Prof. T. J. Harrison has just been offered the principalship of the Pendleton High School at an advanced salary and on the 21st handed in his resignation as principal of the Grants Pass high school. A special meeting of the school board was held Monday evening to consider the resignation and it was decided to accept it to take effect within 30 days, the board pledging itself to relieve him sooner if possible to secure a satisfactory teacher before that time. There were three applications presented at the meeting but no action was taken on them as more applications are expected before the next meeting which will occur on the first Monday in March. Prof. Harrison has been a teacher in the Grants Pass Schools for the past two years and has proven himself an able instructor and he will take with him the best wishes of the students and teachers.

C. E. Sams has pulled up his petite prune trees, also part of his cling peach trees, and is putting in their place, apples of the Newtown Pippin and Spitzenberg varieties. He purchased 1000 trees of the Woodburn Nursery.

Rev. and Mrs. Day invited the primary members of the Sabbath School to the manse last Saturday to a home picnic. About 30 little folks responded to the invitation and spent two or three hours in a manner most pleasing to themselves. Mrs. Day then served refreshments, consisting of chicken sandwiches, cake and lemonade, Mr. Day adding a generous supply of candy. The afternoon passed quickly and was enjoyed by all present.

"Red Cloud" of Laurel Grove said it was too late for rain. He seems to be a false prophet as we are having lots of rain again.

T. E. Lewman of Provolt speaks about the pretty girls.

Well we still have a few pretty girls round and about our little town of Wilderville. You would think so if you could see fellows calling in to inquire the way to the town of Wilderville for the sole purpose of getting a glimpse of one of our fair young ladies—then got fooled—ha! ha!

The weather is quite cold since the late rains.

News is scarce. The sick were all better at last accounts.

PROVOLT

R. F. and Everitt Lewman made a business trip to Grants Pass Saturday returning Sunday.

Chas. Haberman was at Provolt this week, accompanied by Walter Farra, both of Laurel Grove.

Chas. Fields was at Grants Pass Tuesday and was accompanied home by Miss Ella Jones, who had been spending a few days visiting with relatives at that place. Mr. Fields reports Grants Pass quite lively and much necessary road work being done near the Rogue River bridge which was much needed for the betterment of the farmers and business men of Grants Pass.

L. C. Hyde of Williams was at Provolt on business this week. Mr. Hyde likes his new home and will start soon to clearing his land which he intends to put to fruit trees next season, 40 acres of which will be Newtowns which seem to lead the market in quality and price. We would like to see more fruit in the Williams Valley as it is well adapted for the fruit culture.

Henry Provolt of Applegate passed through Provolt Tuesday en route to Grants Pass, returning Wednesday with a load of freight for the store of J. P. Pernoll of that place.

Miss A. McAllister of Provolt was at Morphy this week on a visit to her many friends at that place.

Provolt is to have another sawmill which will be erected and owned by O. M. Knox of Grants Pass. Mr. Knox is at present clearing the mill site and making preparations to lay the foundation so as to be in a condition to put the machinery up as soon as it arrives the 10th of March and by the 15th of April Mr. Knox expects to be cutting lumber. The new mill is to be located at the farm of George Dunlap at the mouth of Williams creek which means much to the laboring men of the Applegate Valley and is an industry which is much needed in the Valley there being none closer than seven miles, and it is very inconvenient for the farmers and a hard day's trip considering the disadvantages along the roads.

The Applegate Co-operative Telephone Company of farmers of the Applegate and Williams Valleys are making preparations for the new phones which will be installed during Spring or as soon as the branch lines are completed. P. & A. line has the poles all set and the wire ready to string on the poles. Supt. Pernoll of Applegate let the contract to a Grants Pass party who will complete the line for \$50 and make it ready for communication with the Grants Pass business men and vicinity which will be very handy for the farmers but more convenient for Mr. Pernoll, the Applegate merchant, postmaster and also the vicinity at that place during sickness. The main telephone line between Grants Pass and Williams is in very bad condition owing to the bad weather which we have experienced in the last few months and oftentimes makes it quite inconvenient to get messages over the line at all. In many places there will be new poles to take the place of the old ones and the farmers will look after the line and keep it in repair. There are at present five telephone offices on this line.

R. Biglow passed away Wednesday, February 21, 1907. Death was caused by falling from a porch at his home at Williams, Monday, February. Mr. Biglow was born in Indiana in 1824 and came to Oregon in the early pioneer days of 1825, settling in the Willamette Valley. Later in 1865 with his family he came to Josephine county where he has since resided. Mr. Biglow was the father of nine children of which five and a loving wife he has laid to rest in the beautiful Williams creek Valley. He leaves a wife and four children to mourn the loss of a loving father and kind husband. He had a host of friends who will miss him. He was an esteemed citizen and a good neighbor and one who always was willing to give a helping hand in time of need. The remains were laid to rest in the Sparlin cemetery. THOMAS LEWMAN.

Middle Applegate.

We are having some nice showers. Lester Layton is rolling the dirt and boulders at the John Layton mine with three or four men at work.

John McAllister and sons have completed the new hop yard on the Rehkopf farm near Provolt. This will be one of the finest equipped yards on the Applegate. Spring work is getting pretty well along in this part of the country.

Some of our young people were guests at the literary last Saturday night. SUN SHINE.
