A TEN MILLION FRY IF ALL EGGS HATCH

Salmon Population of Rogue Will Multiply Mightily With Good Luck.

The development of the fishing industry of Rogue River is being systematically carried on by the United States Bureau of Fisheries, with H. L. Kelly, fish culturist, in charge of the work, says a recent special to the Portland Telegram. Hatcheries are maintained at Findley Eddy, on Rogue River, 14 miles below Grants Pass, at the falls in the Illinois River, and on Elk Creek, a tributary of Upper Rogue River.

A large private hatchery is also maintained at the mouth of Rogue River by R. D. Home, the Wedderburn cannery man.

The capacity of the hatchery on the Illinois is to be greatly increased. Last year this hatchery handled over 4,000,000 salmon eggs, all of which were hatched there and the young salmon turned loose in the river, except 300,000 of the eggs, which were shipped to the Home hatchery. This season Fish Culturist Kelly expects to secure at least 10,000,000 salmon eggs. To have lumber with which to enlarge the hatchery building and the racks in the river for catching the fish and to make additional hatching troughs, 10,000 feet of lumber was brought in from Woodcock's mill, near Kerby. As there is only a mountain trail to the fall in the Illinois River, the lumber was rafted down that stream from below Kerby, and the job took 10 days of hard work and frequent risks of drowning for Mr. Kelly and his crew of 10 men. The river is the lowest it has been for years, and as the channel passes most of the way through a gorge, with small falls, rapids and big boulders, it made the task a difficult one.

The racks will be placed across the river at once and the salmon will be held until their eggs are ready to be taken. The eggs are hatched in troughs kept filled with running water, and the young salmon are kept in the troughs for about six weeks, by which time they are fairly well able to care for themselves, and are turned loose in the river. For this period no feed is required for the little fish. Where it is possible to secure beef liver and the fish remnants at canneries, it is usual to keep the young salmon in the hatchery until they are four or five months old and have a length of six inches. They are then so large and swift that few get caught by the salmon, trout, eels, crawfish and other enemies.

The salmon industry now affords a revenue of close to \$300,000 a year. Last year about \$50,000 worth of fish was shipped from Grants Pass, and Mr. Kelly believes it would be possible within 10 years to have the fish output of Rogue River amount to fully \$500,000 any year, could there be ample protection afforded the salmon and proper fishways maintained at all dams placed in the river. The proper policing of the river does not appear to be attainable under the lax enforcement of the state laws, but it would be possible if the fishing interests were under the control of the General Government, which enforces its regulations with a vigor not known to state authorities.

Since the organization of the Rogue River Fishermen's Union, with headquarters at Grants Pass, Mr. Kelly has been able to secure better cooperation from the fishermen and now little fishing is done illegally. He has also succeeded in getting all the dams provided with fish ladders so the salmon have little difficulty in getting up the river.

WILDERVILLE.

Yes, "Eben", "Uncle Ike" thinks if she got the bread he might skim around and get the water and take care of the baby besides.

We hear hop picking has commenced and will soon be in full blast.

A good many accidents are happening lately. George McCallister was pretty badly hurt last week at the mill on Madam's creek. He was struck on the head by a skid.

"Uncle Ike" took a spin on Applegate as far as New Hope last week and everything looks prosperous. Mr. Austin has a fine ranch. They have a variety of berries and of an excellent quality.

The third crop of alfalfa will soon be ready to cut on Wm. Bull's ranch.

Emmett Conger has some fine peaches on his place and your humble servant sampled some of them. He also has a fine lot of Tokay grape vines.

Your correspondent just heard that a serious accident happened on the Sloan hill. Fred Weatherbee was hauling a load of lumber with a 4-horse team, when the coupling pole broke, crowding the load onto the wheelers and killing one instantly. The other horse was crippled so badly that it had to be shot. Mr. Weatherbee had a narrow escape as the saddle horse was killed instantly.

CIRCUIT JUDGE HENRY L. BENSON RESIGNS

Henry L. Benson, formerly a resident of Grants Pass but now circuit judge in the First judicial district, brother of Secretary of State Frank Benson, sent his resignation to Governor Chamberlain Monday, to take effect September 10. Judge Benson will retire to private practice, as the rapid development of Klamath county makes it an alluring field.

The First district comprises Lake, Klamath, Josephine and Jackson counties.

Judge Benson has been on the bench in Klamath and Lake counties for 10 years, having been elected for a second term four years ago, which leaves two more years of his unexpired term to be served by appointment. The First judicial district has been divided between Judge H. K. Hanna and Judge Benson on account of the poor transportation facilities. Judge Hanna has Josephine and Jackson counties while Judge Benson or his successor has Lake and Klamath.

DEERING

Well, the forest service has gotten the smoke under control here now, and with expressions of sorrow on their faces are watching the dying embers as they reach the old burn of two years ago. We are glad to report that none of these brave men lost their lives by going too near the burning brook.

The republicans have stolen all they could in the last 10 years. Why not give the democrats a chance to do the same or in other words, what's the use of letting one box have all the swill.

T. D. Collett has been hauling his hay from Sucker Creek valley this week past, but says he will raise his own hay another year.

These following residents here had business in Waldo this week: Martin Peterson, D. L. Webb, V. W. Ash, L. R. Webb and A. I. Reynolds.

Edmund Edgar has killed 10 rattlesnakes this season and one big fellow barely missed fastening his fangs in one of Ed's hands.

