

**LELAND**

Everybody is busy making garden. All kinds of fruit is promising to be a good crop.

Kelly Dunken and wife are raising fine chickens, also gardening on a big scale. Mr. Dunken came from Eastern Oregon where he was in the drug business a long time. He wanted a country life, so hearing of Leland and its possibilities a healthy country, no wind, he came here to engage in the garden business. There is a ready market for the vegetables he can raise. His wife will run the chicken department.

The road that is talked of that will come from the Coast and end at Leland we understand will soon have work commenced on it. It will fill a long-felt want between Leland and the coast as a large amount of good farming land will be made accessible and give room for big settlement. There is a large body of good sugar and yellow pine timber on this road. There is talk of running a line of automobiles for carrying passengers. It will be the greatest improvement of anything in Southern Oregon.

Mr. Kelly, one of our neighbors, has a position in J. Hackett's sawmill as head sawyer. He is an efficient saw mill man. We understand that mill will be moved from Provelt to Merill in a short time. Wide-awake.

**Hawley's Strong Lead.**

The first preliminary canvass of Marion county, made by friends of Willis C. Hawley, candidate for congress, has just been completed. The total registration of the county shows about 4000 republican votes. Of these nearly 3000 are in the 10 Salem precincts. The poll of the Salem precincts, giving all doubtful voters to the opposition, shows 80 per cent for Hawley. It is practically the same in Aurora, and higher than that in Hubbard. In Jefferson it is almost as large. The strength of the opposition is in Woodburn and the two Silverton precincts. Hawley may lose these, with possibly two others. The pluralities for Hawley in Aurora, Hubbard and Jefferson, and the 10 Salem precincts, will represent his plurality in the county, as the remaining pre-

dicts will more than offset any pluralities the opposition may secure in Woodburn and Silverton.

Mr. Hawley has visited every county in the district except Curry, Lake, Lincoln and Tillamook, and he has active workers in all of these. He has every assurance that he will have pluralities in 10 of the 17 counties, and more than an even chance in three of the remaining seven. A careful and very conservative estimate, based upon reports from every part of the district gives him 45 per cent of the total republican vote.

Of course these claims will be disputed. To acknowledge them would be an open confession of defeat. Let the voter put this statement in his vest pocket and keep it there until April 21, and he will find that this estimate, like every other thus far made by the friends of Mr. Hawley in this campaign, has been more than verified. It is no longer a question as to his success but as to the amount of his plurality.

**Fire at Monumental Mine.**

The Crescent City Record states that a fire last week at the Monumental mine destroyed five houses occupied by employes of the company.

The mine was shut down last week as the bad roads to Crescent City made it too expensive to haul out the concentrates for shipment to San Francisco. Complaint is also made that the freight rates to San Francisco are exorbitant and that is another cause for the closing of the mine.

The Record states this shut-down is likely to be only temporary as it is expected a better vessel rate will be secured on concentrate shipments and that the drying up of the roads will lessen the team charges from the mine to tide-water.

Poultry Netting will keep the chickens and small chicks out of the garden. You can get all widths at Cramer Bros.
