His family will go to Gold Hill the last of this week. Gold Hill had but one physician and as the town is building up rapidly Dr. Kelsey considered it a promising place to locate in. Dr. Kelsey is a progressive physician and should secure a good practice in Gold Hill and the adjacent country.

H. S. Woodcock of Althouse this week received by freight a 10-H. P. Westinghouse traction engine which will be used to furnish power for his threshing machine. This is the same type of an engine which Mr. Woodcock has been using for several years past but he had disposed of the old one, it not furnishing sufficient power for his needs. The engine was started for Althouse Wednesday propelled by its own power, horses however were attached to the engine for steering and also to avoid the possibility of frightening other teams while passing along the highways.

### Grains and Grasses Wanted.

There is not an exhibit of the agricultural products of Josephine county to be seen in Grants Pass and strangers in the city noting this fact and that the hills about the city are yet in their primeval wildness, draw the inference that there is little farming carried on here. To prove that the soil of this county does produce grass, grain, fruits and vegetables not to be excelled by any other county in Oregon the Courier will undertake to collect an exhibit of these products.

Grains and grasses should be tied in bunches and dried in the shade and banded carefully. Samples of this year's growth of fruit tree limbs and of grape vines would add to the interest of the collection.

Captain and Mrs. Shawver have done a good work in Grants Pass and they have many friends here who will miss them in the work. The Army work for the next term will be in charge of Captain McDonald and Lieutenant Lemons, who come here from Aberdeen.

Fred Mensch, U. S. Deputy Surveyor, left on Friday morning for Cole's, Cal., to make a survey in that vicinity. This work consists in correcting and completing a suspended survey, for which Mr. Mensch has received the appointment as compassman. The land lies just north of the state line, in Township 41 S, R's 1 E and 1 W. Mr. Mensch was accompanied by Walter Randle and Mr. Patterson, a young man from Portland, who will assist him in the survey. He expects to be there about two weeks and will then go to Curry county to work on a large contract for government surveys which he was this year awarded.

W. R. Dickison got back Tuesday from a two month's trip East during which he visited his old home near Zanesville, Ohio, and with relatives and friends in other parts of Ohio, and also in New York and in Nebraska. Mr. Dickison states that he had a very enjoyable trip but in the years that he has been West the old home place and vicinity has undergone such changes of people and conditions that he felt as though he were in a strange land and among strangers. He found business good in all the states he was in, and there was much inquiry regarding the Pacific Coast and he thinks there will be a large emigration to Oregon this Fall.

### In the Harness Again.

A. E. Voorhies returned Friday night from attendance at the 17th annual session of the National Editorial Association at Indianapolis, having been accompanied there by Mrs. Voorhies and Master Earle. The trip so far as attendance at the convention was concerned was not a success as washouts in Montana caused a delay of 40 hours at Billings and a change of route which landed the party at Indianapolis on the last day of the convention without baggage and thoroughly tired out. Two hours were spent in the convention hall and the greater part of the balance of the time at the Indiana capitol was spent in bed. The remainder of the trip was a success in every way and was thoroughly enjoyed. It included short visits at Greenwich, Norwalk and Cleveland in Ohio and Detroit, Grand Rapids and Stanton, Michigan, and a two weeks stay at their old home in Greenville, Mich., where Mrs. Voorhies and Earle will visit her parents, returning to Grants Pass early in September.

The return trip included short stops at Chicago, Denver, Colorado Springs, Manitou, a trip to the top of Pike's Peak via the Cog Wheel railway, a day in the Mormon stronghold, Salt Lake City, a visit with relatives at Grand Junction, Colo., and a look at the ruins at San Francisco. Fortunately no warm weather was encountered until leaving Ogden, and then it commenced in good earnest. The hot and dry deserts of Nevada, the fertile but hot valley of the Sacramento and the dry, brown mountains of Northern California are places which were looked upon with disfavor by all of the passengers. It was a relief to reach the Oregon line and once more gaze upon the vegetation which covered the mountains, and the Valley of the Rogue seemed like a haven of rest after spending days traveling through the barren wastes of Nevada and California.

The Fire Department Called Twice Tuesday For the Same Fire.

Burning grass was responsible for calling the fire department out three times this week, twice Tuesday and once on Wednesday. Tuesday's fire was both at the old building, formerly known as the Palethorpe bakery on West Front street. The fire crept under the building and caught in the rotten timbers and made a smoldering fire. A stream of water was directed under the building and the place flooded. No sooner had the firemen returned the hose carts to their places than another alarm was sent from the same place and the firemen had to return and a second time turn water under the building, this time leaving no trace of a spark.

Wednesday afternoon the crew of a freight just ready to pull out of town northward noticed the grass on fire creeping under the Wm. Bogg place near the factory. They sent in an alarm and the fire department responded but before they arrived at the scene the fire had been extinguished by the department. There was no one in the building when the fire was first discovered but the neighbors forced in the door and applied the water.

Ex-Sheriff George Lewis, who leased the Kerley stable on South Sixth street, is putting that popular stable in the best of condition to accommodate teams and vehicles. He now has stable room for 75 horses and wagon sheds for 40 vehicles, and ample yards for loose stock. He has installed a washing rack on which a vehicle and team can be cleaned quickly and thoroughly. The patronage is so increasing that Mr. Lewis may have to enlarge the stable by another year. Manager Ed Lister has made the Lewis stable the headquarters for the Kerby-Waldo and Crescent City stages and the horses and coaches are now kept there.
