3 RED LETTER DAYS
September 28, 29, and 30.

R. O. McCROSKEY

Next Door to First National Bank.

Are You Engaged?
Engaged people should remember, that after marriage, many quarrels can be avoided, by keeping their digestions in good condition with Electric Bitters. S. A. Brown, of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia complicated with a torpid liver until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters which helped her at once and finally made her entirely well. She is now strong and healthy." All druggists sell and guarantee them at 50c a bottle.

Like Finding Money.
Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sand Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but after finding no relief in other remedies, was cured by Dr. King's New Discovery for Consumption, Coughs and Colds." Greatest sale of any cough or lung medicine in the world. At all druggists; 50c and \$1.00; guaranteed. Trial bottle free.

MISS BROOKINS ON CHRISTIAN SCIENCE

The Doctrine of Mrs. Eddy Expounded by Prominent Lady Lecturer.

An appreciative audience was in attendance at the Opera House last Monday evening to hear Miss Mary Brookins, C. S. B., of Minneapolis, lecture on Christian Science, the subject being "Christianity Is Science and Demonstrable." The speaker was introduced by Judge Booth, who said in part as follows:

"Ladies and Gentlemen: We have with us tonight a very distinguished lady in the person of Miss Mary Brookins, of Minneapolis. We have the opportunity and privilege of hearing a noted lecturer, one of the eighteen members constituting the board of lecturers for the United States, and if am correctly advised, one of the eighteen of the entire world, clothed with authority to lecture publicly upon the subject of Christian Science. The public press and many distinguished persons throughout the country have spoken in highest terms of Miss Brookins. The honor of introducing a lady so distinguished has been conferred upon me, who is not a member of the society, by the local members in authority. I therefore, esteem it a privilege to be permitted to do as much, and I now take great pleasure, ladies and gentlemen, in presenting to you at this time Miss Mary Brookins, and ask you to give her a careful and patient hearing."

Miss Brookins' address, in part, was as follows:
Christ Jesus expounded and exemplified Life that means power, authority, dominion over the flesh. It was not after the storm had subsided, but in the very midst of its fury that He said: "Peace be still," and there was a great calm. He did not wait for the ascension before declaring: "I have overcome the world."

In view of these assurances of man's dominion over all material elements, illustrated by what has actually occurred, it will never be found in the mind of man to be content with anything less than the conscious possession and exercise of life that is in perfect consonance with absolute good.

Christian Science teaches that the two Christian offices of preaching the gospel and healing the sick are so inseparable, so equal in importance, and so identified in purpose and method that one's Christian life is incomplete if either one is omitted. In a system wherein science and religion are one, the theology must be curative. Christian Scientists have been called

a prayerless people, but like many of the statements concerning them, this one is quite the opposite of the fact. Indeed, it is only through the teachings of this Science that we have found it possible to obey the scriptural injunction: "Pray without ceasing." While no one can be continually in the attitude of prayer, nor forever repeating its words or formulae, one can always be in silent spiritual communion with his God.

Through the peculiar method of our church service, in which the entire congregation is privileged to participate, our people are turned to closer and more general study of the Holy Scriptures. It would be impossible to find any class of people more devoted to the study of the Bible than the Christian Scientists are, for they have learned to regard it, not so much a history of the past nor a prophecy of the future as a revelation of eternal Truth, which is "the same yesterday, today and forever," and which consequently applies with full force to the needs of the present time.

So this Science that is religious because it is of God, and this religion that is scientific because it is founded upon eternal fact, instead of fancy or blind faith, and are welded into one sound and demonstrable doctrine, whose verity is attested by "signs following." Though not given much to statistics, we can say without exaggeration that many hundreds of thousands of so-called incurable cases of disease have been healed through Christian Science. Notwithstanding this astounding statement its work is by no means confined to the cure of physical ills—rather is this incidental to the vastly greater mission of healing sin and leading in all matters of genuine reform. It reclaim the sinner, not through fear of punishment nor anticipation of reward, but by the supremacy of Mind that is good, dispelling the illusion of his love of sin, and by so uplifting his sense of good and enlarging his affection for it, that he ceases to find satisfaction in aught but the way of holiness. Hosts of people have been and are being healed of the appetite for intoxicants, tobacco and opium through this sort of temperance work—proving it to be a prohibition that actually does prohibit the sin itself instead of spending its energies in the fruitless attempt to prevent the consequences of sin.

And here let us note, as we have seen before, that there is that native quality of aspiration, inherent in humanity, that will never, in its hope, and expectancy, and eager pursuit, stop short of the absolute, the infinite, the everlasting Truth itself. This being the case, there must be an exact and unmistakable way to this acme of achievement, this long-for goal, this "the desired of all na-

tions," and we believe such a way to have been revealed to this age, by our Revered Leader and Teacher, Rev. Mary Baker Eddy, in what has been named by her, "Christian Science." We also believe that the teachings of this Science, once thoroughly understood and rightly practiced, are fully adequate to the accomplishment of even so infinite an end.

I am well aware that this is a mighty assertion and that it may seem to many a preposterous claim. But anyone who, having ears will hear, or having eyes will read what we have to say, will find that we are ready to give many a reasonable reason for the hope that is in us, and, that it is simply and wholly out of deep interest in humanity's weal, and in loving solicitude for its weal that we ever offer our doctrine for your contemplation.

Sprains.

S. A. Read, Cisco, Texas, writes, March 11th, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I earnestly recommend it to any one suffering from sprains." 25c, 50c, \$1.00 at Rotermund's and Model Drug Store.

Cured of Bright's Disease.

Geo. A. Sherman, Lisbon Red Mills, Lawrence Co., N. Y., writes: "I had kidney disease for many years and had been treated by physicians for 12 years; had taken a well known kidney medicine and other remedies that were recommended but got no relief until I began using Foley's Kidney Cure. The first half bottle relieved me and four bottles have cured me of this terrible disease. Before I began taking Foley's Kidney Cure I had to make water about every 15 minutes, day and night, and passed brick-dust substance, and sometimes slimy substance. I believe I would have died if I had not taken Foley's Kidney Cure." For sale by H. A. Rotermund.

STREET HATS

Tailored Hats
Ready-to-Wear Hats
In Latest Styles and
Fine Assortment at

Miss Weston's
Millinery Parlors
East G St. six doors from Front Street
