**Chamberlain's Cough Remedy the Mother's
Favorite.**
The soothing and heating properties
of this remedy, its pleasant taste and
prompt and permanent cures have
made it a favorite with people every-
where. It is especially prized by
mothers of small children, for colds,
croup and whooping cough, as it al-
ways affords quick relief, and as it
contains no opium or other harmful
drug, it may be given as confidently
to a baby as to an adult. For sale by
all druggists.

**A BIG VENTURE TO BE
TRIED IN PLACER MINING**

**Two-Step Centrifugal Pump to
Clear Mine of Water - Gravel
to Be Hoisted 120 Feet.**

Grants Pass, Portland and Boston men are to inaugurate a mining venture near Yreka that will be a big undertaking and be a new method of drifting for gold. The company recently organized to handle this proposition is known as the Blue Gravel Mining Company and is composed of H. A. Corliss, W. T. Cope and Charles Gray of Grants Pass, Carl N. Jones of Portland and C. A. Rimback of Boston. Mr. Corliss, who is one of the most successful hydraulic miners in Southern Oregon, will have charge of the work at the mine. Mr. Gray, who is also an expert in placer mining, will be the foreman under Mr. Corliss. Mr. Gray will go to the mine next week taking his wife with him. Mr. Corliss left for the mine Tuesday, but his family will remain in Grants Pass. Mr. Jones, the Portland partner has been in Grants Pass for the past 10 days, and he accompanied Mr. Corliss to Yreka. Mr. Jones is a mining engineer and machinist and will have charge of installing the machinery that will be used.

The property embraces half a mile of the channel of Greenhorn gulch, a tributary of Yreka creek, and a mile and a half from the town of Yreka. This mine was worked for several years and over \$250,000 in gold taken out, but for the last two years it has been tied up in litigation and idle. The pay gravel, so far as worked, has proven very rich and averages about 200 feet wide in the ancient channel. It is 120 feet to bedrock and a large quantity of water to handle has made it a serious matter to work the mine. The mine is now equipped with two boilers, one of 60 and the other 40 H. P. that operates a large plunger pump. To keep the mine clear of water with this kind of pump proved a very expensive job, as the sand cut out the pumps so fast.

A new equipment entirely has been ordered for the mines. A two-step, centrifugal pump capable of handling 500 gallons of water a minute will be installed, as will also a larger and faster hoist for raising the gravel. The present equipment will be used for clearing out the mine and keeping the water down while the new pump can be set. It will be placed down in the mine and will shove the water to the surface. The power will be on the surface and will be transmitted to the pump by a shaft. Steam power will be used for the present, but if favorable terms can be secured electric power will be taken from the Siskiyou Electric Company's plant at Fall creek on the Klamath river. It is estimated that only a flow of 250 gallons per minute will have to be taken out of the mine, so the new pump will be able to keep the workings clear of water. This water is used for washing the gravel and is ample for the purpose.

The entire bed of the ancient channel will be worked, the earth above being held up by large timbers as fast as the gravel is removed. The gravel on being hoisted to the surface will be run through sluice boxes to take up the gold, the tailings then being run onto a dump. As the water is a steady underground supply mining can be carried on in the Summer as well as in Winter, and it will be the plan of the company to carry on work the year around. Mining men who are familiar with the property agree that it is one of the richest mines in Siskiyou county, and when properly equipped and worked will be one of the biggest gold producers on the Pacific Coast. Manager Corliss expects to put on a large force of men, so soon as the new equipment is installed, and work will be carried on day and night.

How's This?
We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by his firm.

Walding, Kinsan & Marvin, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 75c per bottle. Sold by all Druggists.

Take Hall's Family Pills for constipation.
To Cure a Cold in One Day
Take LAXATIVE BROMO Quinine Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

LELAND

Stock are doing well on the range and not needing any feed. Perhaps later on there may be some bad weather. We shall look for it even if we don't get it.

Mr. Blaisdell, the superintendent of the big mine down Grave creek has a large consignment of pipe for that mine. The railroad freight bill is many hundreds of dollars as it is of a large caliber. The Columbia mine is running on full time. This mine gets water from Grave creek.
We have some people from Michigan. They said when they left that state the snow was two feet deep on the level. When they arrived at Leland and found the weather so warm and sunny, they were agreeably surprised for they had been told that it rained here nearly all the time.

The Summer birds are with us. We are having fine weather with an occasional frost. The ground has dried so farmers can plow, but the miners need water. The late big rains gave them water for a time but as the ground was not thoroughly soaked before the last rain it soon dried up.

