Window glass and putty at Hair-Riddle's.

Registration has been going on slowly during the past week and the indications are that there will not be a great many new names on the list this fall, as most everyone registered before the spring election, except those who came here too late to be entitled to vote at that time. Those who have not registered should remember that no one who has not registered either in the spring or fall can cast a vote.

Window glass and putty at Hair-Riddle's.

Lame Shoulder.

This is a common form of muscular rheumatism. No internal treatment is needed. Apply Chamberlain's Liniment freely three times a day and a quick cure is certain. This liniment has proven especially valuable for muscular and chronic rheumatism. Sold by M. Clemens.

FARMERS JOIN IN IRRIGATION WORK

(Continued from First Page.)

Allen, Geo. Sabin, John Christie and R. Thomas, and a little later G. H. Carner and M. J. Anderson were added, making the committee eight instead of six as at first proposed, and the combined committee 14.

The two committees will now act as one and make investigations, receive propositions from anyone who is in position to furnish water, and in short to devise ways and means for the organization of an irrigation company, the building of ditches, and applying the water to the lands.

Several more speeches were made telling of what had been accomplished by irrigation elsewhere and of the necessity of having it here if the lands in Rogue River Valley were to be made to yield the returns which they should considering their fertility and the wonderful climate with which this section is blessed.

The chairman said that the irrigation committees should arrange to have a meeting immediately after adjournment of the convention. Several matters pertinent to the situation were taken up and thoroughly discussed when the convention adjourned to reconvene at a time when the committees have a report to make.

Following the adjournment the two committees assembled and decided to hold their first meeting on Wednesday afternoon at 2 o'clock when they will organize for prompt action along the lines of irrigation.

Si Brown's Town Boom.
Silas Brown, of Sleepytown
Conceived a fine idea.
"I'll wake this sluggish village up,"
Says Silas Brown, says he.

"Twas round about the end of June
When Silas got his bunch.
He laid in fireworks night and noon
And morning—quite a bunch.

He hid them in his father's barn,
For Si was but a kid.
This Silas Brown of Sleepytown
Who PLANNED the deeds he did.

There'd nothing happened in the place
Since Roger's cow's collapse
In sixty-seven, from a chase
By Lively Village chaps.

And that was why this Silas Brown,
In whom the quiet cloys,
Determined he'd show off his town
To Lively Village boys.

Upon the evening of the third
Of genial, gay July
No single Sleepytownian stirred
Nor winked a wakeful eye.

The night passed on, the morning
Broke,
The glorious Fourth was it,
And all of Sleepytown awoke
And nearly had a fit.

For Si had touched his fireworks off
With such a fiendish art
They made a pyrotechnic cough
That made the sleepers start.

Bill Jinks was blown clean out of town
And landed on his back
Ten miles away and upside down
On Farmer Hayfield's stack.

But Southers left his board and bed
And mostly, too, his clothes
And on a Lively Village shed
Aft upon his nose.

Tom Wilkins took a perfect line
Smack dab across the state
And landed in a city fine
At nearly half past eight.

And so from Sleepytown they flew
To other burys galore,
And where they landed, sure and true,
They made a large uproar.

Result—the folks from all around
To Sleepytown poured in
To learn what caused the awful sound
And wherefore was the din.

And, thanks to Boomer Silas Brown,
That patriotic chap,
They learned at last that Sleepytown
Was strictly on the map.

From which this vital truth we trace—
Oh, heed it, men and boys!
If you would boom your native place
You've got to make a noise.

T. BAPP, JR.

WORK FOR INDIVIDUALS.

How to Make a Town Attractive and Wide Awake.

During the warm, summer-like days we experience in the spring our thoughts turn (not lightly) to things rural. We long for green fields, shady nooks, the rippling brooks and singing birds. Some of these charms are present about every town and village, and if the place be clean and neat, the streets well planted, foothill and canyon not too far away, the springtime proves a harvest. Many do not care for the extremely dull monotony of our seaside resorts and choose rather the charms of the woodland and pasture, green and fresh. Lucky the town whose appearance attracts the summer visitor.

