

Here is What
You
Are Looking For

An Automobile without a multitude of parts to be getting out of order

One that anyone can run and keep in repair. One that will climb any hill that is traveled by horse and wagon, and does not cost a fortune. An automobile that is built light, strong and graceful requiring less power, gasoline, oil and batteries. Is made narrow track to avoid wagon ruts. Being light will not pound itself to pieces on our rough roads. Has solid rear axle and double chain drive. No friction clutches to bother. No gearing and very little noise. Has space for carrying parcels. Is air cooled, doing away with a load of hot water. Fitted with solid or pneumatic tires. Catalogue free.

THERE is nothing so good for the family as laughing. Anything introduced into the family circle which will increase the number of laughs per person is a benefit to the health of the home.

The Edison Phonograph is able to furnish good, hearty, wholesome fun. It is not always funny, but it can be made funny when you like it funny.

The first work of the Edison Phonograph is to amuse. Some people are better amused by things that are not funny. Music, operas, hymns, ballads, old songs—whatever it is that you like best—that is what the Edison Phonograph can give you best. There are good dealers everywhere who show it and sell it. Write for the book and you will know why you want the Edison.

Remarkable Rescue

That truth is stranger than fiction, has once more been demonstrated in the little town of Fedora, Tenn., the residence of C. V. Pepper. He writes: "I was in bed, entirely disabled with hemorrhages of the lungs and throat. Doctors failed to help me, and all hope had fled when I began taking Dr. King's New Discovery. When instant relief came, the coughing soon ceased; the bleeding diminished rapidly, and in three weeks I was able to go to work." Guaranteed for coughs and colds, 50c and \$1 at all drug stores. Trial bottle free.

Ashland vs. A. A. C.

Last Sunday's game between Ashland and the Local A. A. C. was another one of those games that are sometimes played between the coming generation of ball tossers and Pernoll again demonstrated to a few of the boys from up the valley, by fanning 17 of them, that there is no use in trying to bat when the ball looks like a white bean sailing through the atmosphere. In the first inning the Ashland boys took their places at the bat, it was simply 1, 2, 3, then Grants Pass took their chance to see what they could do with the ball. With Smith first up, singled to first and while Phelps and Carter fanned, stole second, Pernoll came up hitting an easy one out to third, who proceeded to see how far he could throw it over first which gave Smith a magnificent chance to come home which he immediately took advantage of, after which Riggs fanned, retiring the side. With Ashland to the bat, Gans hit to center field which Riggs easily took in. Larson struck out and Wicks went first on balls while Doherty proceeded to strike three times at the ball without any great damage to it, so he, with eight of his pals went out to chase balls for Grants Pass awhile and they finally got three men out and took another chance at bat, but all in vain. Smith was first up again in the third, got to first on an error and was thrown out at second while Phelps went down to first, then Carter came up and did a naughty little trick by hitting one over the right field fence and took his time to trotting around to home with Phelps as the advance guard. This is the first ball knocked over the fence on these grounds this season and the second one ever put over, the other being knocked over last year by Hanks, in a game with Jacksonville. The rest of the game went on quietly, Grants Pass making one more run, and it began to look like a shut-out for Ashland till the 8th when Grants Pass made a very bad and costly error, on account of a misunderstanding of a trick play on the part of Faubian, the third baseman, when Phelps threw to third quickly, expecting to catch Wicks, the first Ashland man to reach third, off his guard, but there was no one there and the ball went bounding merrily on out into the field while Wicks came home with Doherty who in the meantime had reached second, came in an instant later, this being the only two runs made by Ashland, which left the game with a final score of 5 to 2 in favor of Grants Pass.

Following is the line-up:
Ashland: Wicks p, Jewett c, Doherty 1b, Eastmon 2b, Moore 3b, Neil ss, Larson lf, Weed cf, Gans rf. Grants Pass: Pernoll p, Phelps c, Carter 1b, Schmidt 2b, Faubian 3b, Smith ss, Wertz lf, Riggs cf, DeLamater rf. Johnnie Pernoll umpired the game. Struck out by Pernoll 17, by Wicks 5. Base on balls off Pernoll 1, Wicks 4. The Grants Pass team goes to Ashland this next Sunday for a return game.

