MINING NOTES.

W. W. Hale and J. H. McDonough, two mining men of Portland and Seattle, respectively, who have been spending several weeks here, returned last Saturday from a week's prospecting tour on Josephine creek and vicinity. They report some excellent prospects out there and Mr. Hale says that he confidently believes that the Josephine district will in time become one of the best mining camps in this section of the state. He says that J. Chatty has one of the finest prospects on the creek, and that Geo. Anderson is opening up an excellent body of telurium on the Illinois river. Sam Goodwin is also taking out some good telurium in Lightning Gulch.

At the Wilson & Anderson placer on the Illinois 600 feet of 24-inch pipe is being added to the equipment, preparatory to opening up of the winter season next month. Four giants are used on this property and a force of six men are employed night and day. This mine has been a good dividend payer for years. Many of the other smaller properties on Josephine are getting ready for operations next month.

Emil Reise, amalgamator at the Braden mine, was the victim of a very painful accident last Friday afternoon, and but for timely medical assistance would probably have lost the sight of one of his eyes. While engaged in running hot rabbit metal in a box on a shaft in the stamp mill, the metal in some manner splashed and threw the contents of the ladle in his eyes and face. He was immediately brought to town and given medical aid to relieve the pain and suffering. His face and eyes were badly burned but it is not thought that serious results will come.—Gold Hill News.

Ladies, don't fail to go to the Hair-Riddle Hardware Co's store during the week beginning September 14th and get a sample of those 3-minute biscuits and fine coffee.

SCHOOL BOOKS REQUIRED AND COST OF EACH

The following is the complete list of books and supplies to be used in our public schools this year, together with the price of each book:

First Grade B—	
Wheeler's Primer.....	25c
Sloan's First Book.....	25c
Slate and pencil.	
Pencil and tablet. To be bought at direction of teacher after about four or five weeks of school.	
Second Grade B—	
Wheeler's First Reader.....	25c
Sloan's First Reader.....	25c
Practice Book A.....	5c
Slate and pencil.	
Tablet and pencil.	
Third Grade B—	
Wheeler's Third Reader.....	45c
Primary Arithmetic.....	35c
Copy Book, No. 2.....	5c
Practice Book A.....	5c
Spelling Book.....	25c
Spelling Blank.....	5c
Composition book.	
Pencil and tablet.	
Penholder and pen.	
Fourth Grade—	
Cyr's Fourth Reader.....	50c
Smith's Elementary Arithmetic.....	50c
Modern English Lessons.....	40c
Introductory Geography.....	55c
Copy Book, No. 3.....	5c
Practice Book B.....	5c
Spelling Book.....	25c
Spelling Blank.....	5c
Penholder and pen.	
Tablet and pencil.	
Composition book.	
Dictionary, School.....	75c
First Music Reader.....	30c
Drawing Pad, 9x12.	
Fifth Grade—	
Cyr's Fourth Reader.....	50c
Practical Arithmetic.....	65c
Modern English Lessons.....	40c
Introductory Geography.....	55c
First Book in Hygiene.....	30c
Common School Dictionary.....	75c
Copy Book, No. 4.....	5c
Practice Book B.....	5c
Spelling Book.....	25c
Spelling Blank.....	5c
Penholder and pen.	
Tablet and pencil.	
Composition book.	
Thomas' Elementary History.....	60c
First Music Reader.....	30c
Drawing Pad, 9x12.	
Sixth Grade—	
Cyr's Fifth Reader.....	60c
Practical Arithmetic.....	65c
Modern English Grammar.....	60c
School Geography.....	\$1.15
Graded Lessons in Physiology and Hygiene.....	50c
Common School Dictionary.....	75c
Copy Book, No. 5.....	5c
Practice Book C.....	5c
Spelling Book.....	25c
Spelling Blank.....	5c
Composition book.	
Tablet and pencil.	
Penholder and pen.	
Elementary History.....	60c
First Music Reader.....	30c
Drawing pad, 9x12.	
Seventh Grade—	
Cyr's Fifth Reader.....	60c
Doub's U. S. History.....	1.00
Modern English Grammar.....	60c
School Geography.....	\$1.15
Common School Dictionary.....	75c
Spelling Book.....	25c
Spelling Blank.....	5c
Penholder and pen.	
Tablet and pencil.	
Composition book.	
Copy Book, No. 6.....	5c
Practice Book C.....	5c
Practical Arithmetic.....	65c
Graded Lessons in Physiology and Hygiene.....	50c
Second Music Reader.....	30c
Drawing pad, 9x12.	
Eighth Grade B—	
Doub's U. S. History.....	1.00
Practical Arithmetic.....	65c
Modern English Grammar.....	60c
Agriculture for Beginners.....	70c
Graded Lessons in Physiology and Hygiene.....	50c
Spelling Book.....	25c
Spelling Blank.....	5c
Tablet and pencil.	
Penholder and pen.	
Composition book.	
Copy Book, No. 7.....	5c
Practice Book D.....	5c
Common School Dictionary.....	75c
Second Music Reader.....	30c
Drawing pad, 9x12.	
Ninth Grade A—	
Same as above, except omit Graded Lessons in Physiology.	
At a recent meeting of the school board it was decided that the board would furnish all ink for the coming year, so that no pupil need buy any.	

