Can She Save Them? All matter for this column is supplied by the Grants Pass Women's Christian Temperance Union.

On Friday afternoon, December 29, the W. C. T. U. met at the home of Mrs. Weidman on A street.

Many a poor mother who feels that those she holds most precious are gradually slipping away from her over the terrible precipice of disease, would be thankful to know what Doctor Pierce's wonderful "Golden Medical Discovery" has done to restore thousands of weak and wasted children to complete rounded, rosy, healthy, activity and life.

"Five years ago this last fall I was taken down with a fever and was very bad for several months," writes Mrs. Henrietta Bell of Diamond, Ohio, she continues: "Finally recovered from the fever, then my lungs became very bad. The doctor said I had consumption, and that he had done all he could for me, and he did not think that I could get well. My case was a very dangerous one. I became very weak, had night sweats, also very bad cough night and day. At times would spit blood. I felt as though my time on earth would be short. Requested my husband to get me a bottle of Dr. Pierce's Golden Medical Discovery, and perhaps it would help me. Before I had taken one bottle my cough was almost gone. The next to disappear were the night sweats. I am almost sure that if it had not been for your medicine I would not have been here today."

If mothers will only write to Dr. Pierce concerning the ailments of their family he will send them sound and valuable advice in a plain sealed envelope, and without any charge whatever. His remarkably wide experience has qualified him to deal with diseases which baffle the local practitioner. Address Dr. R. V. Pierce, Buffalo, N. Y.

Large quantities of platinum are now obtained in the settings of diamonds. The gold underneath the diamond is covered with a film of platinum, which acts as a reflector and never tarnishes. It enhances the beauty of the setting and gives the stone the appearance of whiteness that is sought by the jeweler, on account of the higher price paid for pure white stones.
