

Your Spring Decorations

Your good clothes for Spring are here waiting for you to put on. If you are a man of judgment in clothes, you'll have a chance to exercise it this season, in comparing our suits as made by

Hart, Schaffner & Marx

with clothes produced by other makers. You'll say that the styles are better, the tailoring, the fit and the quality. We positively guarantee every garment bearing the Hart Schaffner & Marx label to be absolutely all-wool.

You'll find plenty of clothes this year which are not all-wool, they're part cotton, and they won't wear like all-wool. If we have an opportunity to cloth you, you'll be satisfied with your looks, and with our prices.

NEWS NOTES FROM STATE NORMAL SCHOOL

President Mulkey's Son Seriously Ill—College Events of Interest to the Public.

President Mulkey is still in Redlands, Cal., with his sick son. It is not known when he will be back, as he cannot return until there is a change for the better. The students are anxiously awaiting more hopeful news as we wish to have Pres. Mulkey and his son with us soon.

The committees from the High School and the Normal met Monday evening and made arrangements for the debate between the two schools. The question up for debate is "Resolved, That the Negro should not have been given the right of suffrage." The Normal has the affirmative and the High School the negative side of the question.

Prof. Mellinger was chosen chairman and the Hon. O. B. Watson, Rev. Wilson and Prof. Milan judges. The debate will be held March 30. A short program will be rendered in connection with the debate, and taking into consideration the able speakers on both sides of the question, the affair promises to be a success.

The girls' Literary Society meets next Friday. An excellent program has been prepared. The question, "Resolved, That Labor Unions are a greater menace to the industrial world than the combinations of capital" will be debated. Affirmative, Viola Phister and Jessie Wilson; negative, Ida Robinson and Cora Carter. The girls are taking a great deal of interest in literary work and their meetings are fine.

In athletics, baseball is the order of the day. The enthusiasts are "bringing" them over. A game has been arranged between the Seniors and Juniors as against the Freshmen and Specials. It promises to be a superb exhibition of the fine points in the National game.

Last Friday the members of the Athletic club met and elected officers for the various teams. Henry Pernoll was chosen manager and "Happy" Eastman captain of the baseball contingent; James Martin was chosen captain of the track team and Clarence Burke tennis manager. The finances of the club were gone over and found to be good.

Several of the students are on the sick list. Acting upon the doctor's advice Geo. Martin will not be in school for some time. H. Inlow has not been able to be around during the past week. Miss Lindley and Miss Vista Jacobs are reported ill.

The chapel talks during the week have been fine. Wednesday Mrs. Newman spoke on "The Psychology of Crowds" and she way she presented it showed that she had her subject well in hand. Thursday Miss Kaiser commented on the "Opinions of Crowds" and on Friday Prof. Mellinger spoke of the impossibility of violating a law nature.

I learn that certain parties are kicking because their names were in the paper last writing. Now Si, just let "Maud" kick and she will soon get over getting frightened.

Mr. Henry, the Hugo postmaster, is putting in all his spare time clearing land. This time of year is fine for that kind of work, while the ground is yet soft from the heavy rains.

Our farmers here are deeply interested in the fruit growing enterprise and several thousand grape cuttings have been ordered from Hon. A. H. Carson of Grants Pass and a nice lot of fruit trees have been ordered from Tangent. S. C. Ribbler.

New Paper For Medford.

Ashland is now to have but two papers, the semi-weekly Tidings and the weekly Record, and Medford is to have three papers the Ashland Tribune having moved this week to the latter town. This will give Medford three papers—the weekly Mail and the semi-weekly Democratic Times—Southern Oregonian.

J. M. Potter owner and editor of the Tribune announces that beginning with next week he will get out a daily edition of his paper as well as a semi-weekly. Medford has had a good growth the past year and now has close to 3500 population and Mr. Potter thinks it is a field that will fully warrant a daily paper. He is a good hustler and writer and is quite likely to make his venture a success and to make the Daily Tribune an important factor in the upbuilding of Medford.

MORE DAIRY COWS FOR ILLINOIS VALLEY

Are Imported From California— This Valley to Soon Have Creamery.

Joe Russell, the Josephine county, Oregon, cattle buyer, was over here last Saturday and Sunday, looking up dairy cows for parties over the mountains.—Record, Crescent City.

These cows are for Illinois Valley dairymen who are preparing to supply cream to the creamery now being built six miles south of Kerby, near the junction of the Sucker Valley road with the Grants Pass stage road, by George Matheson and Carl Johnson. A previous band of 50 young cows were purchased in Del Norte county in the early part of this winter and brought to Illinois Valley. The farmers of this Valley already had a large number of fine cows and with these additions from the noted dairy herds of Smith River and other sections of Del Norte county Illinois Valley will have more first-class milk cows than any other district of Southern Oregon.

Matheson & Johnson have their creamery building completed and they expect to get the machinery installed within the next week. The building is 24x40 with a basement fitted up for a coolroom where the temperature can be kept even to keep the butter in perfect condition. The creamery will start up on a cream supply from 300 cows and the assurance is given by the farmers that the number will be increased to 500 by a year hence. The managers expect to have Illinois Valley creamery better on the Grants Pass market and that it will be an article that will be the equal to the best butter to be had.

Favor Full Suffrage.

William M. Evans, the late republican candidate for mayor of New York City, in his speech at the luncheon in honor of the 86th birthday of Susan B. Anthony, said in part:

"I am here today because I believe this to be my place. It is the duty of every man to uphold the hand of every woman in her efforts to redress a great and unspeakable political wrong. How can any man with a heart and a soul and an intellect look his wife or daughter in the face and say that he is entitled to any political rights which she does not possess? That man has the soul of a hypocrite who tells you that he believes himself entitled to the ballot for the protection of his life, liberty and property and wishes to deny to his wife, the mother of his children, an equal right in the maintenance of her liberty, property and prosperity. Such an attitude of mind is inconceivable to me.

"And if I cannot conceive of the denial of this right by man, still less can I understand its denial by woman. Of all inconceivable things on earth, the woman anti-suffragists are the most so. They consider themselves qualified to discuss these questions, but not qualified to cast a ballot. They organize societies to clean our streets and promote good government of all kinds, yet refuse the ballot, which would enable them to choose servants to do these very things. They prefer privileges to duty. Let them do their duty by the side of men and women and not be so supremely unwomanly as to seek nothing but privileges.

"History shows us that women are the civilizers of society. They are the beings who make the characters of men, and to assert that they have not the right to vote by the side of men is the absolute negation of reason."

The Grip.

"Before we can sympathize with others, we must have suffered ourselves." No one can realize the suffering attendant upon an attack of the grip, unless he has had the actual experience. There is probably no disease that causes so much physical and mental agony, or which so successfully defies medical aid. All danger from the grip, however, may be avoided by the prompt use of Chamberlain's Cough Remedy. Among the tens of thousands who have used this remedy, not one case has ever been reported that has resulted in pneumonia or that has not recovered. For sale by M. Clemens.