CIVIC AWAKENINGS.

A General Cleanup Is of First Consideration.

Many are the anxious inquirers who apply for information as to the first work to attack in the fight for civic beauty. The question is usually of only local significance and may be solved by those interested if they will but observe the most pressing needs of the community. As a rule, nothing will so effectually and so cheaply improve a section as the cleaning of streets, park ways and vacant lots. This accomplished, an air of general thrift and cleanliness is at once noticeable by all, whether residents or visitors. Individuals will catch the fever, and a general cleanup of private premises will still further improve the scene, says the Los Angeles Times. Some funds will be needed for the public work, and these may be obtained by starting an improvement association with a low membership fee, and the organization need not live beyond the cleanup period.

Whether the association is to be made permanent should be judged by the interest and enthusiasm manifested by the general public. If only a few are interested the fight for permanence will prove a hard one, but if enthusiasm dominates the whole people do not rest with a simple cleanup, which is only a negative move, but engage in some permanent improvement looking to the beautifying and bettering of the whole field under consideration. Doubtless the easiest task and the one most productive of lasting results in proportion to the cost is the planting of street trees. If money is only on hand for a single block of planting, do not be discouraged, but make this block complete and orderly, and it will then prove so hard to add thereto. At this stage of the game some enthusiastic, energetic workers will be needed to fan the feeble spark into an active flame. If you can get one street planted you can eventually and in the near future secure the adornment of all. Any community with well planted streets is well on the highway toward the goal of the city beautiful, and less difficulty will be experienced with every successive step.

SCHOOL GROUND BETTERMENT

What Can Be Done to Make Common Property Attractive.

While we are imbued with the gardening fever let us look to the district school yard and note if it has all we could wish for in the way of plant life. If not, what can you do to make it more interesting, instructive or attractive? Of course there are school yards where there is not sufficient space for flowers, others where the school board has covered the garden space with temporary buildings and still others where they have built so ugly and unsightly or insufficiently as to disgust the neighborhood residents, who will do nothing until the wrong is righted.

As a rule, however, school yards in general are capable of pleasing effects by the judicious planting of tree, shrub and vine. Where such is the case it is well to bear in mind that it is the one piece of neighborhood property in which all are interested, all have a common ownership and that upon all its condition reflects credit or criticism. What is the condition of your school yard? Can you individually or with your neighbors collectively do anything to improve it? If so, act that it may be a credit and a comfort to you and yours.

C. Bradbury of Pickett Creek has sold his ranch there and purchased the Bush farm near Wonder this week. The deal was consummated through the real estate firm of Herzinger & Mitchell.

You never saw a South Bend Malleable Range? The Malleable man and the Malleable girl will be pleased to show it to you at the store of the Hair-Riddle Hardware Co., during the week beginning September 14th.

NEW HOPE.

School began here last Monday with an enrollment of 10 and several more to be enrolled later.

Heating Stoves at Hair-Riddle Hdw. Co's.

C. C. Wynant returned home from Crescent City last week and reports a fine time.

Everet Lewman and sister, Wm. McCallister and sister and Robert Wallace and sister, all of Provoit, returned home from the coast last Friday.

H. S. Wynant is running a meat wagon at present.

Messrs. Victor Daniels and Dick Johnson have completed their wood contract.

Victor Daniels went over into the Jump-off-Joe country the first of the week.

Malleable Steel ranges sold on easy payments at the Hair-Riddle Hdw. Co's.

The rural route inspector was through our part of the county last Monday on business connected with our petition for the same.

Attention is called to Ashland Commercial College special in this issue, 7-31 St.

GILMAN DIRECTORS HOLD A MEETING

President Gilman States Machine Will Be in Operation About Sept. 21.

