AS THE STRANGER SEES THE TOWN.

As a city of homes, and of progressive Grants Pass makes a deep impression upon all who visit the town. Every branch of social life, every line of Christian endeavor and every facility for thorough education is made easy for the inhabitant. As a community containing only satisfied people, there is none which equals Grants Pass, and the residents as a rule have permanently located themselves here.

This is, and always will be, the manufacturing center of this district, and there is easily obtained an abundance of electrical power, which will make manufacturing interests exceptionally easy of development. We have a box factory here as well as a sash and door factory, which are second to none. They will be found mentioned in another part of this publication where their advancement is fully described. The financial interests of the city are in good hands and managed in a progressive and energetic way. The moral atmosphere of the city is generally wholesome, it being in fact, a city of churches, a dozen different denominations being here represented. It is one of the most healthful cities in the United States, and bears the distinction of having the lowest death rate of any city in the Union. It is the residence of many professional men of ability and has always furnished its proportion of prominent representatives in all matters of State. There are numberless opportunities open for those looking for a business location, there being just now, owing to the rapid strides made in the fruit industry, a particularly fine opening in the way of a first class cannery, and the growing dairy business paves the way for a creamery. With the coming of the new rail road, we will without question see the erection of a furniture factory, and after such starts as above, a paper mill, and shingle mill will rapidly follow. There is no question that all those who read this discourse on the county of Josephine would do well to be influenced into investigating the possibilities of this territory. It means health and wealth to you, as well as a future home in one of the most beautiful spots in the West.

GRANTS PASS NOW OCCUPIES FRONT RANK

To the casual observer it would doubtless appear at first glance, and without due inquiry and investigation, that every business avenue of Grants Pass was fully occupied, but to those who are acquainted with this city and the vast opportunities offered within her borders, such by no means appears to be the case. It is true that some lines are already well filled in proportion to the present population, but surrounded as we are by a territory as rich as this with the development of the possibilities and latest resources yet in their infancy, the

grandeur of her future attainments is almost inconceivable to the average mind, and the various avenues and lines of business yet unoccupied will beyond a doubt prove a rich financial harvest to the pioneers who enter therein. A city is what the citizens make it. And a comprehensive, individual review, describing in full each retail interest and its accomplishment is ample proof, if proof is needed, of all the features to which we have drawn particular attention regarding Grants Pass and the surrounding territory. The sketches herein contained have been prepared for the purpose of reviewing and extending our acquaintance with the men and the establishments that carry on the affairs of this prosperous city. There is no place like home to buy anything that you need in any line. Home trading is the secret of success in all communities. We have held forth upon the boundless resources and possibilities of our county, and its ideal environments, but to make this territory and our city in particular and the busiest of its size, it is necessary that the wealth of the whole community be kept within circulation within its boundaries. Spend not your money in far away markets, it will never come back. But instead purchase supplies of every description from our home merchants, and we will assure you that you will not only receive the full value, but in the regular line of business you will have an opportunity of handling over and over the money destined to circulate in Josephine county. Your neighbors prosperity is just so much added to the general welfare of this territory, and your own prosperity in a great measure depends upon the prosperous condition of every merchant doing business in your midst. Patronize home industry and thus advance the prosperity of the city. Think of home interests at all times, and deal with those merchants whose reputations are known to you. You can always be assured of receiving from them the highest value and the best quality besides you will be partonizing neighbors and fellow citizens, whose chief interests are your own interests.

Home Baking
with
ROYAL
Baking Powder

The United States Agricultural Department has issued (and circulates free) a valuable report giving the results of elaborate experiments made by and under the direction of the Department, which show the great saving from baking at home, as compared with cost of buying at the bakers. All bread, cake, biscuit, crullers, etc., are very much fresher, cleaner, cheaper and more wholesome when made at home with Royal Baking Powder.
