FLORIDA'S FINE HIGHWAYS.

Great Work of Convicts on Good Roads Proposition.

The use of convict labor in the construction of public works is a phase of economics which has been tried in the southern states with a greater or less measure of success, says the Motor News. Florida is the latest state to fall in line and put her convicts to work, and road building is the task which has been chosen for the wrongdoers. This work has now been going on for some time, and at the results accomplished the Floridians express great satisfaction. The work, they say, is not only beneficial in giving the prisoners an opportunity to do something, but the exercise and outdoor life tend to the improvement of their health.

Under the system adopted in the Peninsular State the prison laborers enter scarcely at all in competition with their free brothers. The roads would not be built if the cost was high, and as the state obtains the labor for the bare cost of keeping the laborers the expense of laying out and building a magnificent system of highways is comparatively slight.

Along the east coast of Florida there are inexhaustible quarries of cochina rock, while in the district lying south of Daytona to New Smyrna great quantities of oyster shells are to be found. Both furnish excellent materials for road building. Thus Florida has close at hand an abundant and cheap supply of road material. The cochina rock is soft and easily quarried. It requires but simple machinery to crush it, some of it being merely granulated beneath rollers after it is placed on the surface of the road. The beautiful baths at Palm

CONVICTS AS ROAD WORKERS.

Beach are made of cochina rock, and it has been used in the construction of the excellent road which has recently been completed between Palm Beach and Miami.

Roads on which this material has been used require but little repairing, the experience having been that they improve with age, the stone being ground down until it is like the finest macadam.

On the southern automobile circuit the motorists recently encountered many crews and gangs of convicts at work along the Palm Beach-Miami road. They also passed a convict camp where the prisoners were engaged in mining the cochina rock at the roadside.

The convicts are worked in gangs of half a dozen or so. They are under guard of a keeper, who carries a loaded rifle, while dogs are kept at hand to track any prisoner who might feel impelled to take French leave. This, however, rarely happens. Florida is not a land in which one would be tempted to run away.

Model Mountain Road.

J. C. Colgate, a New York banker, has just completed a road at his country residence in Bennington, Vt., that is a model in its way. The road is up the side of Mount Anthony, and, though the distance in a direct line from the starting point to the summit is only half a mile, the length of the road is four miles and a half. The average grade is only 4 per cent. The building has employed from fifty to sixty men for fourteen months and has cost \$125,000. An iron observatory 100 feet high will crown the summit and afford an extended view of the surrounding country.

Cash Plan Pays.
The new plan adopted last spring of paying cash for road work is giving satisfaction in Redford township, Mich., says the Motor News. More work has already been done than in all of last year. The township has been restricted into fifteen districts, to be supervised by pathmasters, each of whom is furnished with a blank order book. For each day's work an order for \$1.50 is issued on the township treasurer.

Why Fret and Worry

when your child has a severe cold. You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horsehound Syrup—positive cure for Colds, Coughs, Whooping Cough and Bronchitis. Mrs. Hill of Sioux Falls, S. A Trite Saying.

It is a trite saying that no man is stronger than his stomach. Dr. Pierce's Golden Medical Discovery strengthens the stomach—puts it in shape to make pure, rich blood—helps the liver and kidneys to expel the poisons from the body and thus cures both liver and kidney troubles. If you take this natural blood purifier and tonic, you will assist your system in manufacturing each day a pint of rich, red blood, that is invigorating to the brain and nerves. The weak nervous, run-down, debilitated condition which so many people suffer from, is usually the effect of poisons in the blood; it is often indicated by pimples or boils appearing on the skin, the face becomes thin and the feelings "blue." Dr. Pierce's "Discovery" cures all blood humors as well as being a tonic that makes one vigorous, strong and forceful. It is the only medicine put up for sale through druggists for like purposes that contains neither alcohol nor harmful habit-forming drugs, and the only one, every ingredient of which has the professional endorsement of the leading medical writers of this country. Some of these endorsements are published in a little book of extracts from standard medical works and will be sent to any address free, on receipt of request therefor by letter or postal card, addressed to Dr. J. C. Pierce, Buffalo, N. Y. It tells just what Dr. Pierce's medicines are made of. The "Words of Praise" for the several ingredients of which Dr. Pierce's medicines are composed, by leaders in all the several schools of medical practice, and recommending them for the cure of the diseases for which the "Golden Medical Discovery" is advised, should have far more weight with the sick and afflicted than any amount of the so-called "testimonials" so conspicuously flaunted before the public by those who are afraid to let the ingredients of which their medicines are composed be known. Bear in mind that the "Golden Medical Discovery" has the name of **ROSEBURG** on every bottle wrapper, in a full list of its ingredients.

