of such supplies as the Union may deal in.

The Board of Directors shall meet on the last Saturday in each month in the city of Grants Pass. Special meetings of the Board may be called by the president or by the written request to the president of three of the directors, the secretary serving notice by mail or telephone to the members of such special meeting. A quorum for a Board meeting shall consist of five members, but a less number may meet and adjourn from time to time.

Sec. 7. The manager shall be appointed by the Board of Directors to serve until the next annual meeting, but he may be removed at any time that the Board so orders. The manager shall be a member of this Union and he may hold any other office in the Union. He shall have charge of all purchasing and sales business of this Union and shall have charge of all warehouses and other property of this Union, oversee all employees and supervise the shipping of fish and of all other products handled by this Union. He shall be paid such a salary or commission as the Board of Directors may specify.

ARTICLE VI.

Sec. 1. The annual meeting of this Union shall be held in the city of Grants Pass on the last Saturday in March of each year, at which time the outgoing president, secretary, treasurer and manager shall each make a report in writing on all matters pertaining to their respective offices.

At this meeting all officers of this union shall be elected, all voting to be by ballot.

ARTICLE VII.

Sec. 1. All officers of this Union shall serve for the period of one year, except directors, who shall serve for three years or until their successors have been elected and have qualified. At the first election held under this constitution three directors shall be elected to serve two years from the next annual meeting and three directors to serve one year from the next annual meeting, and three directors to serve until the next annual meeting.

ARTICLE VIII.

Sec. 1. The regular meeting of this Union shall be held on the last Saturday in each month during fishing season.

Sec. 2. Special meetings of this Union may be called by the president or by written request to the president of three members of the Board, or of 10 members of the Union. Notice of such special meeting shall be announced in at least two of the local papers of the County at least one week prior to the date of the meeting.

Sec. 3. A quorum for any regular or special meeting of this Union shall consist of seven members but a less number may meet and adjourn from time to time.

ARTICLE IX.

Sec. 1. This Union, through its board of directors, shall have exclusive and unqualified power to market all fish caught by its members. A contract between each individual and the board of directors will be required at the time the fisherman is admitted to membership and this contract shall be in force so long as the fisherman is a member of this Union.

Sec. 2. No label of this Union shall be placed on a box, crate or package except under the direct orders of the manager.

ARTICLE X.

Sec. 1. The Board of Directors shall have power to provide the necessary means for carrying out the purposes for which this Union is formed by fixing reasonable charges and commissions for the services rendered by this Union to its members and customers. The Board shall have power to borrow money and to enter into other financial obligations binding this Union. All notes and other evidences of indebtedness and all contracts and agreements between this Union and other parties shall be signed by the president and countersigned by the secretary of this Union.

ARTICLE XI.

Sec. 1. This constitution and by-laws may be amended by a two-thirds vote of all members present at any regular meeting of this Union, a notice in writing to that effect having been presented at the previous regular meeting and filed with the secretary.

THE PUTTY QUESTION

Up the Chimney is Where Half Your Fuel Money Goes When the Ordinary Stove is Used

Stove putty is universally used by stove manufacturers for making tight joints in heating stoves. While the stove is brand new the putty does the work asked of it. A hot fire for a few months cracks the putty, it drops out of place, leaving the stove full of air leaking cracks, allowing the gases in the fuel and a big part of the heat generated to be sucked up the chimney and thus wasted.

More than one-half of all the fuel you put into the putty jointed stove is lost in this way. If your old stove eats up more fuel and does not keep fire as well as it did at first, the reason is the stove putty has dropped out of the joints.

Cole's Original Hot Blast

Coal Stoves and Air Tight Wood Stoves Save all Fuel and Heat Wasted by Other Heating Stoves.

CUT No. 1. Shows air leaking putty joint construction of other stoves.

CUT No. 2. Shows Cole's Hot Blast burning soft coal.

Scientific Construction

Note the straight steel jacket encasing the heavy cast iron fire box inside, and the guaranteed smoke-proof feed door placed at the front of the top in Cole's Hot Blast Stove, shown by cut No. 1, doing away with air-leaking putty joints at top and bottom of fire pot and around the door frame on other stoves as shown by cut No. 2.

The water-tight steel bottom and patented compound hinge for ash door, also the patented steel collar for joining the ash door frame to the heavy steel body so that it cannot be loosened by action of the fiercest heat, while of only technical interest, are special features in both the Original Hot Blast Coal and Air-Tight Wood Stoves which combine to make them the most economical heating stoves in the world. We are Exclusive Agents—avoid imitations.

Save \$50.00 to \$200.00

You cannot afford to say to yourself, "My old stove or an imitation stove at a little less price will have to do this winter." Other style stoves and all imitations of Cole's Original Hot Blast and Air-Tight Stoves are made with stove putty joints, and when you stop to think that \$1.00 saved on the first cost of the stove means the loss of \$50 to \$200 in fuel during the life of the stove, you will readily see the advantage of buying the Original Hot Blast, and Air-Tight Stoves which hold fire just as well and are just as economical in fuel after years of use as the first day they are put up.
