

WHERE MILLIONS GROW IN BUNCHES GOLDFIELD...

The Wonder of the Age

There is no question that GOLDFIELDS THE GREAT-EST GOLD CAMP ON EARTH. It has been brought to this distinction by leasers who have cleaned up millions in the past two years and will add tens of millions more in the coming year.

\$584,246.11

Is the exact amount of a check received by HAYES and MONNETTE for 47 tons of ore, paid to them by the Selby Smelting and Lead Company, January 21, 1907. The four who were interested in this lease on the Mohawk made almost a million dollars each from the ore shipped since August 1, 1906.

The Goldfield Mining & Leasing Co.

has secured three leases on some of the most valuable ground in the immediate section of the famous MOHAWK. One lease is on the Northwest end of the VELVET, considered by experts to be as valuable a piece of ground as three in the camp. There are, at least, three veins of pay ore, known to cross this ground, proved by diamond drills and surrounding workings; in fact there are six producers closely adjacent.

Another lease is on the SILVER PICK, adjoining and including the famous January claim of the GOLDFIELD MINING CO., now one of the properties of the FIFTY MILLION DOLLAR CONSOLIDATION. The January has produced more than a million. This lease alone is sufficient guarantee in itself.

The third lease is on the C. O. D. which adjoins the Atlanta, Milltown and is on the trend of the MOHAWK, FLORENCE, COMBINATION FRACTION and JUMBO ore zones. Several neighboring leases are already in ore.

Property Holdings

The company also owns four full claims, 80 acres of ground, adjoining and being the extension of the GOLDFIELD MONTEZUMA where there is a shaft down 200 feet and upon which a complete hoisting plant is being erected. Surface assays run from \$1 to \$16 per ton.

Capitalization

The Gold field Mining and Leasing company is capitalized for 1,000,000 shares with 400,000 shares in the treasury. The officers are:

President—Edward T. Patrick, president of the Goldfield Stock and Exchange Board.
Vice President—Col. E. A. Braden, New York City.
Secretary—W. T. Watson, Goldfield.
Treasurer—J. H. Reniger, Goldfield.
Directors—J. F. Hedden, General Manager Tonopah and Goldfield railroad and J. L. Lindsay cashier State Bank and Trust Company, Goldfield.
Consulting Engineer, Forest J. Swears, Goldfield.

We have been appointed fiscal agents for the sale of this stock and the first allotment of 100,000 shares will be sold at 15 cents per share. No orders will be accepted beyond this amount at 15 cents. The next allotment will be placed at 20 cents if it is necessary to dispose of further shares.

Work in Progress

Work is already under way on one of the leases and will be prosecuted more vigorously as soon as the hoisting plants are installed. The leases, having a year to run will be pushed with rapid speed in order to get to the known ore bodies and at the same time the property of the company will be worked.

Get In With the Millionaires

The leasing system has made Goldfield and Goldfield has made the leasers. There are hundreds of leases working the most valuable properties and here is a chance for the small investor to profit from this vast storehouse of all that is as yet scarcely touched.

Buy this stock now while it is only 15c per share. Worth the money on the holidays alone. Worth much more with the valuable leases on the cream of Goldfield's territory.

MODEL PRAIRIETOWN

VALUE OF CIVIC PRIDE AND LOVE OF BEAUTY TO BLUFF CITY.

How Beautification of a Kansas Town Has Paid in Money—Neatness and Cleanliness Are Habits There—One Man Responsible For Good Work.

A little town of 200 people upon the Kansas prairies has the largest park area per capita of any city in the world, says the Kansas City Star.

This is the town of Bluff City, in Harper county. Where this town stands today was an unbroken, treeless prairie eighteen years ago. Now it has a beautiful park of ten acres, where a band gives concerts Sunday afternoons. It has well kept streets, beautiful lawns and wonderful flower gardens. There is not a weed patch or an unsightly spot in the town. There is not a shanty or a ragged outhouse or an unpeeled building or a rickety leaning fence or a dirty gutter.

There are poor people in Bluff City, as everywhere, but neatness and cleanliness are habits in this village, and every home and lot looks well. The beautification of the town has cost 20 dollars and cents. It has cost 20 people to the place to live. It has cost the school there with a high class of scholars from other places. It has cost the characters of the people who live there. There is not a drunkard, a thief, a shiftless person or a bad boy in the place. Everything in Bluff City must look well, and the people live up to their surroundings. Even the railroad company has built there the prettiest depot upon its line, and it is painted more often and kept neater than any other depot, this soulless corporation recognizing the right of Bluff City to better things.

