A Brief Record of Local Events.

A considerable amount of interesting news has been necessarily omitted this week on account of our inability to get it into type.

The tamale supper given by the Rebekahs on Tuesday evening was decided success. There was a good attendance and the supper was excellent.

J. M. Newman has sold his place across the river and his wagon shop interest and this week left with his family for Walla Walla, where he will probably locate.

Mr. and Mrs. M. Clemens entertained some 60 of their friends on Tuesday evening in a "St. Valentine's" whist party, a most pleasant social event. Their home was beautifully decorated and delicious refreshments were served to the guests.

C. B. Perkins, formerly of Grants Pass, is now writing a guide book of the Orient and is traveling from place to place in the furtherance of that work. His father, H. C. Perkins, last heard from him at Calcutta, India.

Clarence Wynant, the rustling news gatherer for the Courier at New Hope, was in Grants Pass Monday. In addition to assisting his father, H. S. Wynant, Clarence has taken a 40-acre homestead adjoining their home place. This he will make into a fruit farm as soon as he can get the timber off as the soil is well adapted to peaches and grapes.

Frank Fetsch, who recently sold his interest in the Southern Oregon Supply Co. to Spalding Bros. is contemplating a visit to his old home in Germany. Mr. Fetsch has been prominent business man of this place for many years and for several terms was an active member of the city council.

Mr. and Mrs. J. C. Dutcher were in Grants Pass Saturday from their farm on the mouth of Applegate three miles below Murphy. Mr. Dutcher purchased his place last year and as it is good fruit land he will no fast as he gets it cleared set it to fruit. He will also engage in the nursery business and will make it a point to have first-class trees, true to name and free from disease.

Rev. Geo. M. Gardner, pastor of the M. E. church South, left the fore part of the week for Corning, Cal., where he has a 10-acre fruit farm in the Maywood colony. The orchard is principally peaches and olives, both of which are in bearing, and also includes many other varieties of fruit in small lots. This is a valuable property as the orchard is young, just having come into bearing, and is in the heart of the California fruit belt. Mr. Gardner will return to take charge of the church services Sunday.

Mr. Morrison, who resides at the head of Grants Hill valley, out of town, has received a letter from his wife stating she would be home from Chicago in two weeks with their eight year old daughter, who she took to Chicago a month ago to have a surgical operation performed on the roof of her mouth to enable her to articulate words distinctly. Mrs. Morrison writes that the operation which was by a specialist, was a success and the little girl stood it well. The surgeon is of the opinion that the child will be able to speak plainly within a short time.

Mr. and Mrs. Kinney received word a few days ago that their daughter Miss Marjorie, now a student at Pomona college at Carlton, Cal., had received the first prize and an award of \$10 in the annual freshman declamatory contest, taking the honors over eight other contestants. The winning of this prize in itself is quite an honor, and the contest coming as it did in the midst of double examinations which Miss Kinney was obliged to take on account of having lost considerable time owing to an accident she received in the gymnasium, makes her success very gratifying to her parents and many friends.

Hendricks & Son have just purchased from Dr. Bogue, of Myrtle Creek, and J. B. Antin, formerly of Placer, a copper property at the head of Grave Creek, which consists of four claims of patented ground. This is a good copper prospect and the vein of high grade ore can be traced for a distance of a mile on the surface. A crew is now at work on the property and thorough development work will be done.

Rev. C. O. Beckman has been granted a three-months' leave of absence with salary continued, by the Newmann M. E. church, of which he is pastor. Mr. Beckman is broken down in health to such an extent that the members of his church considered an immediate and absolute rest from pastoral duties necessary to preserve his future health and vigor. He with Mrs. Beckman and the baby left Wednesday for Tucson, Ariz., where they will spend a portion of their time.

NEW SPRING GOODS

Wagon loads of new spring merchandise now piled up in all departments of the Big Store.

The condition of the dry goods market was such last fall, owing to the scarcity of all classes of raw materials, such as Cottons, Silks and wools, and the uncertainty of the labor problem, Larger Manufacturers and Distributors urged their customers to place spring orders early for all they could use in Cotton, Wool, and Silk dress goods; as is usually the case many merchants all over the country paid little or no heed to this warning and went into the market in January expecting to find the usual market sights of Full Stocks, Anxious Letters and Low Prices but to their sorrow and disappointment were met at the doors of all factories and jobbers alike, ALL SOLD UP.

The more popular brands of Spring cottons, high grade Silks and Worsteds were sold up Jan. 1, 1907 and hundreds of manufactories absolutely refused to accept additional orders, even at a great advance in price, before May or June deliveries. This will practically put many merchants at the mercy of Small Jobbers and Commission Sharks who will compel them to pay well for their accommodations.

TO OUR PATRONS

While our spring purchases placed with the mills last October were the largest and most satisfactory orders we have ever placed and we now have the Merchandise to deliver to each buyer. We can not go into the market and duplicate our present Spring Stock at any prices, don't be fooled. We now have on sale an enormous Stock of new Spring Merchandise at prices that Surprise every one because of cheapness and unlimited variety, style and excellent quality.
