords in my leg to contract and an abscess to run in my knee and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Col.) He recommended a bottle of Snow Lintment; I got a 50c one, and it cured my leg. It is the best lintment in the world."
Abscesses, with few exceptions, are indicative of constipation or debility. They may however result from blows or from foreign bodies introduced into the skin or flesh such as splinters, thorns, etc. For sale by Rotermund and Model Drug Store.
Margaret of Savoy, daughter of Maximilian, Emperor of Germany, was governess of the Netherlands 1507-1530 and rejoiced in the possession of a very long, stiff beard.