One man is responsible for this beauty spot upon the bald Kansas prairie, this model village. He began when the town was new to teach his fellow townsmen to love trees and flowers and to have pride in their surroundings. At first he was laughed at and opposed, but he kept on, and it was not long until every one saw that a tree was a beautiful thing aside from its utility, and that a flower garden was a blessing, and that there was a comfort and a monetary value in beauty and cleanliness alone.

The man who did all of this was James Glover. When the town of Bluff City consisted only of some squares and parallel lines upon a sheet of paper he went to the place as land agent for the railroad company. This was in 1880. He liked the place and made up his mind to stay there. He induced his company to set aside ten acres for a park.

"When the lot selling was done I set about the task of park building really more from a pure love of the work than from the expectation of realizing anything like what has been accomplished," says Mr. Glover.

"At first it was slow work and utterly without appreciation by the citizens, but each year a little was done, and at length it began to assume outline and growth, interest or, perhaps more correctly, curiosity increased, and the people began to talk about it, not as they do now, but usually to ridicule. However, the idea grew, and so did the trees, and with these two successes enthusiasm took root and grew too. Then others took hold, and the 'park idea' was a fixed fact and to work for it the proper thing to do. From so small a beginning it has grown to be the wonder of all who see it and has received unstinted praise from visitors.

"Our people willingly pay the tax necessary to keep it up, and all summer a man is employed to mow the grass and keep the walks and streets in good condition."

This town has a mowing machine and a road scraper and roller. A man is paid to operate them. He keeps all grass and weeds upon roads and vacant lots mowed smoothly, and the streets and roads approaching the town look always as if just made.

"The ground of our ten acre park is prettily laid out with winding walks," says Mr. Glover. "The trees are planted in clumps, and all through the park are little openings, so that every turn there is a change of view. There are some fifteen or twenty sorts of deciduous trees and four of evergreens, with perhaps twenty-five sorts of shrubs and in considerable quantity. There are about 150 evergreens, many of them very beautiful specimens.

"The effect of such a beauty spot is far reaching and, we believe, useful. Frequently through the summer the band plays here on Sunday afternoons, and the people come from considerable distances to be present. Such surroundings and such amusement cannot hurt the young and are very likely to stimulate their better tastes.

"The work and the result have been far reaching and an education to the town and the surrounding country. Bluff City has more pretty lawns than any town of its size in the state. Tree planting took an impetus when the park showed what could be done, and now the town is growing into a bower. Our stores are far handsomer than those found in towns of this size, as a rule. The idea of having everything look its best, not alone in park and streets, but in business places, homes, churches, depot and school, is the aim of every one.

"The park idea has spread to neighboring towns, and many inquiries are received of how to do it. The way to get a park is to go to work and be in earnest. Don't mind the croakers and kickers, for, like the poor of Sordaria, they are with you always. The

people love the beautiful, but often need some one to show them how to achieve it. Only the ignorant and the greedy combat civic betterment."

"WHISKY" COLD CURES

Danger of Using Alcoholic Mixtures or Coal Tar Tablets.

Laying aside all moral objections against filling up the system with whiskey or drugs because one has a cough or cold, the dangerous physical effects should be sufficient to keep one from using these strong medicines.

A thoroughly scientific way to treat a cough and cold as well as a sensible method to breathe Hyomei through the neat pocket inhaler that comes with every outfit. The first breath of its healing medication relieves the irritation, and its continued use soon effects a thorough cure.

The best people in Grants Pass always keep Hyomei in the house during the Winter months, and at the first symptoms of cold or bronchial troubles, use the remedy, and prevent serious and lasting illness. The guarantee that Demaray gives with every Hyomei outfit should convince you of its curative powers. A complete Hyomei outfit costs but \$1, extra bottles if needed, 50c and Demaray guarantees to refund the money if it does not give satisfaction.

STUPID ROAD WORK.

Piling Weeds in Center of Highway Worse Than Nothing.

There is no more familiar sight in Missouri these days than to see men in all parts of the corn belt working on the highways with graders building up the center of a road with a mixture of weeds, sods and soil, says the Farmer and Stockman. In a recent drive of nine miles the roads on more than half the distance had been operated on some weeks before and the center piled high with the mixture named above—that is, weeds, sods and soil.

The plan of going over the roads in the county with a heavy grader annually is stupid beyond any power of description. When this is done the work of one year simply means the undoing of the previous year's labor, and as a result such roads are usually in a constant state of unfitness for traffic. Our knowledge of good roads has come through practical experience and, incidentally, through the loss of much perspiration. Our conclusion as the result of this experience is that road-makers should aim to build a perfect piece of earth road each year. We realize that it is often necessary to employ makeshift methods in order to really make all roads in the county passable, and because of this it is not expected that the labor of the year will be put on a few miles of road.

