DAVIDSON

Clyde Jeter was out here this week
with several mining men from Grants
Pass looking over our mineral re-
sources.

A pleasant surprise party took place
at the residence of W. S. Bailly on the
23d inst, it being the birthday of
his son, Victor.

Theodore Payne, one of Provolt's
rustlers, was at Davidson this week
on business connected with the rental
of the Rehkopf hop yard.

Miss Pearl Davidson, who held down
a position as clerk at the New
York Racket Store at Grants Pass dur-
ing the holidays, has returned home.

Doney Brothers are making the best
use of the present run of water, and
things about their placer mine move
in a lively way. These gentlemen
are industrious men and are deserving
of success.

Mr. Isbam who recently purchased
an interest in the Woodpecker placer
mine is camped on the premises and
preparing for the season's run and
says he is going to prospect his claim
from rim to rim.

The party recently given up the val-
ley at the residence of Wm. Farris
did not terminate so pleasantly as on
other occasions; it is reported that
one of the attendants was peremptorily
challenged by a young school marm,
and he went home early.

The Mountain Lion mine is steadily
working their ledge and running the
mill; the lower tunnel is being driven
ahead by contract work and they have
another level above this which is al-
most in to the long shoot of high
grade ore. The Mountain Lion mine
has gone through quite an ordeal
of hard knocks and legal entangle-
ments that few other mines could
stand, but that is convincing argu-
ment of its true merit.

HOLLAND

Mrs. J. F. Kellogg has gone to
Kerby for a short visit with friends.

Mrs. Geo. Duncan and daughter,
Dama, were the guests of Mr. and
Mrs. T. A. Glynn last week.

Miss Lucile Smock gave a birthday
party to her friends on January 30th.
All had a very pleasant time.

R. P. George has sold one each of
his full blood Herefords to Seyferth
Bros., Tycer Bros. and John Wells,
of this valley.

Medford's tombstone man, Mr.
Kershaw, was at our burg last week.
He took several orders. He is a
rustler. What is the matter with
Grants Pass?

Holland real estate is on the boom,
real estate men from Grants Pass and
Medford were here last week looking
up business. They wore broad
smiles, so must have had success.

W. A. Leonard was in town one day
this week.

It will pay you to keep Chamber-
lain's Colic, Cholera and Diarrhoea
Remedy in your home. It only costs
a quarter. Sold by all druggists.

**DROWNED MAN FOUND
IN LOWER ROGUE RIVER**

**Fisherman Finds Body of Man
Near Marial—No Means
to Identify It.**

The body of a man was found last
week in Rogue river near Marial, but
it was so mutilated and decomposed
that no marks of identification could
be found. No person has been
drowned so far as known in that sec-
tion of the river and the following
letter has been received by the Courier
for publication, in the expectation
that the mystery may be cleared up as
to the identity of the unfortunate man.

So far as known no man has been
drowned this Fall or Winter in upper
Rogue river whose body was not
found. It is probable, judging by the
heavy boots worn by the man that the
body found at Marial was that of
some lone prospector who fell into
Rogue river or some of its lower tribu-
taries and was drowned. The river
being very swift and cold the body
would not float, but would be rolled
along the bottom and litterally worn
in contact with the rocks, unless
by a chance of the current it should
be thrown on the shore, as was the
case of this body.

The following is the letter in full
telling of the gruesome find:

Marial P. O., Curry County, Ore.
Jan. 27, 1906.

Dear Sir: The late heavy rains in
Rogue river washed ashore and left
clinging to the debris the mutilated
body of a man, one leg and both arms
and the head being severed from the
trunk or body. No clothing was on
the body except part of the under-
clothing and one heavy leather boot of
the old style make. Owing to the
state of the body and the time requir-
ed to hold an inquest, we have six of
us decided to bury the remains and
then notify the coroner.

There has been inquiries made by a
man by the name of Mitchell, also by
a lady from your town requesting
parties along the river to keep a
lookout for a corpse. R. L. Jones of
Marial P. O. was the discoverer of the
body while attending his traps. Any
information will be gladly furn-
ished upon enquiry.

Respectfully
JAMES WALTON
and six other residents.

Big Power Station at Gold Hill.
H. C. Perkins, the mining engineer
and surveyor, made a trip to Gold
Hill Sunday. Mr. Perkins states
that the Gold Hill Canal Company,
the Indianapolis company that has
bought out the Houck waterpower
and electric station and flour and
quartz mill at Gold Hill, will begin
next week the work of putting in
a new canal to supply water for the
big electric power station that they
are to build. This canal will be
three-fourths of a mile long, large
enough to carry the entire volume of
water in the river and will develop
31,000 horsepower.