It has just commenced to rain, which will prove a great blow to labor in Josephine county, especially to the forest service fire department.

F. C. Stiwalt has taken a contract cutting wood for E. M. Albright and the chips are flying in all directions. Frank loves work ten times better than politics.

Our school board has been fortunate enough to secure the services of Miss Elsie Kohler of Kerby to teach our school which will begin Monday. Miss Kohler previously taught here and Deering appreciates her worth.

Uncle Sam has a party here taking a geological survey of the country. We have been informed that so far they have discovered no great altitude—in politics.

Chas. Reynolds claims he has killed the fattest buck of the season. He swears he got a gallon of "taller often its horns."

"Uncle Ike" don't ask for much in his free advertisement for a chief cook and dish washer. Beauty is it? Say, Ike, ask for something you stand some show of getting.

F. D. Collett and Webb Bros. have started for the Smith River country with two donks loaded with provisions and camping outfit. Wonder what's in the wind over that-a-way.

Fire service, Forest service, or Fire the Forest service. Query—"Which should it be?"

Kennedy's Laxative Cough Syrup acts promptly yet gently on the bowels, through which the cold is forced out of the system, and at the same time it allays inflammation. Sold by Model Drug Store 4-3 13r

Your grocer returns your money if you don't like it, we pay him.

SELMA.

"Most all the men and boys near Selma are kept quite busy now fighting fires from their fences and grain stacks.

On Sunday morning about 10 o'clock Rev. Hale gave the alarm that W. J. Smith's house was on fire. The neighbors soon responded and with the aid of water the fire was soon extin-

guished but not until a large hole had been burned in the roof. Rev. Hale was a guest at the home of R. C. Churchill and had just gone up stairs to prepare for the services he was to hold at 11 o'clock, when, on looking out of the window he discovered the roof in flames. He ran all the way to Mr. Smith's, calling fire! fire! but the family were safely housed within and knew nothing of it until he called them out in the yard where they could see.

Miss Norton of Holland was a visitor at Selma over Sunday.

Mrs. J. G. Hiatt and children were called to Holland this week to attend the bedside of her mother who is quite ill at that place.

Samuel Howlet and bride of Blue Lake, Cal., arrived at this place today to make their home here on the homestead of Mr. Howlet about two miles from Selma. They were accompanied by Frank Doss and wife who will visit with friends and relatives for a few days before returning to Blue Lake.

Mr. and Mrs. C. W. Craig are enjoying a visit from their daughter, Miss Lola, who has been at Jacksonville for more than a year. She will return to that place this week.

Mrs. R. L. Tolin and mother Mrs. Stevenson of Coquille were callers at Selma today.

Mrs. L. C. Turner, who has resided in Grants Pass the past year has returned to her home on Deer Creek and is again carrying the mail from Selma to Dryden.

Mr. Henry Hudson, who recently went to Korb, Cal., to bring his wife here, arrived yesterday to take charge of his brother's place, while he and family are at Galice. They expect to move there some time this week.

Rev. Reid Hale, an evangelist of Myrtle Creek, Ore., is holding a very interesting series of meetings, at this place. Mr. Hale is an excellent speaker, really above the ordinary and all who hear him once are sure to come again and invite others to come.

Miss Lona Wimer and Miss Vina Chastain are taking lessons in music. Mrs. Nellie Hale is their instructor.

CURE YOUR KIDNEYS

Do Not Endanger Life When a Citizen Shows You the Cure.

Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor; why allow themselves to become chronic invalids, when a certain cure is offered them? Doan's Kidney Pills is the remedy to use, because it gives the kidneys the help they need to perform their work. If you have any, even one, of the symptoms of kidney disease, cure yourself now, before diabetes, dropsy or Bright's disease sets in. Read this Grants Pass testimony: Mrs. W. E. Bosen, N. Fifth St., Grants Pass, Ore., says: "My husband used Doan's Kidney Pills and received the most excellent results. For some time he had more or less trouble with his kidneys and often complained of severe pains through his back. After using many remedies and receiving no noticeable relief, he began taking Doan's Kidney Pills and soon found that they were doing him good. He continued taking them and as a result, there was no more trouble of this nature. He is glad to endorse Doan's Kidney Pills as a most excellent kidney remedy."

For sale by all Dealers. Price 50 cents. Foster-Milburn Co., Buffalo Co., New York, Sole Agents for the United States. Remember the name—Doan's—and take no other. 8-28 2t

DeWitt's Kidney and Bladder Pills are prompt and thorough and will in a short time strengthen weakened kidneys and allays troubles arising from inflammation of the bladder. Sold by Model Drug Store. 4-3 13r

Notice to Parents.

Opening of Schools.

The city schools will open Monday, September 14th. The superintendent will be in his office at the Central Building every afternoon of the week preceding this opening date, to confer with parents and pupils.

All pupils other than 1st grade who were not in attendance in the schools of Grants Pass last session, will be required to report at the office for examination and assignment. Parents and prospective pupils are requested to take note of this and not wait until the opening day of school to secure entrance permits. All high school pupils, whether in attendance last session or not, are requested to call at the office on the afternoon of Thursday, Friday, or Saturday just preceding the opening date, and confer with teachers and superintendent as to course of study to be pursued this coming session.

R. B. TURNER, Superintendent.
T. P. CRAMER, Chairman Board of Directors.