It is impossible to imagine a poorer kind of road material than weeds and sods, and yet, as stated above, you will often see the center of highways piled high with this mixture. When it becomes necessary to pile dirt in the center of the road those doing the work should take the time to mow, rake and burn all rubbish before starting the graders.

When this is done it is then possible to make some kind of a decent job of leveling the surface when the work is completed; otherwise the traffic center simply becomes an ideal mudhole. Weeds soon decay, and as the result one has almost ideal conditions for the absorption of water.

You have, in other words, humus making material on the center of your road, and such material, as every one knows, retains moisture with a remarkable degree of persistency.

FOR STOMACH TROUBLE

Don't Use Any Remedy That Keeps Its Formula a Secret.

People troubled with stomach weakness cannot afford to use a medicine unless they know what it contains.

Mi-o-na is the one remedy for stomach troubles that publishes its formula: chemically pure bismuth subgallate, to allay any inflammation of the stomach and bowels; cerium oxalate, to strengthen the stomach nerves; sodium bicarbonate, to neutralize the poisonous acids that are present in stomach troubles; and nuxvomica, which restores vigor to the digestive organs and tones up the whole nervous system.

This combination of valuable remedies is found only in Mi-o-na stomach tablets, and it so rarely fails to strengthen digestive system, and cure even the worst form of stomach trouble that Demaray sells the remedy under guarantee to refund the money unless it cures.

A 50c box of Mi-o-na will give quick relief for indigestion, distress after eating, sleeplessness, or any of the other symptoms of stomach troubles. Unless it does this, the cost is nothing.

Post Cards Tablets—2 cards on tablet, 5c—Music store.

Of Interest To Women.

To such women as are not seriously out of health, but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as well as to nursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nerve. By its timely use, much serious sickness and suffering may be avoided. The operating table and the surgeon's knife, would it be believed, seldom have to be employed if this most valuable woman's remedy were resorted to in good time. The "Favorite Prescription" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering childbirth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character, but is a medicine of known composition, a full list of all its ingredients being printed, in plain English, on every bottle wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcohol, in its make-up. In this connection it may be noted out of place to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and ailments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the ailments for which "Favorite Prescription" is recommended.

A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Pleasant Pellets cure constipation. Constipation is the cause of many diseases. Cure the cause and you cure the disease. Easy to take as candy.

NOTICE OF SHERIFF'S SALE.

In the Circuit Court of the State of Oregon for the County of Josephine.

J. D. Drake, Plaintiff,

vs. Charles H. Johnston, Defendant.

Notice is hereby given that by virtue of a writ of execution, duly issued out of and under the seal of the Circuit Court in and for the County of Josephine, State of Oregon, and to me directed and duly attested by the clerk of said Court on the 17th day of January, A. D. 1907, upon a decree and judgment duly rendered, entered of record and duly docketed in the office of the clerk of said Circuit Court, on the 21st day of January, 1907, in a certain suit then pending in the said Circuit Court, wherein J. D. Drake was plaintiff and Charles H. Johnston, defendant in the sum of Seven Hundred and Seventy-Eight and 61-100 Dollars (\$778.61) with interest thereon from the 21st day of January, 1907, at the rate of 6 per cent per annum, and the further sum of Twenty Dollars (\$20) costs and disbursements, and the costs and expenses of, and upon this writ, commanding me to make sale of the following described real property to-wit:

Lots Five (5), Six (6) and Seven (7) in Section Eighteen (18), Twp. Thirty-six (36) South, Range Six (6) West of Willamette Mer. Also all the right, title and interest of the defendant in and to Lot Five (5), Sec. Thirteen (13), Twp. Thirty-Six (36) South, Range Seven (7) West of Willamette Mer., all in Josephine County, Oregon.

Now, therefore by the virtue of said execution, judgment, order and decree, and in compliance with the commands of said writ, I will on, Saturday, March 2, 1907, at the hour of 10 o'clock a. m. at the front door of the County Court house in the City of Grants Pass, said County and State, sell at public auction subject to redemption, to the highest bidder for United States gold coin, cash in hand, all the right, title and interest which the above named defendant had or now has in and to the above described real property or any part thereof to satisfy said execution, judgment, order, decree, interest, costs and all accruing costs.

Dated Grants Pass, Ore., January 24, 1907.
