BECAUSE OF CREAMERY VALLEY IS PROSPEROUS

Illinois Valley Creamery Com. pelled to Increase Equipment.

That the Illinois Valley creamery is increasing the number of its patrons is proven by the fact that 25 large cream cans were received at the depot here Monday from Portland and billed to Matheson & Johnson, Kerby, who are the owners of this, the only creamery in Josephine county. It was only two months ago that a previous shipment of cream cans was received by the Illinois Valley Creamery and that another lot was required so soon is proof that this creamery is a success.

Matheson & Johnson started their creamery last Spring and only had the cream from a small number of cows, but the number has steadily increased and it is certain that with the opening of next Spring that the cream from fully 300 cows will be had. Many farmers are planning to be able to supply cream to the creamery during the winter months when they have more time to care for their cows and to deliver the cream, and the price is also better than in the Spring and Summer. So far the Illinois Valley Creamery has not been able to send but little butter to the Grants Pass markets, the local demand taking all that can be made, and at a good price.

Rev. Travis Resigns.

Rev. Joseph B. Travis, at the evening service last Sunday announced his resignation as pastor of the First Baptist church, to take effect October 1. He will then take a month in rest and preparing to leave for San Francisco, where he has accepted a call as superintendent of the Baptist city missions. This call was extended to Mr. Travis last November but at the time he declined, preferring to remain with the church at Grants Pass. Since that time he has been continuously urged to accept and finally yielded to the appeals. Since the acceptance of the call he has received an urgent call from Seattle to come to that field and take charge of the Baptist city missionary work.

Mr. Travis has been pastor of the Baptist church in Grants Pass for over two years, preaching his first sermon early in July, '04, coming to this place from Rochester, N. Y., where he had been laboring in the Parcels Avenue church since 1896, from that time up to 1899 while studying in the Rochester theological seminary, and in May of that year becoming its pastor. Since coming to Grants Pass Mr. Travis has been able to accomplish a great work for his church and for the community at large, and his leaving will be a regret to all irrespective of creed or denomination. This summer he completed building a handsome residence on Seventh street and he and his family have enjoyed living under their own roof only a few months.

The Courier office this week has been favored with fruit and water-melons. E. W. Adams a few days ago brought in a goodly number of as fine flavored peaches as it has been our good fortune to taste. Of their keeping qualities, however, we are unable to speak, inasmuch as they only lasted a part of one afternoon. As we go to press this week there repose on a shelf under the composing stone, two two-foot watermelons that will weigh in the neighborhood of 35 pounds each. The melons will be carved when the paper is on the press and J. H. Lawton, and J. C. Christie, the donors have our thanks. These melons and the one brought in by A. Umphlette a few days ago, help us to realize that Rogue River melons are the best that can be grown.

ACCOMPLISHED DARING FEAT.

Geologists Climb to Crater of Mount Colima Volcano.

City of Mexico, Sept. 5.—With their bodies severely burned by the fires of Mount Colima volcano, fourteen adventurous delegates to the International Congress of Geologists, which meets in this city this week, reached here yesterday. The trip to the crater of the volcano was a perilous one. It had never been accomplished before by anyone, although several attempts to scale the precipitous mountain had been made.

The members of the party of mountain climbers went about their work methodically. They established camps at different points on the ascent and made a certain amount of progress each day until the summit was finally reached. The volcano was pouring forth great volumes of smoke, but this did not deter the explorers from advancing to the very edge of the crater. A hot and sudden blast of fire from the depths below badly scorched the bodies of the men, and they beat a hurried retreat.

Railway Company Big Loser by Fire.

Kansas City, Mo., Sept. 5.—The loss on the power house of the Kansas City and Leavenworth Railway Company at Wolcott, Kas., fifteen miles west of Kansas City, which was destroyed by fire last night, is placed at \$150,000. The insurance is 75 per cent of the loss.

TELEGRAPHIC BREVITIES.

Soldiers of Warsaw, Russia, last night killed four citizens and made wholesale arrests in different parts of the town.

Official announcement was made by Eugene E. Schmitz of San Francisco yesterday that he was not a candidate for Governor on the Republican ticket.

The west bound Los Angeles limited on the Union Pacific railroad, was wrecked yesterday morning at Red Butte, Wyoming. None of the passengers were injured.

Dr. Francis R. Beattie, one of the most widely known ministers in the Presbyterian church, and President of the Presbyterian Theological Seminary, died suddenly yesterday at his residence in Louisville, Ky.

A street car crashed into a heavy van yesterday, between Ulmer Park and Coney Island. Six were badly hurt, several of whom may die. A score of others were severely injured. Mortician Hanson says he did not see the truck.

Floods have devastated a large section of the Behar district in India. Whole villages have been obliterated, great areas of crops have been destroyed and the indigo crop is ruined. There are nine feet of water on the low lying lands. The inhabitants have sought refuge in the hills.

Nether Gans nor Nelson made their appearance yesterday after their terrible battle of Monday. Nelson is badly battered and will stay indoors until he can leave Goldfield. Gans will go to San Francisco to consider a theatrical engagement. Gans says that he was offered \$25,000 to let Nelson win, but he would not say who made the offer.

Lights of Frisco.

Miss Grace Aylesworth, the talented young leading lady who will appear at the Opera House next Friday night in the big scenic melodrama "Lights of Frisco," is an actress of more than ordinary ability. She is gifted with strong personal magnetism and physical beauty. Miss Aylesworth has played many star parts in big New York productions during the past six seasons, and was especially engaged to play the part of "Rose, the flower girl," in "Lights of Frisco" this season. "Lights of Frisco" is a big, new scenic production, written by the well known Eastern author, Joub P. Lockney, and his plays are always interesting to lovers of melodrama. The principal scenes of "Lights of Frisco" are laid in the big Pacific Coast metropolis after nightfall, and record the strange doings of the peculiar Chinatown inhabitants after dark. The appearance of this attraction here will be one of the theatrical events of the season, and people who wish to see the performance should secure their seats early. Reserved seats are on sale at Herman Horning's.

Children in Pain

never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Get a trial. For sale by National Drug Co. and Rotermond.

The Courier is the farmers' paper Josephine County.

Hood River After Foreign Trade.

Hood River not content with capturing the markets of the Eastern States, England, France and Germany, getting the highest price paid for apples for their fancy pack of Spitzenbergs and Newtowns, is now after the Trans-Pacific trade in the big cities of Siberia, Japan and China. Their latest scheme to build up their sales in those countries is putting fancy printed labels instead of plain labels on the apples. A large shipment that is to go to a big firm in Vladivostok, Siberia, has on the wrapper for each apple printed in Russian a description of the apple and where grown and the firm's name and address that is to sell the fruit.

When it comes to successfully advertising their fruit and pushing its sales the Hood River orchardists lead the growers of the country and the fabulous prices they are now receiving for their apples proves that it pays to advertise and to do it thoroughly.
