#### Preferred Stock Canned Goods

That is the secret of their exquisite Flavor. Preferred Stock Pineapple, for instance, is grown, ripened and canned all under the sunny skies of Hawaii. Pineapples brought to this country and then canned must be picked before fully ripe or they won't keep—and the flavor is flat. Hawaiian Pineapple is the best grown. Every morning, the ones ripened to their "spicy best" are gathered, taken into the cannery, close at hand, peeled and cored by special cutters operated by bright, tidy Hawaiian girls. All the tough, fibrous center is removed, and the sun-gold slices from the best part of the pineapple are then packed into Preferred Stock cans.

At the various colleges and universities, throughout the country are to be found secret orders, sometimes called "Greek Letter Societies," and Grants Pass has as its guest this winter the president of one of the leading ladies' societies, Mrs. W. W. Canby, of the well known, "Kappa Kappa Gamma Fraternity." She held the important position of Grand Secretary of the order for a period of four years, prior to the last national convention, when she was chosen president. This is the oldest and largest of the ladies fraternities, having no less than 33 chapters located at the leading educational institutions of the country. The nearest one is at the University of Washington, Stanford and the University of California each have one. Mrs. Canby has just returned from a meeting of the Grand Council, which was held in Chicago and now she is busily engaged in getting out the minutes and having the constitution seprinted at the Courier job rooms. #### HOW SHE KEEPS BEAUTIFUL

The Mystery Solved.

Like the flowers that bloom in the spring the young girl just budding into womanhood is an inspiring sight and she is usually beautiful if she is perfectly healthy. She stays beautiful just so long as her health and constitution remain good. Let her be nervous, have backache, sleepless nights, and how soon does it take for wrinkles, crow's feet and dark circles to appear in the face? Her cheeks were rosy until she began to suffer from woman's weaknesses and the constantly recurring pains and drains brought her quickly from the beautiful age to the premature middle age. It was not meant for women to suffer so—it is due to our unnatural, but civilized methods of living, and to the fact that so many neglect those small ills which soon lead up to larger ones. Nothing soon lead up to larger ones. Nothing so drags a woman down as those constantly recurring periods when she suffers more and more from a chronic condition that can be easily cured. No woman should take an alcoholic com-pound for that will disturb digestion. and the food is quickly compacted and becomes hard and tough in contact with alcohol, rendering the food in-digestible. She must go to Nature for a cure.