Dr. Pierce's Pleasant Pellets cure constipation, invigorate the liver and regulate the stomach and bowels. Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

NOTICE OF SHERIFF'S SALE.

In the Circuit Court of the State of Oregon for the County of Multnomah.
Goldie R. Ellis, Plaintiff,
vs.
Joseph T. Ellis, Defendant.

By virtue of an execution, judgment, order and decree issued out of the above entitled Court in the above entitled suit, to me directed and dated August 1st, 1906, upon a judgment rendered and entered in said Court on June 20, 1906, in favor of Goldie R. Ellis the plaintiff, and against Joseph T. Ellis the defendant for the sum of One Hundred Dollars (\$100.00) as Attorney's fees, and the further sum of Thirty Dollars (\$30.00) as temporary support money, and the further sum of Thirty-three and 5-10 Dollars, (\$33.05) costs and disbursements, of which amounts there is now due and unpaid the sum of One Hundred twenty-eight and 5-10 Dollars (\$128.05) with interest thereon from June 20, 1906 at 6 per cent per annum and the costs of and upon this writ, commanding me to make sale of the following described real property, to-wit: Lots One and Three in Block 88, Railroad Addition to the Town of Grants Pass, County of Josephine, State of Oregon.

Now, therefore by virtue of said execution, judgment, order and decree and in compliance with the commands of said writ, I will, on Saturday, the 8th day of September, 1906, at 10 o'clock a. m. at the front door of the Court House in Grants Pass, Josephine County, Oregon, sell at public auction, (subject to redemption) to the highest bidder for cash in hand, all the right, title and interest which the within named defendant, Joseph T. Ellis, had on June 20, 1906, the date of the rendering and docketing of said judgment or since that date had in and to the above described property or any part thereof, to satisfy said execution, judgment order and decree, interest, cost and accruing costs.

Dated this 7th day of August, 1906.
First issue, August 10, 1906.
Last issue, September 7, 1906.

Sheriff of Josephine County, Oregon.

How to Make Currant Punch.

Among the delicious summer drinks there is none more refreshing than currant punch.
Three pints of ripe currants and one pint of red raspberries will make a large punch bowl full. Crush the fruit and add the juice of two lemons and two oranges and three quarts of water. Sweeten to the taste with sugar syrup. Let stand for about an hour, then filter through a jelly bag. Chill on ice before serving. Put a small quantity of shaved ice into each glass and fill the glasses with the punch. It is better to add the cold sugar syrup after straining.

How to Take Care of Finger Nails.

In caring for discolored or stained finger nails a teaspoonful of lemon juice in a cup of warm water is invaluable. This is one of the very best manicure acids. It will loosen the cuticle from the finger nails as well as remove discolorations. Brittle nails may be cured by soaking them daily for a few minutes in blood warm sweet oil. Polish the nails daily with the chamoin skin polisher to improve the circulation of the parts and make them clear and pink. No paste is needed. After washing the hands press back with the towel the flesh about the nails. This will prevent hangnails.

How to Make Raspberry Punch.

To one quart of ice cold water add five teaspoonfuls of raspberry vinegar or raspberry royal. Turn it into a large pitcher or a punch bowl and stir well. Put into each glass a generous supply of ice and fill from the bowl. If raspberries are in season a cupful of them may be added, or if not, use in their place a cup of shredded pineapple or a banana slice.

Was in Poor Health for Years.

Ira W. Kelley, of Mansfield, Pa., writes: "I was in poor health for two years, suffering from kidney and bladder trouble, and spent considerable money consulting physicians without obtaining any marked benefit, but was cured by Foley's Kidney Cure, and I desire to add my testimony that it may be the cause of restoring the health of others." Refuse substitutes. For sale by H. A. Roterlund.

Good Road Notes

Jefferson county, Tenn., has awarded the contract for building forty miles of macadam road for \$230,000.

The \$35,000,000 increase in farm values shown in Massachusetts in the last ten years is attributed to her system of good roads.

It is announced that the Great Northern railroad is considering the question of sending out a good roads train over its lines and constructing object lesson roads under the auspices of the office of public roads, United States department of agriculture.

The work of highway improvement in Indiana moves steadily forward, though it attracts less general attention perhaps than the road building in states where the question is new and provokes more discussion. Each year since 1900 Indiana has added about 1,000 miles to her system of gravel roads and now has a total mileage of 16,200 miles. The cost of maintenance has increased from \$694,000 in 1902 to \$928,000 in 1905.
