Mrs. H. M. Webb came in Friday from Deering and left that evening for Sparta, Wis., where she goes to sell their property and then to return to Deering to take up her permanent residence there. Mrs. Webb came to Josephine county last year to join her husband, H. M. Webb, who had come the previous year, and who is largely interested in some valuable mining property in the Elk Creek district, and both she and Mr. Webb are so well pleased with Southern Oregon that they have decided to sell their Wisconsin property and invest in the Illinois Valley.

Mr. and Mrs. Lonnie Moon, who have been spending a month in Grants Pass at the home of J. H. Williams, father of Mrs. Moon, returned to Portland Thursday, where Mr. Moon holds a position in the advertising department of the Southern Pacific, O. R. N. and other Harriman lines. Mr. Moon is chief clerk under Renaldo Hall head of the department, and the close attention and long hours that he frequently gave to his work affected his eyes and he took a lay-off and came to Grants Pass to have Dr. Findley treat them. So successful was the Doctor that Mr. Moon has regained the full strength of his eyes and goes to again take up his work. Mr. Moon is one of the brightest and most energetic young men that Grants Pass has sent out and his very creditable position with the railroad company is a position that he has won by his industry and worth. That he will win other promotions is the prediction of his many friends in this city, who expect that he will yet get well up in the line of railroad work.

James Hocking and his daughter Miss Emma were in Grants Pass Thursday and were callers at the Courier office. Mr. Hocking has a fine farm on the Applegate near the Wilderville school house and he is raising hay, grain and fruit. He gave a trial to vetch this season and he is greatly pleased with it as a forage plant. He sowed three acres and putting it in early it produced an enormous crop, the vines averaging seven feet long and the grain that grew with it was equally as heavy. He has three acres to fruit and the apple, pear and peach trees are bending with fruit and his grapes will have a big yield.

Miss Hocking but recently returned home from Illinois Valley, where near Waldo she closed a successful term of school. She is a young lady who has the energy and the ability to get up in her profession and she will become one of the progressive teachers of Josephine county.

A Brief Record of Local Events.

Messrs. Weeks and Orr, the owners of 103 acres of orchard land two miles south of Medford, refused an offer yesterday of \$18,000 for the tract. The land is planted in two-year-old apple and pear trees. The tender was made by people from New York.—Medford Tribune.

J. L. Scovill is having a handsome eight-room dwelling erected on an acreage tract that he has on North Seventh street. He is also having a barn built on the property. Mr. Scovill will occupy this new house with his family and will rent the house he now resides in.

The beneficiaries of the late George B. Hart, who died this Spring while on his way home from the Philippines, where he was in government revenue service, have been paid the \$3000 life insurance he held in the Woodmen of the World, the payment being through Rogue River Camp No. 55 of this city of which he was a member.

The injunction cases brought by the saloon men of Eugene and Springfield against the county court declaring Lane county dry was dissolved last Friday and the county court has issued a proclamation declaring that the county carried by the local adoption vote and putting that county on the dry list. This decision puts some 15 or 20 more saloons out of business in that county.

Don't be duped by transient optical grafters but patronize your home optician and get a square deal. Alfred Letcher, Jeweler, on Front street is the only one in Josephine county who has a registered certificate from the Board of Optometers of Oregon, a list of which can be seen at his store, so get your eyes tested and fitted properly by calling on him. Charges very reasonable.

L. R. Webb, of Deering arrived in Grants Pass Sunday and went on to Wolf Creek that evening to make a short visit with his sister, Mrs. E. W. Kuykendall. Monday he returned to Grants Pass, accompanied by Mrs. John O'Brien, of Sparta, Wis., who had been at Wolf Creek for some time visiting her sister, Mrs. E. W. Kuykendall. Tuesday Mr. Webb and his sister left by stage for Deering, where Mrs. O'Brien will spend the Summer with her parents, Mr. and Mrs. C. T. Webb.

An exchange tells the following: A very poor man applied for membership in a very exclusive church. They hardly liked to turn him down so requested him to take the matter to the Lord in prayer and come again. In about two months he showed up. They questioned him as to what reply, if any, he had received, and he said: "The Lord told me not to be discouraged. He said He had been trying to get into that church for seven years, but had not succeeded."

The Young Peoples Christian Temperance Union, held their regular monthly meeting last Friday evening at the home of W. M. Hair. A very interesting program was given after the business meeting, which had been very appropriately arranged by Miss Zena Chapman, this being a patriotic program and consisted of recitations and music that was well worth hearing. After the program the remainder of the evening was spent in a lawn party with its various games and amusements which go to make the young people have a good time.

L. R. Webb was a caller at the Courier office and stated that the copper property owned by the Webb Mines Company, which is made up of himself, his brother D. L. Webb and cousins H. M. and L. G. Webb, was showing up highly satisfactory under the extensive development that they were carrying on. The ore body is very large and runs high in copper as well as some gold. Mr. Webb is greatly interested in the prospective railroad from Grants Pass to the Illinois Valley for its building will make possible the installing of a smelter on their property. There are other copper claims in the Elk district that would also become available if transportation could be had.

Grains and Grasses Wanted.
There is not an exhibit of the agricultural products of Josephine county to be seen in Grants Pass and strangers in the city noting this fact and that the hills about the city are yet in their primeval wildness, draw the inference that there is little farming carried on here. To prove that the soil of this county does produce grass, grain, fruits and vegetables not to be excelled by any other county in Oregon the Courier will undertake to collect an exhibit of these products. Grains and grasses should be tied in bunches and dried in the shade and handled carefully. Samples of this year's growth of fruit tree limbs and of grape vines would add to the interest of the collection.

San Francisco Rebuilding.
Mr. and Mrs. J. W. Howard and their daughter, Miss Eula, arrived home Wednesday from San Francisco, where they have been for the past year while Miss Eula was taking advanced lessons on the piano. Mrs. Howard and Miss Eula were in the earthquake disaster, Mr. Howard happening to be in Grants Pass that month, but they were not injured nor were they disturbed by the fire. The house they occupied was but little damaged by the shock and the fire only got within two blocks of their street. Mr. Howard states that the city was not so badly injured by the earthquake as was reported; the best buildings not being seriously damaged. But all the slimly structures and those that had been put up by dishonest contractors were torn to pieces by the shock. The \$7,000,000 city hall went to pieces and was a mass of ruins before the fire touched it, for it represented about \$8,000,000 graft and stealage and was so poorly constructed that it barely stood under normal conditions. The steel frame buildings stood and had they not been injured by the fire would have required but little repairs. Mr. Howard states San Francisco is building up fast and better and more substantial and is more prosperous than ever and he thinks that within five years that it will have one-half more population and wealth than it now has.

Mrs. Howard and Miss Eula will go to Williams to spend the Summer with Mrs. Howard's parents, Postmaster and Mrs. David Johns and Mr. Howard will spend a part of his time there and the remainder in this city where he has large property interests.
