FOREST RESERVE LANDS SUBJECT TO SETTLEMENT

(Continued from page One.)

appears these items which are of general interest to the public:

1. Only lands chiefly valuable for agriculture and not needed for administrative purposes by the forest service or for some other public use will be classified and listed under the act.

2. Lands covered with a merchantable growth of timber will not be declared agricultural except upon the strongest evidence of its value for agricultural purposes, both as to productivity and accessibility to a market.

3. Areas known to have been occupied by actual settlers prior to January 1, 1906, will be examined first, and when such areas are found chiefly valuable for agriculture they will be listed, in order that the occupant may make entry under the act. The mere fact that a man has settled upon the land will, however, not influence the decision with respect to its agricultural character.

4. Application for classification and listing under the act must be forwarded by mail to the forester, Washington, D. C.

5. All applications must give the name of the forest reserve and describe the land, examination of which is requested, by legal subdivisions, if surveyed; but if unsurveyed, by reference to natural objects, streams, or improvements, with sufficient accuracy to identify the land, and when convenient by a sketch map.

6. No examination of more than one quarter section will be ordered on the application of the same person; but if an application is withdrawn or rejected, a second application may be made for other land.

7. The question of prior right to land applied for can be determined by the department of the interior only, and the forest service will not investigate to determine whether such land is appropriated by a prior right. The applicant should satisfy himself upon this point for his own protection.

8. The first application received in Washington for any new tract is the one on which examination will be made, and all applications received in the same mail will be treated as simultaneous. Notice will be given of all simultaneous and conflicting applications.

9. The allowance of entries and the issuance of patents upon them, under the act, are entirely within the jurisdiction of the secretary of the interior.

10. Special attention is called to section 5 of the act, which provides that nothing therein contained shall be held to authorize any settlement after December 31, 1905, on any lands within forest reserves until such lands have been opened to settlement as provided in the act.

11. Settlement after December 31, 1905, and in advance of opening by the secretary of the interior, will confer no rights and will constitute trespass. Such trespassers will be ejected.

Always Was Sick.

When a man says he always was sick—troubled with a cough that lasted all winter—what would you think if he should say—he never was sick since using Ballard's Horehound Syrup. Such a man exists. Mr. J. C. Clark, Denver, Colorado, writes: "For years I was troubled with a severe cough that would last all winter. This cough left me in a miserable condition. I tried Ballard's Horehound Syrup and have not had a sick day since. That's what it did for me." For sale by National Drug Store and Roterlund.

Famous Strike Breakers.

The most famous strike breakers in the land are Dr. King's New Life Pills. When liver and bowels go on strike, they quickly settle the trouble, and the purifying work goes right on. Best cure for constipation, headache and dizziness. 25c at all drug stores.

Insurance Rate Raisers.

The following article taken from the Roseburg Spokesman is timely and to the point. Grants Pass has the same complaint, but what's the use? Following is the article:

"This is about all that is necessary to say in regard to the periodical visits from a lot of insurance inspectors who come around to inspect and find fault or a chance or apparent reason to raise the rates that are already too high. One man comes along and represents himself to be an inspector and requires that certain changes be made in the wiring of buildings and in about six months another one tramps into town and condemns what his predecessor has recommended and says that changes must be made or else rates will be raised. In some instances the changes recommended are not feasible or possible to be made with the result that another chance is found to cause a raise in insurance rates. This seems to be about the real object these periodical visitors have in view, and they always succeed in accomplishing their object.

"The wiring of Roseburg was made under the supervision of inspectors and with their approval but these later days we find there are those who are wiser in their own estimation and so what was done in the years gone by is improper and must now be done over. The whole thing is one of those disgusting grafts that cause people unnecessary expense and trouble."

A Year of Blood.

The year 1903 will long be remembered in the home of F. N. Tackett, of Alliance, Ky., as a year of blood which flowed so copiously from Mr. Tackett's lungs that death seemed very near. He writes: "Severe bleeding from the lungs and a frightful cough had brought me at death's door, when I began taking Dr. King's New Discovery for Consumption, with the astonishing result that after taking four bottles I was completely restored and as time has proven permanently cured." Guaranteed for Sore Lungs, Coughs and Colds at all drug stores. Price 50c and \$1.00. Trial bottle free.

Teaching Agriculture.

Elementary Agriculture is one of the subjects just now demanding consideration at the hands of educators. In order that the pupils of the Medford public school may have some practical reading matter along this line, Prof. Sigus has secured from the U. S. Bureau of Agriculture the following bulletins, which will be used for supplementary reading and study in the Sixth and Seventh grades.

The Home Fruit Garden, How to Build Small Irrigation Ditches, The Control of the Codling Moth, A Primer of Forestry, The Sugar Beet, Fowls—Care and Feeding, Asparagus Culture, Some Common Birds, Marketing Farm Produce, Potato Diseases, and Treatment, The Apple and How to Grow It, Good Roads for Farmers, Irrigation in Field and Garden, Detection of Oleomargarine and Renovated Butter, The Angora Goat, Practical Suggestions for Farm Buildings, Orchard Enemies, Celery Culture, Strawberries, Raspberries, Incubation and Incubators, The Lawn, Feeding Farm Animals, Standard Varieties of Chickens, Poultry Raising, Pruning, Weeds, How to Kill Them, Weeds Used in Medicine, Annual Flowering Plants.

Had a Close Call.

"A dangerous surgical operation, involving the removal of a malignant ulcer, as large as my hand, from my daughter's hip, was prevented by the application of Bucklen's Arnica Salve," says A. C. Stickle of Millers, W. Va. "Persistent use of the Salve completely cured it." Cures Cuts, Burns and Injuries. 25c at all drug stores.