The regular monthly meeting of the Board of Directors of the Gilman Bed Rock Mining Company was held at the office of the company Thursday, August 27th, the following directors being present: L. F. Gilman, R. F. Wendover, A. E. Voorhies, H. L. Herzinger and J. M. Harlow; absent C. C. Clark. The minutes of the previous meeting were read and approved.

President Gilman reported on the progress of the work at Galice. There are twenty men now at work, the steel for the big machine is all on the ground and is being assembled as fast as possible.

It is expected that initial operations will commence on Monday, September 21st. The stage of water in the river is lower now than it has been for a number of years past and the machine will go into operation under the most favorable conditions. There were a large number of stockholders in attendance at the meeting and Mr. Gilman suggested the idea of putting in a wing dam just below the point where the machine is to start work. A wing dam at this point is made possible at this time owing to the extreme low stage of the water and he would be able to dry about 60,000 feet of surface at an estimated extra expense of about \$250, and after considerable discussion in which the stockholders themselves were allowed to participate, the opinion of each one present was obtained and showed a unanimous vote in favor of putting in the dam, provided it would not in any way retard the work of getting the machine into operation. It was therefore decided to go ahead with the wing dam, which will be completed by Saturday, September 5, and, inasmuch as the machine will also be in operation during the present month, it is expected by some of the more enthusiastic that it will be possible to pay a dividend at the next meeting, which will be held on the last Thursday in October.

The report of the secretary, was in the nature of a report of receipts and expenditures since the company was incorporated on March 20th, up to the date of the meeting, and showed practically all bills against the company have been met and that the company will be able to go into actual operation without owing one dollar. There were 8220 shares of stock unsold, which will probably be disposed of before September 5th, after which time no stock will be available. The proceeds from the sale of this stock will amply meet all outstanding debts and an offer was made by one of the stockholders present to take up all the stock which remained unsold on September 5th at the present price of the stock—25 cents per share. There will, however, remain in the treasury 10,000 shares of stock which is to draw a dividend the same as the stock which is issued, the surplus on which is to be used to build further machines for operation in Rogue river, and it is expected that at least six machines will be in operation inside of the next eleven months.

J. M. Harlow was elected vice president of the company and the meeting adjourned after quite a number present had increased their subscriptions.

R. F. WENDOVER, Secretary.

Home Trade Truths. A dollar spent in your own town is a dollar saved to the community.

The purchasing power of money spent around your home is much more than its purchasing power if spent away off yonder. It buys the respect of your neighbors and a standing for yourself as a loyal citizen.

It is funny to hear a fellow preach and prate about town loyalty when he makes a habit of using the mail order catalogue as his saleslady or salesman. Now, isn't that a fact?

Maybe the reason that young friend of yours resigned his job in the local store and moved to the big city is that you have been helping to build up the city stores at the expense of the local stores and your young friend's salary at home suffered accordingly.

Did it ever occur to you that the community feeling, so to speak, is the thing that makes life worth living in any town? By the community feeling is meant, of course, that condition where neighbors are mutually dependent and helpful, one recognizing the right of the other to be considered first in any deal rather than an outsider, and vice versa. And the motto of the community feeling is this: "Patronize home industries."

If the mail order trade is hurting your town, and in all probability it is, and you know it is, suppose you pause a moment and ask yourself what part of the injury you are inflicting. Why not?

Proper clothes for little Swell Dressers.

copyright, 1907 by R.F. Outcault N.Y.

Mr. Swell Dresser:

When you send your little men to school you wish for them to have on good clothes don't you?

To wear good clothes is a good habit. Is it not well to begin good habits young?

Your little man will study his lessons better if he has a brand new suit.

Our Fall and Winter line of fashion and wear better clothes for boys and young men just arrived. Do not fail to see our "Combination" School Suits before you buy.

A THREE-MINUTE JOB

It takes the Malleable girl just three minutes to clean her range after the kitchen work is done. She uses a greasy rag, that's all. Quicker than it takes to tell, it looks as good as new.

The Malleable Range

Is so scientifically built that it will last a life-time, and it is so easy to keep clean that it always looks as good as new. The nickel parts can be quickly cleaned because they are perfectly smooth with round corners. There are no places for dust to accumulate.

Drop in and see the Malleable Man and the Malleable Girl at the store of

Hair-Riddle Hardware Co.

SEPTEMBER 14 TO 19

The Malleable Girl will serve you with Three Minute Biscuits and Delicious Hot Coffee and Present you with a Beautiful Cook Book and a useful souvenir.

WITH EACH RANGE purchased during this exhibit, you will get \$7.50 a set of high grade cooking ware worth \$7.50
