**SHIP SIBERIAN TIMBER**  
**EIGHT THOUSAND MILES**

An Australian corporation has just received a concession from the Russian Government to take out 30,000,000 feet of timber a year from a forest in Siberia, 900 miles from Vladivostok, to be delivered in Melbourne, Australia, approximately 8000 miles away, and nearly three times the distance from New York to San Francisco.

It is likely that no lumbering operations of recent years more strongly illustrates the pinch in the timber supply in all parts of the world. In the news of the concession, told in an American Lumber Journal, is the suggestion of the difficulty that all countries may have to encounter in getting the wood which they need in the future. Every year timber cruisers are going further and further afield and cutting trees which, in former times of abundance, they passed because of the inaccessibility of the forest.

In taking out the Siberian timber the Melbourne lumbermen will have to ship the entire year's cut in July, August, September and October, for during the remainder of the year there is no open water at the point of shipment.

What makes this unusual feature of transporting bulky logs 8000 miles quite feasible is that such unmanufactured stock is admitted free, while there is a heavy duty on all manufactured wood brought into Australia, the duty on lumber, for instance, being nearly \$5 a thousand board feet. At Melbourne, a new mill is being erected to manufacture these logs into dressed stock, such as flooring, ceiling and other products, as well as into lumber.

These Siberian operations differ from the lumbering methods in the United States, in that in this country it is possible and customary to have new mills conveniently near the place of production, though, with the continually decreasing supply, the larger mills often find it profitable to haul their timber by trams and railroads many miles away from their saws. Forest experts in this country say that the hope of the United States for a steady supply of timber lies in the application of forestry to all timber lands, private and public, and the careful study of the economical and better utilization of product. Even so, a severe shortage in 20 to 25 years must be expected.

**DANGER OF CATARRH**

Unless Properly Treated With Hyomei, Becomes Serious.

Catarrhal troubles are far more dangerous than they seem at first thought.

If you have catarrh, there is an irritated state of the mucous membrane and weakened tissues which afford an ideal lodgment and culture medium for disease germs, especially those of consumption.

You should get cured as quickly as possible before any dangerous germs that you may breathe lodge on the diseased tissue and work destruction in the throat and lungs.

The easiest, simplest, quickest, surest and cheapest way to cure catarrh is by the direct method, breathing Hyomei. This wonderful medicated air treatment does not drag and derange the stomach, but is breathed in, directly following and destroying all disease germs that may have been inhaled.

The usual way in which Hyomei is sold by Demaray is the best evidence of his confidence in the treatment and should dispel all doubt as to its curative properties. He agrees to refund the purchase price to anyone whom Hyomei fails to benefit, and you do not risk a cent [in testing its healing virtues. A complete outfit costs but \$1 if it helps you, not a cent if it does not do all that is claimed for it.

**Beware of Frequent Colds.**

A succession of colds or a protracted cold is almost certain to end in chronic catarrh, from which few persons ever wholly recover. Give every cold the attention it deserves and you may avoid this disagreeable disease. How can you cure a cold? Why not try Chamberlain's Cough Remedy? It is highly recommended. Mrs. M. White, of Butler, Tenn., says: "Several years ago I was bothered with my throat and lungs. Someone told me of Chamberlain's Cough Remedy. I began using it and it relieved me at once. Now my throat and lungs are sound and well." For sale by M. Clemens.

**Many Will Be Helped by It.**

To relieve the worst forms of Rheumatism, take a teaspoonful of the following mixture after each meal and at bedtime: Fluid Extract Dandelion, one-half ounce; Compound Syrup Sarsaparilla, three ounces.

These harmless ingredients can be obtained from our home druggists, and are easily mixed by shaking them well in a bottle. Relief is generally felt from the first few doses. This prescription, states a well-known authority in a Cleveland morning paper, forces the clogged-up, inactive kidneys to filter and strain from the blood the poisonous waste matter and uric acid, which causes Rheumatism.

As Rheumatism is not only the most painful and torturous disease, but dangerous to life, this simple recipe will be valued by many sufferers here at home, who should at once prepare the mixture to get this relief. It is said that a person who would take this prescription regularly, a dose or two daily, or even a few times a week, would never have serious Kidney or Urinary disorders or Rheumatism.

Cut this out and preserve it. Good Rheumatism prescriptions which really relieve are scarce, indeed, and when you need it, you want it badly. Our druggists here say they will either supply these ingredients or make the mixture ready to take, if any of our readers prefer.
