**TO BUILD COAST  
 LINE OF RAILROAD**

**Is Plan of Southern Pacific-Will  
 Give New Route From Port-  
 land to San Francisco.**

The Southern Pacific is now giving  
 proof that they intend to build a  
 branch line to their Portland and San  
 Francisco road that will leave the  
 main line at Drain and go down the  
 Umpqua river to near the mouth of  
 that stream and thence down the coast  
 by way of Marshfield, Crescent City  
 and Eureka to San Francisco. A sur-  
 vey for this route was completed last  
 year, but the records were burned in  
 the San Francisco fire this Spring and  
 now the Company is having the line  
 run over again. A large party of sur-  
 veyors began work at Drain three  
 weeks ago setting grade stakes and  
 other parties are being put in the  
 field on other sections of the line. Of  
 work of resurveying the line and set-  
 ting grade stakes in Del Norte and  
 Curry county the Crescent City Rec-  
 ord has the following to say: "A crew  
 of 17 Southern Pacific railroad sur-  
 veyors arrived on the steamer Del  
 Norte, Monday and Thursday they  
 left for Curry county to begin re-run-  
 ning lines southward to the Klamath  
 river in this county.

"This crew will make a re-survey of  
 about 30 miles north and south of the  
 State line, as all the papers pertaining  
 to the survey made last Summer were  
 destroyed in the San Francisco fire  
 last April. A portion of the route in  
 the southwestern part of this county  
 is very rough, being mountainous and  
 covered with a dense growth of large  
 redwood trees.

"Another crew is engaged in run-  
 ning lines in Coos and Curry counties, Oreg-  
 on, to make connection with the line  
 through this county. The crew that  
 arrived here will proceed as far north  
 as Whale's Head, in Curry county,  
 and from there go over the line south-  
 erly as far south as the Klamath river  
 in this county. Reports of the work  
 done south of the Klamath not having  
 been turned into headquarters before  
 the fire it will not be necessary to go  
 over that portion of the survey.

This coast route will be rather ex-  
 pensive to build owing to the great  
 number of bridges that will be re-  
 quired across the numbers of rivers  
 and creeks that put into the ocean and  
 there will be a large amount of cuts  
 and tunnels to be made to get  
 through the divides that separate the  
 valleys. The route though can be  
 made practically level with no heavy  
 grades, the heaviest being said not  
 to exceed one per cent.

Just what effect the opening of this  
 line to San Francisco will have on the  
 traffic of the main line through  
 Southern Oregon is a matter that is  
 of concern to Grants Pass and the  
 other towns of this section. It is  
 quite certain that the heavy through  
 freight trains will be sent over the  
 Coast route, and the novelty of riding  
 along for miles in sight of the ocean  
 will cause many persons to take that  
 route. The building of this coast line  
 and the giving of an outlet to Cres-  
 cent City and to the timber of Del  
 Norte county and the copper mines  
 of the Preston Peak district will be  
 a serious handicap on the getting of a  
 railroad built from Grants Pass to  
 Crescent City or any point on the  
 east. With a nearby railroad along  
 the coast and a down hill haul from  
 the sawmill and mines for the branch  
 lines there would be no likelihood of  
 those interests aiding in the con-  
 struction or of giving traffic to roads  
 to Grants Pass. The fact is Grants  
 Pass has neglected its opportunities  
 and let the time slip by for getting a  
 railroad to the coast. Had the ven-  
 ture been taken up with vigor even  
 two or three years ago this city could  
 have secured substantial inducements  
 to its coast railroad ventures from the  
 trade that could have been had on its  
 completion. Had the Spokane spirit  
 been manifested and when one pro-  
 motion plan failed rustle around and  
 try another the chances are that by  
 this time construction work would at  
 least be begun on Grants Pass' rail-  
 road that is just now a very uncer-  
 tain matter.

CHI-NAMEL is a liquid finish for  
 floors, interior woodwork and furniture  
 that is far superior to any other made.  
 It is used by the Chinese to give that  
 fine brilliant finish to their bamboo and  
 other wares, which withstand bending  
 and banging, without cracking or mar-  
 ring the brilliant and glossy finish.

It comes in all the hardwood  
 finishes, such as Oak, Walnut,  
 Cherry, Mahogany, Rosewood,  
 Satinwood, etc., and will withstand  
 hot and cold water and soap.  
 We will boil it in water for you