There was a big holler in Jacksonville last Sunday when Medford took their new pitcher over there to play a little ball. The Jacksonville boys allowed as now it wasn't fair and said they wouldn't play any more unless out at the other Medford players pitched so just to honor them Medford did as they requested and got beat with a score of 6 to 8 which made the Jacksonville boys feel much better. Medford certainly done things to Roseburg last week as they took all three games the last one was the most one sided game played in Southern Oregon for quite awhile it being 23 to 3.

The Grants Pass Juniors played a game of ball with the Gold Hill team at Gold Hill last Sunday, score 3 to 5 in favor of Gold Hill. The Grants Pass boys bumped up against a team composed of men which were too heavy for them.

The games to be played in Grants Pass next Thursday and Friday between the Local A. A. C. and Medford teams promises to be the most exciting games of the season and are being looked forward to with much interest. Medford has strengthened up by getting a new pitcher from California and the A. A. C. boys are practicing hard and intend to take these games even though they are going up against a harder aggregation than heretofore. Pernoll will pitch on the 14th for Grants Pass and Martin for Medford, while on the 5th Riggs will do the

leg for Grants Pass and Bosum for Medford. This will be the first game Willie has pitched, but he is expected to do great things as he has a very speedy ball and big curves.

Pernoll to Try Out With the Big Leaguers.

"Jud" Pernoll, who for the past two seasons has been pitching for the Local A. A. C. team will join the Portland bunch of the Pacific Coast League on their return from the south which will be some time in July. Young Pernoll, who is a lad only 19 years of age, started his career with the Applegate team in which role he attracted the attention of the Grants Pass boys, who were not slow in recognizing his future possibilities as a pitcher of rare promise and lost no time in securing him. In the two years he has been with the Grants Pass team, he has advanced so rapidly as to attract the attention of Manager McCredie, of the Portland Browns who has been after him from the first of the season. With Pernoll joining the big league, Grants Pass is losing one of the best pitchers that ever threw a ball on any Southern Oregon diamond and while the A. A. C. boys are sorry to see him leave, they are proud of the success he has achieved and hope that he may continue to add to his laurels in his new field of labor.

The Portland Browns passed through here Monday, en route to San Francisco. A number of the local fans were at the depot to call on them. The Glendale ball team and a picked up nine from Mule creek played at Glendale last Sunday, the score standing 14 to 15 in favor of Glendale.

SOUTHERN OREGON NORMAL SUMMER SCHOOL

Sessions Begin July 8, Continue Until August 12—Through Chautauqua.

The Southern Oregon State Normal School will conduct a Summer School this year, beginning with the 8th of July and continuing until Tuesday, the 12th of August.

The purpose of this school is to afford opportunity for a study of the several branches preparatory to examination for County and State Certificates and State Diplomas.

In addition, during the first two weeks, instruction will be given in methods of teaching, reading, phonics and language in the primary grades of the public schools. Supt. P. H. Daly of Jackson County is assisting in the arrangement and will be one of the instructors. Prof. W. T. Van Scoy, Mrs. Emma B. Wickersham and Pres. Mulkey of the Normal faculty will be the other instructors.

Pres. H. M. Crooks of Albany College and Pres. P. L. Campbell of the State University of Oregon will deliver lectures upon school topics.

The Southern Oregon Chautauqua Association holds its sessions this year at the same time that the Summer School is in session.

All persons attending the Summer School will be admitted to the evening lectures of the Chautauqua Assembly at a nominal expense. This feature is worth consideration, since it will bring within the reach of the student teachers some of the best talent of the United States. The Chautauqua season continues two weeks, beginning the 12th of July.

The Summer School will be held at the Normal grounds. Rooms can be had at the dormitories, and meals at the dining hall at a cost of \$3 per week. Persons who desire to tent in the grove about the campus may do so.

This will afford a good opportunity for a Summer outing that will combine self-improvement with pleasure. The Normal campus is very beautiful since it is being improved with wide lawns by the help of an abundance of water, which has lately been brought from the city of Ashland.

The opportunity to study reading and phonics is a rare one, since it will be in charge of a lady who acquired her skill and knowledge of the subject during a three years' course in the Oswego State Normal School of New York, and by subsequent experience as a critic teacher in the Normal school. The instruction in common school branches will be vigorous and spirited. The sessions will begin at 8 a. m. and close at 12 noon.

