DAVIDSON

Talk about nice weather—we are surely having it now.

K. J. Kubli, the Kobil merchant and grain raiser paid Grants Pass a business visit Saturday.

W. S. Bailey of this place paid Grants Pass a business visit Saturday, bringing back with him Ed Latyon, who is working in a mine near Gold Hill.

W. B. York sold about 151 head of cattle to Mr. Mitchell of Gazelle last week and got a good price for them. Mr. York intends to buy some good stock cattle now and only raise a few choice cattle.

J. H. Tompkins who owns the famous "Glen Alta" strawberry farm near this place, was seen in Davidson one day this week with a load of the finest berries that has been put on this market for quite awhile. He says his berries are going to produce a large crop this year.

Begins to sound like haying has begun in this valley now, as you can hear mowing machines running on

both sides of the river at once. The first crop of hay is going to be pretty good but not as good as it was last year.

We find this way of driving cattle in a boat rather slow, but at the same time we are of the opinion that we are more sure of getting them that way than we are by sitting in the house and playing an old violin and trying to get them to come home by the "Home, Sweet Home, waltz." That is the way that "Red Cloud" hunted his all last week.

The N. S. A. R. Ditch will have their dam in by the middle of the week and then just watch us old farmers play in the water.

Ned and Harry Doney have been prospecting up on Horse Head the last two weeks, where they met with pretty good results. Harry Doney and Father left for Sisson, Cal., Saturday night where they are going to do some work in a pocket proposition for their brother.

O, what has become of "Shorty" I did not notice any items from his pen in the paper this week. I'll bet I can tell the reason why he didn't write this week—he has got a large crew of men at work building a fence around that 40 acre strawberry patch of his so just wait until he gets that done and then look out for the items from New Hope. MONTY.

DEERING

"Has Deering grown any?" Now that's a pretty question. Just think what Deering was when America was discovered.

Tommie Gilligan is on the war path with a sharp stick. He is after the one who suggested Binger as a name for his blooded pup. Tommie is a "Bryan republican."

A load of our young people were picnicing on the Illinois Sunday. This is the second picnic of the season and was well enjoyed.

Uncle Fuller says they have a genuine gossip over there in his vicinity. That's nothing—we have a specimen of "Genus Homo" who has a whole mountain of trouble and is continually handing out bunches of it to everyone with whom he comes in contact.

Clark Webb, Jr., has gone into the poultry business on a large scale.

Uncle Jim Bonbrake has gone back to his home near Kerby, after a

somewhat prolonged visit in our valley. Come again "Old Hoss." Mrs. D. L. and Miss Hattie Webb took a pleasure trip in the Waldo vicinity yesterday. They called upon friends.

Huxley L. Galbraith, son of the publisher of the Observer was in our valley making acquaintances and taking subscriptions for that much esteemed county organ. He was here a part of two days and took in the sights in general. Along with Uncle Ebe and Clark Webb Jr., he visited the Webb mine where he seemed to be surprised at the great showing made by the company. He claimed that he was very favorably impressed with the possibilities of Elk Valley. Now when are we to have a representative of the Courier make our valley a call? EBEN.

Oregon Pioneers Will Banquet.

Pioneers and Indian War veterans of Oregon will hold their 25th annual reunion and banquet at Portland, Wednesday, June 19.

The meeting will be held in the National Guard Armory. The morning of the day will be devoted to the reunion features. At three o'clock in the afternoon there will be a program. Chaplain I. D. Driver, who came to Oregon in 1849, will offer the prayer and President M. C. George, who crossed the plains in 1851, will respond to the address of welcome to be delivered by Mayor Harry Lane, a native son. The annual address will be delivered by George H. Himes. Special musical features will be provided for the program.

The banquet will be held at 5 o'clock in the evening. It is said that there will be 1000 covers, and only pioneers and their wives will participate. Their sons and daughters will assist in waiting upon them. Arrangements for the banquet are in the hands of Mrs. M. C. Cartwright, a member of the Women's Auxiliary. Following the banquet reports of officers will be read and officers elected for the ensuing year.

Eureka Railroad Situation.

Rumors of railroad building over in Siskiyou county are now plentiful and the following from the Yreka News gives the latest in regard to the plans of the big companies seeking to control the transportation business of Northern California:

"Facts have come to light which place the ownership of the Yreka railroad in the Southern Pacific company beyond doubt. In fact Scott Van Arsdale bought the road for the S. P. in the first place. Harriman has a force surveying the Klamath river canyon the view of beating the Northern route from Eureka into Scott val. Whether the Yreka road will be built into the valley to connect with the Eureka road is a question. If the S. P. builds the Eureka and Klamath river road it is believed it will practically follow the river to Klamath Falls, and thence north and east to connect with the Harriman main lines into Portland and Ogden, skipping Yreka entirely. If Hill succeeds in reaching Eureka via the Klamath river, the S. P. may extend the Yreka road into Scott Valley."