W. C. T. U. COLUMN.

All matter for this column is supplied by the Josephine County Woman's Christian Temperance Union, Y. and L. T. L. Branches.

Scientific Temperance Instruction meeting at Baptist church (this) Friday, November 9, 1906, 7:30 p. m. Don't miss Rev. Beckman's address. Merlin W. C. T. U. met at usual hour in M. E. church, October 26, 1906. Program consisted of select readings on temperance and woman suffrage. Mother's Temperance Poem.

Special prayer was offered for the mother and children of Merlin.

Mrs. D. W. Mitchell, Press Supt.

Mrs. Lanterman, President of Merlin Union reports them ready to organize Y and L. T. L. branches. County Y secretary, Mrs. Savage, and others will go to Merlin to assist in the work.

Y ORGANIZER COMING.

"At the State Convention it was arranged for Mrs. Henkle, of Grants Pass, State Secretary, to plan a trip for Miss Clara Ansoorge, National Associate of the "Y" branch. Her terms are easy to meet. Write to Mrs. Henkle for further information."—W. R. Review.

GRANTS PASS Y.

The regular monthly business meeting of the Y. P. C. T. U. was held in the Presbyterian church parlors, Friday evening, November 2. After the regular business was transacted, the following officers were elected for the coming year: President, Kittie Loughridge; vice-president at large, Inez Howard; vice-president, Presbyterian church, Harold O'Neill; vice-president Baptist church, Roy Hackett; vice-president, Christian church, Amy Isaacs; vice president Methodist church, George Harper; secretary, Errol Gilkey; corresponding secretary, Anna W. Harmon; treasurer, George Birdseye; organist, Emma Loughridge.

The executive committee met and the following superintendents were appointed: Superintendent press department, Robert Kemp; superintendent evangelistic department, George Birdseye; superintendent public meetings, Wilna Gilkey; superintendent socials and entertainments, Amy Isaacs; superintendent flower mission, Electa Chapman; superintendent prison purity and physical culture, Mrs. C. O. Beckman; superintendent scientific temperance instruction, Ella Savage; superintendent parliamentary work, George Harper; superintendent Sabbath observance, Eugene Scovill; superintendent good citizenship and legislation, Roy Hackett.

Errol Gilkey, Press reporter pro tem.

L. T. L.

Mrs. Jane M. Donahison, State secretary, 316 Fremont street, Portland.

Mrs. Myrtle Cowdry secretary of Grants Pass L. T. L., will meet the children, who are interested in the work, at the Baptist church, Friday afternoon, November 16, immediately after school. A short program will be given, also a physical culture drill by Mrs. Clements. Regular course will be followed as found in the temperance "Lesson Manuals." Girls and boys are invited to attend the meeting.

This branch, through its junior and senior grades aims, by a regular course of study, scientific, ethical and governmental, to make our boys and girls intelligent abstainers; to develop, by thorough organization, business methods and practical helpfulness, an army of disciplined temperance workers and enthusiastic temperance givers; to identify its members through their

payment of dues and consequent representation in State and National convention, and through their drill in department work with the interests of the W. C. T. U. present and future. Its Normal Grade aims to develop W. C. T. U. leaders and teachers for the L. T. L.

MY BOY.

"Don't send my boy where your girls can't go.

And say, 'there's no danger for boys you know,

Because they all have their wild oats to sow,'

There is no more excuse for my boy to be low

Than your girl, then please don't tell him so.

Don't send my boy where your girl can't go,

For a boy or girl, sin is sin, you know,

And my baby boy's hands are as clean and white,

And his heart as pure as your girl's tonight."—W. R. R.

The special work of the Purity in Literature and Art Department of W. C. T. U. of Grants Pass for the year will be to erect a drinking fountain. At last meeting the committee made a favorable report and a goodly sum was subscribed by those present.

MRS. HATTIE I. C. CALVERT, Press Supt.

Men Past Sixty in Danger.

More than half of mankind over 60 years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for 20 years although I am now 91 years old." For sale by H. A. Roterlund.

Copper Mining.

The mining of copper at the present time is somewhat different from what it was a few years ago. Not many years ago copper was selling from 11 to 14 cents per pound. At present it is worth 23 cents a pound in New York City. The increase in the selling price simply means so much additional profit for the producers, for there is no increase in the cost of production. In fact the cost of producing copper is considerably cheaper than it was a number of years ago, because of the improved methods and machinery. The importance of the present high prices of copper can be more readily seen by putting two and two together; for instance, a 15 per cent copper ore, such as is produced in the Oregon copper mines in the southwestern part of the state, contains 900 pounds of copper to the ton.

Thus making the ore worth, at the present price of copper, \$66 per ton just double what it was worth at the old price of 11 cents a pound. But the \$33 a ton increase is all clear gain. This means an increase clear profit of \$39,000 a month to a company producing 100 tons of ore per day.

Counterfeiting the Genuine.

Foley & Co., Chicago, originated Honey and Tar as a throat and lung remedy, and on account of the great merit and popularity of Foley's Honey and Tar many imitations are offered for the genuine. Ask for Foley's Honey and Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no Tar and refuse any substitute offered as no other preparation will give the same satisfaction. It is mildly laxative. It contains no opiates and is safest for children and delicate persons. For sale by H. A. Roterlund.

A Gift Worth While

The money spent for trinkets by the average family at Christmas time would buy an Edison Phonograph. The trinkets last about as long as Christmas does. The Edison Phonograph affords enjoyment day after day and year after year. The trinkets please only the individual recipients. The Edison Phonograph offers a continuous round of pleasure for the whole family.

It is the greatest music-maker of the age. It brings into the home circle all of the world's music, rendering with wonderful faithfulness whatever song, instrumental piece, or orchestral selection is desired.

Make this Christmas the merriest of all by having for its chief feature an EDISON PHONOGRAPH