For further particulars address W. T. Van Scoy, Ashland, or P. H. Daly, Jacksonville.

San Diego Port Warden Appointed. Sacramento, June 26.—Governor Gillett yesterday appointed A. J. Porter port warden for San Diego, to succeed W. K. Farnsworth, a Pardee appointee whose term has expired.

Miners' blanks at the Courier office

MANUFACTURE OF LIME TO BE UNDERTAKEN

Will Be Carried on Near Roseburg—Rogue River Lime Best on Coast.

Lime will soon be made in large quantities near Roseburg if present plans materialize. A limestone mountain three miles south of Greens and eight miles from Roseburg together with 80 acres of land has been sold to a syndicate of capitalists and it is expected that the mine will be opened up, furnaces built, and that all the equipment necessary to turn out lime on a large scale will be put in. A spur from Greens' station will be built to the property.—Canyonville Echo.

Grants Pass will become the center of a big lime industry so soon as transportation facilities can be had to the Applegate Valley where there are immense deposits of both limenock and marble. Lime has been burned on a small scale on both Cheney creek and on Williams creek and bricklayers and plasterers state that it is by far the best lime brought to Grants Pass, being much stronger than either the Puget Sound or Eastern lime. For making lime-sulphur spray solution the fruit growers have found the Applegate lime the best that is to be had. Sampson Bros., in the manufacture of spray solution in this city found that the Applegate lime gave the best results of any lime that they could get. This lime has proven in repeated laboratory tests to have a higher and more uniform strength than has the Rosch Harbor lime that is so largely used here. One of the chief causes that fruit growers have such difficulty in making a spray solution that will kill the pests is that the lime they use that is imported and it is seldom that two lots are of the same strength. Sampson Bros. had that difficulty and only by making laboratory tests were they able to determine the quantity of lime to use in order to have sufficient to make the perfect chemical action on the sulphur that would give a high grade solution. There was such a variation in the strength of the lime that it took fully 25 per cent more of some lots than of others to get the required action on the sulphure. If the local lime can possibly be had it will be used exclusively hereafter in the manufacture of spray by Sampson Bros., whose plant has been taken over by the Grants Pass Canning Company and will be greatly enlarged. The builders would give the preference to the Applegate lime and it would be a profitable investment for capitalists to put in a lime burning plant and supply the Southern Oregon trade.

How to Kill Canada Thistles.

Canada thistles have appeared in Jackson county and the pest is likely to appear in this section of Rogue River Valley. It is one of the hardest of the weed pests to exterminate. The following is a question by a Woodburn farmer and an answer by Dr. James Withycombe concerning the eradication of Canadian thistle.

"Can the weed called Canadian thistle be killed? If so please tell me how it can be done?"

Eternal vigilance is the price of success in eradicating Canadian thistle. This has been accomplished in several ways. A small patch can be smothered with a deep layer of straw. Large areas should be cultivated thoroughly with some hoed crop. The thistle should be cut immediately upon appearance so as to smother it. No plant can live if the leaves are not allowed to develop as the leaves are the stomach and lungs of the plant.

An occasional entire end then allowing the leaves to develop would be simply time wasted. Spraying with a 20 per cent solution of sulphate of iron has been recommended and it is thought that spraying with gasoline particularly in bright sunlight would be very destructive to the plant. This however will have to be determined by actual experiments.

JAMES WITHYCOMBE, Director and agriculturist Oregon Agricultural college, Corvallis.

Don't!!!

Don't let your child suffer with that cough when you can cure it with Ballard's Horehound Syrup, a sure cure for Coughs, Bronchitis, influenza, Croup and Pulmonary Diseases. Buy a bottle and try it. B. E. Laughter, Byhalia, Miss., writes: "I have two children who had croup. I tried many different remedies, but I must say your Horehound Syrup is the best Croup and Cough medicine I ever used." For sale by National Drug Co. and by Demaray.

Illinois Creamery Butter is for sale at the Southern Oregon Supply Co., Kinney & Troax, Grants Pass Grocery and J. E. Hyde. Patrouize a local creamery.
