

**INTEREST IN OREGON
PASSES PRECEDENTS**

**Majority of Inquiries Come From
"Middle West"—Confined
to Four Languages.**

Portland, Ore., Dec. 10, 1906.
Special Correspondence.

Fifty dollars per week in postage gives some idea of the enormous joint correspondence of the Oregon Development League and Portland Commercial Club.

The present interest in Oregon passes all precedents and the inquiry exceeds by at least 100 per cent that of the Lewis and Clark Exposition period.

The above refers only to the correspondence conducted by Tom Richardson, and for several weeks past each and every one of the 62 commercial bodies throughout Oregon which compose the Oregon Development League have been furnished with the names and addresses of enquirers sufficient to keep a well equipped office busy in disseminating information about the different portions of the state.

These enquires are chiefly confined to four languages, and while those using English in their correspondence predominate, there are many Germans, Swedes and Poles writing for information, and all will be supplied.

The Oregon Development League has been doing some very extensive advertising throughout the Dakotas, Minnesota, Michigan, Wisconsin, Illinois, Iowa, Kansas, Nebraska, Missouri, Indian Territory, Oklahoma, Indiana and Ohio. Naturally, the range of enquiries covers almost every part of the United States, but the great majority of them are coming from what is known as the "Middle West," that region which includes the Mississippi Valley and embraces all the territory between the Rockies and the Allegheny Mountains.

Every subject is touched upon in these communications, but those relative to dairying seem to be in the majority, and fortunately for Western Oregon especially, it seems to be generally understood that in this particular section the dairyman has green pasture the year around.

Cost of living expenses is asked in many letters, climatic conditions form the chief note of others. There are those who want to engage in bee-keeping, others who wish to raise poultry. Angora goats, cattle and sheep all receive their share of attention. Fruit growing is, of course, a subject of special prominence in many

letters, but remarkable as it may appear, while a majority of the letters come from wheat growing districts, very few, if any of the writers, ask regarding this important cereal.

The Oregon Development League, through its central office at Portland, has placed in the hands of the 62 organizations forming its membership, an opportunity to get directly in touch with people already enough interested in Oregon to have written letters asking about "The Beaver State," and this opportunity should be improved by each and every community, for when a farmer's interest in any portion of the country is sufficient inducement for him to write a letter it shows he is pretty much in earnest. He should not be allowed to forget Oregon and its special advantages until he becomes a resident of this state.

It is during the Winter months that the farmers of the entire Mississippi Valley, and especially the section represented in the states mentioned above, do their greatest amount of reading, and they ought to be given a chance to learn all about this state. The foundation of an active campaign by any commercial body is first of all to determine who shall be written to for best results. This question is answered amply by the lists furnished by the Oregon Development League. Never was so splendid and economical an opportunity presented before for every community to advance its interests.

SOUVENIR PLAYING CARDS

Issued by Great Northern Railway.

The Great Northern Railway and Great Northern Steamship Companies have issued a new edition of playing cards. They are printed on exceptionally fine stock, and are better cards for the price asked than can be had elsewhere. The advertising, consisting of the trade mark, is worked into an oriental design and is confined entirely to the back of the card. The Steamship card is the more elaborate of the two and is finished with gilt edges. Great Northern Railway cards 15 cents per pack. Steamship cards 25 cents per pack. Mailed to any address on receipt of price.

A Cincinnati judge has declared that a married woman's infatuation for her pastor is not proof of insanity. She simply carries a few bugs in the pan in which sensible women carry their brains.

ALFALFA PRESENTS CHARACTERISTICS OF VALUE

**Will Be of Benefit to the Farm
as a Destroyer of
Weeds.**

Probably no other crop without a single exception, presents so many characteristics of value as alfalfa. As it is studied more and more, and as new experiments are made with it in different capacities, its wonderful capacities became more and more manifest. A very eminent authority has discovered that it is a weed eradicator of unfailing power. This will seem like contradiction to readers who have been cautioned about weeds, and which will prove more destructive to alfalfa than any combatable influence. Nevertheless it is strictly true that the plant is the greatest destroyer of weeds known. This comes not so much from any quality contained in the alfalfa plant, but from the inability of the weeds to endure having their heads cut off so many times in Summer close to their feet. The most strenuous weed soon will succumb to this harsh treatment, while the alfalfa plant will thrive all the better the more it is cut. If weeds can be kept back from choking the young alfalfa plants until they, the alfalfa plants, are tall enough to be mowed, the question of weeds in the particular parcel of ground is settled. Therefore, it is wise to select a weedy piece of ground for the alfalfa field, but before sowing the seed every precaution should be taken to kill as many weeds as possible. This can best be done by simply following the oft-repeated injunction to thoroughly prepare the seed bed before sowing the seed. If this be done, and the tract harrowed and rolled after plowing at a time when the tiny weeds begin to show green over the field, and again just before time to sow, there will be the cleanest field on the farm before the year is out. There are many weed-infected farms and many farmers who have despaired of ever getting rid of the weeds. Alfalfa suggests the means of riddance—C. M. Ginther in Agricultural Epitomist.

According to the census bureau the wealth of the United States is increasing at an astonishingly rapid rate. The story is told in figures so vast as to be almost beyond comprehension. In 1890 the wealth of the nation was \$65,000,000,000. In 1900 it was \$88,000,000,000, and in 1904 the census bureau tells us the grand total of \$107,000,000,000 has been reached.

USEFUL
Christmas. . Presents
IN GREAT VARIETY

Leather Goods

We have a large assortment of genuine Leather Hand Bags, Pocket Books, Bill Books, Cigar Cases, Purses, etc.

Mirrors

French Plate hand Mirrors, exceptionally good quality, range in price from 50c to \$4.00.
