## UNCLE FULLER

## PROVOLT

We are having a series of meetings at Provolt which will be conducted by Mr. Speck for the period of four weeks. Come all, as Mr. Speck is just from the east and a splendid speaker and will appreciate the presence of all who come.

The social dance given at Rose's hall at Applegate Saturday evening on behalf of the many departing friends from the hop fields was a success and all had a pleasant time. The dance closed at 1:30. Music was furnished by Prof. G. W. Herriott of Applegate, Lea Hansen of Hamburg and T. E. Lewman of Provolt.

Hop picking is over and the field this season was larger than that of last season in the Central Applegate Valley and the quality is first-class. The hop growers are well pleased and are ready to face another season of toil in the hop business as prices this season were quite long this year lasting 23 days, 11 days longer than any previous year in the hop business at this place. Hay crops are also larger than usual and rain is expected before the crops are in.

## Woman's Relief Corps.

The Woman's relief corps held its regular semi-monthly meeting at Workman hall Saturday afternoon, September 22. President Mrs. Christiana Goodnow in the chair.

There was the usual large attendance and month's work showed advancement in all lines.

Most satisfactory work has been done by the local relief committee also money and other supplies in connection with the Roseburg cottage funds.

New members are being added both from the city and county. The present membership reaching nearly the three score and ten mark of active energetic, loyal women, united in thought and deed to give aid and sympathy to the veterans and their dependent ones. It was with genuine pleasure the corps greeted for the first time since her return from Minneapolis, Mrs. Mary C. Hildreth, department president of Oregon.

Mrs. Hildreth was very ill while attending the National convention, depriving her of much of the pleasure she had anticipated. She said the principal work before the convention was the improvement of the ritualistic work which is growing more difficult each year. The Woman's Relief Corps, the only authorized auxiliary of the G. A. R. has a membership of 500,000 and was represented by 500 officers and delegates. Mrs. Helen M. Packard, George Wright corps No. 2, Portland, Oregon, was elected one of the National officers.

At the close of the business hour, a fruit, luncheon was served by Mesdames Alverson, Ahlf, Anderson, Berry and Calvert, which was most thoroughly and socially enjoyed by all present.

## Three Years for Signing Checks.

W. E. Wilson had a meteoric career in Grants Pass. He arrived in town the middle of last week and proceeded to arrange for the purchase of fruit lands to the amount of about \$80,000. On the strength of this he wrote a check on the First National Bank of Southern Oregon Saturday for \$25 and asked W. B. Sherman to endorse it for him. This was done as a matter of accommodation. Several other checks for smaller amounts were also written and endorsed by other business men, and the cash realized on them. Mr. Sherman took the precaution to telephone Mr. Gilkey regarding Wilson and his bank account and found that the account was a minus quantity. He then took measures to apprehend Wilson who was lodged in jail. On Friday Judge Hanna sentenced Wilson to three years at the Salem penitentiary.

## DIED.

BAGLEY—At Grants Pass, Oregon, Thursday, September 27, 1906, Fred Bagley, aged 24 years 4 months.

The deceased has been conducting a general store at Takilma for a year past but for some time has been suffering with spinal meningitis and a week ago was brought here for treatment, although there was at the time no possibility of recovery.

KENDALL—At the family residence at Grants Pass, Oregon, Tuesday, September 25, 1906, James Kendall, aged 49 years.

The deceased has been a resident of Grants Pass for seven years, coming here from Cornwall, England, to engage in the milling business with the Williams Brothers. Mr. Kendall had spent nearly seven years in South Africa, on his first trip remaining there three years and returning to stay about four years, where he was engaged as foreman for one of the South African mining companies. All the residents of the district entered the English service at the time of the Boer war and Mr. Kendall was in the service at the time of the Jameson raid. He later left Africa on account of being affected with the deep miners' complaint, an affection of the lungs which afterwards developed into consumption, the cause of his death. Out of 16 young men who left Cornwall together to work in the mines there is now but one left, all the others having died of the same complaint. Mr. Kendall was a thorough gentleman, a kind father and a good neighbor and an upright man. He leaves a wife and four children. The funeral services were held on Wednesday afternoon at the family residence, and the interment at the L. O. O. F. cemetery, in charge of the Masonic fraternity. The A. F. & A. M. and Knights of Pythias lodges attended the funeral in a body.

## LAUREL GROVE

Everybody well in our valley, except a few with cold.

A. H. Fenn has his hay baled and is going to Washington soon.

Cool nights, hot days make us all hustle and feel gay and jolly.

We welcome settlers in our midst, but we are not anxious to sell out.

Mr. Haberman, Esq., returned to his home last Saturday from Colorado.

Walter Farra sold a good span of horses last week at \$300 and has about 28 head left and all first-class horses.

We are working hard to have a lodge at Murphy of the Modern Woodmen of America. Dr. Seaton is our leader.

Rain is falling again this morning and our farmers have hay cut again. Oh, where are our good weather prophets?

Alonso Hyde bought a new mowing machine last week and is cutting his third crop of alfalfa and could cut the 4th crop if the rain holds off.

'Tis sad to hear of the death of Wide Awake as he will be missed by his friends and family, and also by the correspondence staff. Hope someone will take up his position as correspondent.

What has become of the Davidson correspondent? He writes only once in a while; he must be asleep part of the time. Wake up, Monty, and give us more news and more regularly, please. Jumbo was out hunting and got five deer last week. Come over, Monty and eat venison with me.

John Williams had the misfortune to burn about 200 yards of fence last week and is very busy putting in a new one. He has about five acres in strawberries and is going to plant about that any more. Mr. Williams has a fine farm on the Applegate which is well adapted to all kinds of fruit as well as good hay. Mr. Williams also keeps a good band of first-class milk cows.

The hay balers are still in our valley. Our farmers have so much hay that it will take the baling men till Christmas to get done, if we get any more irrigating ditches and hay we can not take care of it all. Ye scribe was mistaken about the amount of hay at Mr. Haberman's—they had 65 tons instead of 40. We are at the head of the hay market. We raise more hay in our valley than any other valley of its size in Oregon.

## JUMBO.

The children of this community seem to enjoy themselves playing marbles—fine climate, you know.

We have quite exciting times around here. Rob Breeding has his horse down in the saw dust pit Monday.

### For Fire Insurance

The O. F. R. A. of McMinnville are the cheapest and have 12 years standing without a peer in Oregon for settling fire losses. That tells the tale. Don't be deceived by other agents who have selfish motives. In no event will it cost you more than the standard stock companies charge per annum. H. B. HENDRICKS, Agt Grants Pass, Ore. 7-27 tf

## Bright Outlook for Normal

We are pleased to note that the Summer session of the State Normal School at Monmouth, which will close in another week, has been very successful. The enrollment has reached 120, and many of the eminent educators of the state have taken part in the work.

The coming regular session, which opens September 26, promises a very large increase in the enrollment. With the added apparatus and new material for the various departments, and the renovation of the entire buildings, the school has a most promising outlook. The demand for the graduates of the Monmouth Normal is extending beyond the borders of the state.
