We wish to express our sincerest thanks and appreciation to the many kind friends for help and sympathy extended during our bereavement, and to the Masonic, Knights of Pythias and Rathbon Sisters orders of Grants Pass and other friends for flowers and floral emblems which were presented.

MRS. JAMES KENDALL AND FAMILY.

The adoption of Pale Faces into the order of Redmen at Medford recently, when 115 were taken into the tribes, was one of the greatest events which has occurred in fraternal circles in Southern Oregon. The Grants Pass tribe of Redmen, however, are planning to outdo our neighbor city and will have a big time here early in November, when they will have from 125 to 150 pale faces ready to be adopted into the various tribes of this section. Medford has set the pace and it is a swift pace, even to match, but our tribe feels confident that they can go them one better.

Starving to Death.

Because her stomach was so weakened by useless drugging that she could not eat, Mrs. Mary H. Walters, of St. Clair St., Columbus, O., was literally starving to death. She writes: "My stomach was so weak from useless drugs that I could not eat, and my nerves so wrecked that I could not sleep; and not before I was given up to die was I induced to try Electric Bitters with the wonderful results that improvement began at once, and a complete cure followed. Best health. Tonic on earth. 50c. Guaranteed by all druggists."

PLAN FOR HOSPITAL AT GRANTS PASS

Physicians and Business Men Will Co-operate to Establish a Larger and Better Hospital.

That is there is need and an opening in Southern Oregon for a hospital is proven by the success that has attended the small beginning of a hospital that has been maintained in this city for the past year. At no time has the Grants Pass Hospital been without patients and many most difficult operations have been performed, yet not a death has followed an operation. The service at this hospital has been quite the equal had at the best city hospitals and the charges have been less than is often made in the cities for similar operations. But the special advantages of a hospital in Southern Oregon has been the saving in expense it makes to those who require its services. To send a patient to Portland or San Francisco costs from \$50 to \$100 for usually an attendant or a physician has to go along. Then if a relative accompanies the sick person the cost of living and other expenses are larger in the large city than in a town. Already the Grants Pass Hospital has saved a very large sum of money to the residents of Southern Oregon.
It having been demonstrated that a hospital is a success and can be made a permanent institution in Grants Pass it is now the intention of several of the leading physicians and business men of the city to put the Grants Pass Hospital on a more solid financial basis. To that end it will be incorporated and the public will be asked to take stock in the company. A tract of land convenient to the city and suitably located will be purchased and a section of what can be made into a fine hospital building will be erected. The determination is to keep the venture on a safe financial basis and not undertake more than what can be carried out with the means at hand. A committee of business men will call on the citizens of Grants Pass next week and it is expected that every property holder and everyone interested in the welfare and upbuilding of the city and in the establishment of a most worthy public institution will take one or more shares of stock.

C. E. HARMON, P. M.
Pants are made for men and not for women. Women are made for men and not for pants. When a man pants for a woman and a woman pants for a man—these, my friends, are a pair of pants, but these pants do not last. To make pants last, make the coat first. Pants are like molasses, because they are thinner in hot weather and thicker in cold weather. A fat man cannot keep up his pants in hot weather without suspenders, but a dog can. Men sometimes make mistakes in pants, and these are called breeches of promise. There has been much discussion, my friends, as to whether pants is singular or plural. In my mind, when a man wears pants, it is plural, but when he does not, it is singular.—Ex.

A Brief Record of Local Events.

About four inches of snow fell at Crater Lake last Friday. The storm lasted only a short time and drove a few of the campers from the huckleberry patch.—Ashland Tidings.

Judge H. L. Benson has so far recovered from the operation he recently underwent that he was heard to banter a school boy for a foot race one day this week. The Judge looks spry as he never did before, and it is a two to one shot that he would have won the race.—Klamath Republican.

Klamath county has filed the summary of its 1906 assessments roll in the office of the secretary of state, showing the gross value of all taxable property to be \$6,094,094 and, as equalized, \$6,084,195. The greatest valuations are shown in non-tillable land, the total acreage of which is given as 778,103, and the valuation \$3,495,915.

The members of the Ladies Aid Society of the Newman Methodist church and their friends spent an enjoyable afternoon last Tuesday, September 25, at the home of Mrs. C. G. Ament. Work consisted of hemming dish towels for the new church kitchen when completed. Mrs. Ament was assisted in entertaining by Mrs. Gould, Mrs. Mangum, Mrs. Ora Hood and Mrs. Norton.

Gold Hill News—Acting upon advice from the home office at Indianapolis, Manager Leslie was compelled to close the construction work of the Gold Hill Canal for a time, pending the adjustment of the injunction filed by the Condor Water & Power Co. The general opinion is that the work will not remain closed long as there can hardly be but one result to the suit and that will be favorable to the Canal Co.

A sample lot of peaches was left at the Courier office, grown on the place of H. L. Reed near Murphy that were absolutely perfection as to size, quality and color. Mr. Reed has been growing peaches in a small way for the past nine years and in that time has never had a failure of a crop thus proving that that section of Applegate Valley has the perfect conditions for becoming one of the most profitable peach districts of Southern Oregon.