Work has been shut down at the big steam shovel camp near Tunnel 9 and only one man is there, as watchman. The three locomotives and all the dump cars are standing on the siding. The cause for shutting down the work of making the big fills at the trestles was that the earth had become too wet to handle well. So soon as the Winter rains are by the work will be resumed with a large crew of men. Wideawake.

Luckiest Man in Arkansas.
"I'm the luckiest man in Arkansas," writes H. L. Stanley, of Brono, "since the restoration of my wife's health after five years of continuous coughing and bleeding from the lungs; and I owe my good fortune to the world's greatest medicine, Dr. King's New Discovery for consumption if taken in time. My wife improved with the first bottle and 12 bottles completed the cure." Cures the worst coughs and colds or money refunded. At all druggists. 50c and \$1.00. Trial bottle free.

Good Showing at the Opp.
C. A. Myrick came down from the Opp mine last Saturday and Monday he returned taking his family with him. They will reside for the present in Jacksonville, but later on when a house can be had he will move to the mine so as to not have to walk the mile from the town to the mine. Mr. Myrick has been at work for the past month at the Opp mine where he operates a Burleigh drill. He stated that operations were progressing like clockwork at the Opp and that the 10-stamp mill is operated to its full capacity and for 24 hours each day including Sunday. Five power drills are employed in getting out ore and in doing development work and nearly 100 men are employed in the various departments.

The Casey & McWilliams mine, which adjoins the Opp property, is being developed and is showing up so satisfactorily that a mill is likely to be erected this year on it. Big preparations are being made at the Blue Ledge copper mine for extensive development and a large number of men are being employed.

Startling But True.
People the world over were horrified on learning of the burning of a Chicago theater in which nearly 600 people lost their lives, yet more than five times this number or over 3000 people died from pneumonia in Chicago during the same year, with scarcely a passing notice. Everyone of these cases of pneumonia resulted from a cold and could have been prevented by the timely use of Chamberlain's Cough Remedy. A great many who had every reason to fear pneumonia have ward it off by the prompt use of this remedy. The following is an instance of this sort: "Too much cannot be said in favor of Chamberlain's Cough Remedy, and especially for colds and influenza. I know that it cured my daughter, Laura, of a severe cold, and I believe saved her life when she was threatened with pneumonia." W. D. Wilcox, Logan, New York. Sold by all druggists.

No woman can look beautiful without good health. A woman's good health depends on those organs peculiarly feminine, and which so often become disordered, causing misery and dragging-down pain. Nature's laws are perfect, health endures if you obey them, but disease follows disobedience. The distressing complaints of women are often brought about by catching cold at a critical period, breathing foul indoors' air and long hours of work and nervous tension. Go straight to Nature for the cure—to the forest. Dr. Pierce's Favorite Prescription is Nature's cure for the distressing complaints of women. Prof. King, M. D., in his American Dispensary, says of Black Cohosh or Black Snake-root—"our early American Indians set a high value on this root in diseases of women. It is surpassed by no other drug, in congestive conditions of the parts where there are dragging pains and tenderness."
Lady's Slipper root is a "nerve stimulant and tonic, improving both circulation and nutrition of the nerve centers—favoring sleep and cheerful condition of the mind; of service in mental depression, nervous headache, irregularities of women with dependency."—Prof. King. Besides the above ingredients there are—Golden Seal, Unicorn and Blue Cohosh roots in Dr. Pierce's Favorite Prescription.
Dr. Pierce's Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Over 1000 pages and illustrated. Address Dr. B. V. Pierce, Buffalo, N. Y.
Dr. Pierce's Pleasant Pellets should be used with "Favorite Prescription" whenever a laxative is required.

Teachers' Examinations.
Notice is hereby given that the county superintendent of Josephine county, will hold the regular examination of applicants for state and county papers at Grants Pass as follows:

For State Papers.

A Guaranteed Cure for Piles.
Itching, Blind, Bleeding, Protruding Piles. Druggists are authorized to refund money if PAZO OINTMENT fails to cure in 6 to 14 days. 50 cents.
E. T. Lucas, Wingo, Ky., writes, April 25, 1902: "For 10 to 12 years, I had been afflicted with a malady known as the 'itch.' The itching was most unbearable; I had tried for years to find relief, having tried all remedies I could hear of, besides a number of doctors. I wish to state that one single application of Ballard's Snow Liniment cured me completely and permanently. Since then I have used the liniment on two separate occasions for ring worm and it cured completely." 25c, 50c and \$1.00 at National Drug Co., and at Rotterdam's.

The Original.
Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by H. A. Rotterdam.
