

Making Good.

There is no way of making lasting friends like "Making Good" and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest, hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, nervousness, dizziness, foul breath, coated tongue, with bitter taste, loss of appetite, and distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It is an honest, square-deal medicine with all its ingredients printed on bottle wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't lose Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve, it is unequalled. It won't satisfy those who want "booze," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the front ranks, and when once tried are ever afterward in favor. Easy to take as candy—one to three a dose. Much imitated but never equalled.

P. B. Herman shipped another carload of watermelons last Monday. This consignment went to Salem. There were about 2500 melons in the car. He will ship another car the latter part of the week.

ADVISES FENCING TO PROTECT SHEEP

Fencing the range to protect sheep from the attacks of predatory animals has met with excellent results in the Wallawa National Forest, Oregon. The problem was to find a strong fence that would make the sheep secure, even without the care of a herder.

The chosen fence, which is built of woven wire with barbed wire on the top, has kept out all the minor animals such as wild cats, lynxes and coyotes, but has not withstood the attacks of the grizzlies, which are apparently able to pass through it with little trouble.

Sheep numbering 2300 head were placed in the enclosure with their lambs upon June 20th and have been allowed to graze at their free will with no attention whatever from any herder. They have done splendidly and as far as the observation of those in charge of the experiment goes, a given area grazed by sheep under such conditions will carry more sheep per acre than one grazed under the charge of a herder.

Tracks along the fence show that predatory animals come to the fence constantly and follow it round, but with the exception of the bears, do not seem able to enter. The hunter employed by the service for hunting predatory animals in the vicinity of this fenced enclosure has killed no less than six large grizzlies this season, besides numerous other animals of the predatory class.

The results of this experiment are so satisfactory that private individuals are profiting by it. J. W. Emmons of Troy, Oregon, has a large area of private land fenced with special wire fence in which he has

this season lambed a herd of 670 ewes without a herder's care and with very little attention and great success. Mr. Emmons is extending his fence, for he finds that it pays. Careful record will be kept of the weights of lambs raised inside this fence with a view of comparing them with the same grade of lambs raised outside the fence on the same class of range, so that any gains or losses in weight and growth may be determined.

LOCAL EVENTS.

H. C. Batcham has purchased the Wm. Hair property on Fourth street and will move in from his fruit ranch at Froilade in a few days.

Geo. Lewis was called over to Holland Wednesday morning by the illness of his aged mother.

G. C. Culy, one of the leading stockmen on the Applegate, has sold his ranch to Portland parties and he and his family will hereafter make their home in Ashland.

According to the report of the state superintendent of public instruction Josephine county excelled all other counties of the state during the past year in the matter of percentage of daily attendance in its schools.

Ex-County Surveyor H. C. Perkins and Mrs. Perkins returned last week from Wolf Creek, in the vicinity of which place Mr. Perkins had been doing some surveying. Mrs. Perkins was the guest of Mrs. W. J. Rogers during the interim.

Roland Coe, the 4-year old grandson of Mr. and Mrs. R. L. Coe, while in a carriage Wednesday morning became entangled in the lines and fell out of the buggy, sustaining the fracture of his right arm. Dr. Loughridge was summoned and the little fellow is getting along nicely.

Ernest Loebbecke, who has been with the Grants Pass Box factory for some time, left last week for Alameda, Cal., where he goes to install a lumber saving dove tailing machine, for an eastern company of which he is the Pacific Coast representative. Mr. Loebbecke expects to return to Grants Pass in a short time.

Extensive repairs, including the partitioning off of one of the large recitation rooms, is going on at the Central School building. The second floor is also being calcimined throughout. A large number of new seats was received this week, to be installed in the various buildings where ever needed.

August Fetsch is erecting a commodious 8-room dwelling at the corner of Third and I streets which he and his family will occupy as soon as the same is completed, when his present home will be for sale or rent. Mr. Fetsch is expecting a cousin, Dr. Chas. Jorgens, of Oakland, Cal., here Saturday and the two will leave next Monday for Mt. Reuben, near Glenside, where they will hunt bear and deer for a couple of weeks.

L. A. Robertson, to whom was awarded by the city council recently the contract for a sub-main sewer on A and Third streets, has a crew of nearly a dozen men at work and has been making excellent progress on the work the past week. This sewer will connect with the main line sewer at Second and A streets. A portion of the excavation is in stony ground and has to be blasted. Some two or three blocks of the trench has already been dug and a part of the pipe laid.

\$100 REWARD \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer \$100 reward for any case that it fails to cure. Send for list of testimonials.

CAREY ACT LAND SALE

15,000 acres of land, in the State of Idaho, lying along the Snake River and on the main line of the O S L. railroad, between the towns of King Hill and Glenns Ferry, will be opened for settlement Oct. 17, 1908. The sale of the land will be under the supervision of the State Land Board of Idaho. The tracts lie in a cove, surrounded by 1000 to 1500 ft. elevations. The soil is unsurpassed for fruit culture and there is an abundant surplus of water. The land is opened under the Carey Act, protecting the purchaser and assuring the water rights. Money deposited on locations not found desirable, will be refunded.

GRAND OPENING ON OCTOBER TWELFTH

The drawing of locations will be held at King Hill, where all conveniences have been arranged in the way of sleeping, eating and other accommodations. Tourist sleepers will be detracked for those who wish to occupy them. This is the most promising opportunity for home-seekers ever offered in the state of Idaho.

"Efficiency" as applied to an automobile, means that ability in a car which enables it to go and come when and where you want it. It means speed, economy, endurance, hill climbing, and roadability—those things the "Tourist" won in a string of forty-two brilliant victories out of forty-five entries. Buy the car that has proved its worth by winning all manner of tests in competition with all types of cars. These contests prove conclusively the superiority of the "Tourist," the "Pacific Coast Car" over all others. They prove positively that no car other than one built here with the sole idea of meeting Coast road and climatic conditions could have made the wonderful "Tourist" record.

There are several models of Tourist Cars to meet the various models of pocketbooks. There are several styles of 2-cylinder and 4-cylinder cars from which to choose. Better buy a Tourist than wish you had.
