Many Mining Matters

Grants Pass has a resident in the person of J. H. Williams, who was at one time intimately associated with August Heinze, the Montana multi-millionaire mining man who has been in the lime light, on account of the great losses he sustained in the Wall Street panic. Back in 1890 Mr. Williams was at Butte, where he was the foreman of the carpenters and timber work on the famous Boston & Montana mines and Heinze was sent out from an eastern college, as a mining engineer. When he began to survey the property, Mr. Williams, by showing him some little assistance and rendering him some little assistance, gained his favor and ever afterwards he was quite confidential with him. He requested Mr. Williams to go his security for \$20 bed lounge and the request was going to be granted, had not another party helped Heinze out in the matter. Later on Heinze remarked to Mr. Williams that he was "going to leave Butte either a millionaire or a d— rascal." Mr. Williams remarked to the Courier man, and in speaking of the incident: "I said to myself, only a few days ago, here in Grants Pass that Heinze had kept his word and had come out both a millionaire and a d— rascal as he had years ago boasted that he would do." Later on Heinze, finding that Mr. Williams had some money in the bank wanted him to go in on a deal, which would have required about \$2000, but he declined and thereby lost the chance of gaining \$200,000. He said he did not want the money, if he had to become a rascal like Heinze. He says Heinze, although he has lost millions, is still a millionaire and that he is a mighty shrewd, unprincipled fellow. He seemed to have good luck, although he had to do a vast amount of real hard bluffing and pass through a great deal of litigation. He is a handsome appearing fellow and when things began to come his way, after he had been as poor as a church mouse, he was "it." His money bought him everything then. So Mr. Williams sees how, had he not been so conservative, he too, might now be literally "rolling in wealth." As it is, he has a pretty good share of this world's goods and is living in the best climate to be found anywhere. He has much property interests in Grants Pass, and besides he and his brothers have gone into the milling business, in the vicinity of Glendale, where they have put in much money and where they will in all probability make much money.

Mary Ellen Leonard leases to the Holland Mining Co., the east half of northwest quarter of northeast quarter sec 4, tp 40 s, r 7, together with the ditch, known as the "Althouse Ditch," of the capacity of 1000 miner's inches, for a period of five years, from July 23, 1907. The second parties were to fully equip said mining premises with all tools, implements and machinery, necessary to work said mines, on or before August 30, 1907, and carry out other agreements, and pay first party 25 per cent of all gross proceeds of all cleanups for the first two years and 33 1/3 per cent for the other three years of the said lease. The document was quite voluminous, the filing fee being \$5.45. T. J. Hussey was in from his place below Grants Pass this week and informed the Courier that parties were prospecting on the Rogue River, in this neighborhood, with the idea of putting in a big dredger there. This may prove to be a rather big thing for that region. There is but one other dredger in Southern Oregon, that one being located on Foot's creek. Much attention is again being paid the Gold Hill district, where, about three miles above the town of Gold Hill, the first mining in Southern Oregon was done.

Notices of locations have been filed with the county clerk, as follows: J. O. Larrabee and A. C. Vrown, the "Larrabee" quartz claim, being an extension of "Sky Lark" ledge, in the Canyon Creek district; S. N. Barnich, the "Baruch" quartz claim, in Canyon Creek district; H. O. Anderson, the placer claim, in the Althouse mining district; Geo. A. Teel, a quartz claim, "Cobalt Queen," on Illinois river, being located in both Curry and Josephine counties; John Galloway and E. W. Fowler, affidavit of having performed the assessment work for 1907 on the "Katie Ayers," copper mine, on Rancherall creek, in the Illinois mining district.

O. A. Thomas made an extended business trip through the Galice district, last week and he informs the Courier that he was greatly pleased with what he there beheld. He found things in good shape and much interest being taken in the many fine properties of that camp.

There are a great many new and promising properties being opened up and among others, he particularly mentioned the following: the "Orlo," Mattison & Mitchell, owners; "Gold Finch," an extension of the "Orlo," bonded by the Erkenbrecher Syndicate of Los Angeles, Cal., under the management of Wm K. Tonkin; "Golden Wedge," owned by eastern parties; "Argo," Brinkerhoff's Copper proposition.

The Alameda Mines Co., which has some fine property in the Galice district is planning to put up a smelter. Superintendent Wickham says that fully 100 tons of ore per day could be furnished from this mine, alone. They have opened on different levels, a vein 18 feet wide and of high grade ore.

W. C. Kelman, of Shasta county, Cal., has, for the sum of \$100, deeded to Elmer F. McCool, of the same place, his one-eighth interest in the following quartz claims, located in the Illinois mining district: "Belle of the West," "Puzzle," "Twilight," "Shamrock," "Malaccite" and "Thistle."

Work has been resumed on the White Horse mine, located in the Water Gulch, in the Gold Hill mining district. J. R. McKay has taken the contract for roasting a lot of new tunnels and he is now working two shifts.

Price Copey has, for the sum of \$300, deeded to Henry Starke, 20 acres in the Galice district, adjoining the Dean & Corless claim.

BEST OF PROOF
That Hyomei Will Cure all Forms of Catarrhal Diseases

Testimonials could be printed by the thousands, many of them from Grants Pass and nearby towns that Hyomei is an absolute cure for all catarrhal troubles, but the best proof of its unusual curative powers is the guarantee that Demaray gives with every outfit that he sells. "Money back if Hyomei does not do all that is claimed for it."

ACT QUICKLY
Delay Has Been Dangerous.

Do the right thing at the right time. Act quickly in times of danger. Backache is kidney danger. Doan's Kidney Pills act quickly. Cure all distressing, dangerous kidney ills. Plenty of evidence to prove this. A. D. Houston, Hardware merchant, living on the north side, Jacksonville, Ore., says: "About a year ago I suffered severely with backache and kidney disease. The action of the kidneys was very irregular. I procured Doan's Kidney Pills and since using this remedy I have not had the slightest symptom of kidney trouble and have felt better in every way. I am glad to endorse a remedy of such great merit as Doan's Kidney Pills."

KINNEY & TRUAX

State of Ohio, City of Toledo, Lucas County.

Frank J. Cheney makes oath that he is senior partner of the firm F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of \$100 for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh Cure.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D., 1886.

(Seal) A. W. Gleason, Notary Public.

Hall's Catarrh Cure is taken internally and acts directly on the blood and mucous surface of the system. Send for testimonials.

System Needed.
Working the highways as commonly done in many states is a very unprofitable expenditure of labor. Not that the farmer and his teams do not do enough work, but it is often unwisely managed, says Motor News. Seldom do two men in the district have the same idea of how the road should be made or mended. A pathmaster or overseer may be elected one year who will fix the road according to his ideas. Next year some one else may be put in office who will proceed to undo what has been done by doing things his way. The result is that we have merely been mending instead of making highways, and there are thousands of miles of road that are very little better than the trails and paths followed by our forefathers.

Payment of the highway tax in money will put and keep the highways in better shape, if there are not too many officeholders to support.