This Company has lately added a
500 horsepower electric generator to
their present station and have a force
of men stringing wires to the Million-
aire mine in the Blackwell district,
three miles southwest of Gold Hill.
This mine is owned by another In-
dianapolis company which is install-
ing a 10-stamp mill to be operated by
electricity.

THE FARMER REAPS what he has pro-
vously sowed. The human body reaps
likewise the natural crop of weakness,
pain and death if the seeds of disease
have been sown by bad habits of careles-
ness in eating, sleeping and exercising.

KEEP WELL IF YOU CAN and when you
need a little help in keeping well use
Nature's remedies, that do not roughly
stimulate but gently quicken the action
of Nature's functions in a natural way.

Nature's laboratory furnishes the follow-
ing plants which enter into the manufac-
ture of Dr. Pierce's Golden Medical Dis-
covery: Golden Seal root, Queen's root,
Stony root, Black Cherrybark, Bloodroot
and Mandrake root.

If in doubt as to your trouble or need-
ing advice, you can consult, free of
charge, Dr. R. V. Pierce, chief consulting
physician to the Invalids' Hotel and
Surgical Institute, Buffalo, N. Y. All
letters are considered confidential and
answers bearing correct medical advice
returned in securely sealed envelopes.

"I suffered for nearly eight years," writes
Philip A. Patch, Esq., of Mobile, Ala., Deputy
Sheriff, "with malaria, which poisoned my
entire system and deprived me of my vi-
tality. I was cured in three months by using
Dr. Pierce's Golden Medical Discovery. I
know it was largely due to neglect and I
paid little attention to my trouble until I
became so run-down and weak that I knew
I had to do something at once to restore my
health. I began to feel better within four
days after I used the 'Golden Medical Dis-
covery,' and after using nine bottles I was
restored to my usual health, feeling better
than for years."

The most valuable book for both men
and women is Dr. Pierce's
Common Sense Medical Ad-
viser. A splendid 1008-page
book with volumes, with engravings
and colored plates. A copy,
paper-covered, will be sent
to anyone sending 21 cents
in one-cent stamps, to pay
the cost of mailing only, to
Dr. R. V. Pierce, Buffalo, N. Y.
Cloth-bound, 31 stamps.

Teachers' Examinations.
Notice is hereby given that the
county superintendent of Josephine
county, will hold the regular exami-
nation of applicants for state and
county papers at Grants Pass as fol-
lows:

USE OUR ELECTRIC IRON

And Do Your Ironing in Half the Time.
One of our customers said recently "I never realized
how much time I lost changing irons and going back
and forth between the stove and the ironing board
until I tried the Electric Iron."

An Electric Iron is always hot and can be regulated
to just the right heat. With current at 10c a kilo-
watt the monthly expense is very small. Call on or
telephone the office and our representative will call
on you.

**How to Get Fresh Coffee
Out of a Tin Can**

A coffee bean consists largely of cells. These in a green state, are filled with moisture and chemical
constituents. The roasting develops and fills these cells with a volatile essential oil (aroma). This vapor-
izes and a certain quantity escapes if exposed to the air.

In the usual package this essential oil vapor or gas continues to escape, in an ordinary sealed can there is
present sufficient air to oxidize and spoil it just as if the can were open. The vacuum can as now developed
and perfected, consists of a can, strong and easily closed, which is filled with coffee, then placed in a vacuum
chamber, the air withdrawn, and cover sealed while in the vacuum

In order to save all the aroma possible, the coffee is packed immediately after roasting and before the
essential oil has had time to vaporize and escape.

It takes a strong can to resist the air pressure from the outside when the air from the inside is removed.
An empty one will collapse like a paper bag. If a can is filled with tea and the air exhausted, the heads of
the can will snap in and remain concave. But the heads of coffee cans will in a short time become distended
as the vaporized oil produces a pressure on the inside sometimes greater than the air pressure on the outside,
thus the head of the can will be distended. This will explain the difference in appearance between the
vacuum cans containing tea and coffee.

After being in the vacuum can for awhile the vapor is re-absorbed. This assures a perfect blending of
all the different flavors of the various coffees that make up the blend, producing a very superior coffee. Ex-
haustive, thorough and practical application of the vacuum process has demonstrated the success and perfec-
tion of the vacuum Coffee can. Buy of

**SMYTHE'S
Rogue River Coffee Market**

A can of Hills Bros.' Highest Grade Vacuum Packed Java and Mocha Coffee and you will be able
to get fresh Coffee out of a tin can.