A large part of the responsibility for attractiveness lies with the individual. See that your hedge is trimmed, your fence and gate in good repair and neatly painted. Your sidewalk, whether cement or gravel (wood is scarcely permissible), should be in good condition. The street and gutters in front of your property must be kept free from weeds, paper and other rubbish, and all such should be burned in the yard, not in the street. Cut your lawn often, trim your trees and plants and give all about you an "alive and up to date" look. After you have done this see what you can do to awaken a neighborhood interest in improvement. It may be you can only organize a "block beautiful club," or the movement may assume dimensions that would warrant the formation of an improvement society. Civic beauty is an asset, civic ugliness a liability. Which will you choose?

UNTIDY PARKS.

Useful Suggestion For Keeping Pleasure Grounds In Order.

A good hint for keeping parks clean is contained in the following views of a New York man who believes in order:

"I wish that every man or woman who goes into one of our beautiful parks on Sunday morning from now on could have received the training I did when camping out as a boy in Canada. I was taught to pick up every bit of paper, every scrap of every kind left over from a meal, and to put it in the camp fire. And after all the refuse had been consumed we always had to see to it that the fire was put out so that there would be no danger of starting a forest fire. The result of such training is to make one careful of other folks' rights, and that would work out here splendidly.

"For if men and women who went into a park on Sunday morning and gave a portion of their newspaper as a protection from the dampness of the earth would only pick it up and carry it off with them to deposit it in the nearest receptacle for such things the general appearance of our pleasure grounds would be improved immensely. It distresses me to see the beautiful lawns marred by these bits of paper at a time when they ought to look their best and as they would look all summer long if each individual would do his share in keeping them in order."

Get Trade by Advertising.

The best way in which the merchants in the towns and smaller cities can fight the mail order houses is to advertise. They know most of their patrons personally, can show them the goods before they buy them, have many other advantages over the mail order house and in almost every instance can sell just as cheap if not cheaper, remarks the Buckeye (Ohio) Informer.

If the home merchant lacks foresight and is too penurious to properly advertise his goods, why should the publisher exert himself to keep the trade at home for him? If solicitations on the part of the publisher fail to educate the merchant to the fact that he must advertise if he wants to keep up with the procession, then nothing is left to the merchant but to learn in the school of experience, and if the teachings of that renowned school are of no effect on him then there is no place for him, and eventually his place in the commercial world will be taken up by some more enterprising competitor.

FRUITDALE.

Dr. and Mrs. D. H. Love of Grants Pass, were calling at F. A. Clements Sunday.

Mr. Hyatt's brother is visiting him at present.

Myron Kincaid had a slight attack of paralysis last Sunday afternoon.

Messrs. Hackett and Griffith from the Baptist church visited our Sunday school last Sunday. We enjoyed having them with us, and they expressed themselves as being well pleased with our Sunday school.

Mr. and Mrs. H. C. Bateham and family, Miss McCormick and Miss Mae Chapman attended our Sunday school last Sunday. Mr. Bateham very aptly filled his old place as teacher of the Bible class. It seemed very good to have them with us once again and we hope they will come often.

Mr. and Mrs. M. E. Storievant, Mrs. R. L. Huck, and Mrs. Henry Huck, were over in the Applegate valley one day this week.

Window glass and putty at Hair-Riddle's.

Mrs. Warrington has sold her farm over in South Fruitdale and gone to Grants Pass to live. Mr. Rietz, a young man from Topeka, Kansas, was the purchaser. Mrs. Warrington was well liked by those who met her during her short stay here this summer and though we are sorry to lose her from our community, we extend a hearty welcome to her successor. We understand Mr. Rietz was secretary of the Y. M. C. A. at Topeka, Kansas, for two years and we believe he will be a very acceptable addition to our community.

Mrs. Henry Huck, Mrs. Robert Huck and Mrs. F. A. Clements were elected delegates to the S. S. convention which is to be held at the Christian church next Saturday and Sunday, Oct. 3 and 4.

If you want to get those nice apples in the top of the trees without bruising them, get one of those Fruit Picking Ladders at Hair-Riddle's. They don't cost much.

Franklin is getting up a car load, guaranteed special rabbit Proof Page Fence, as cheap as any fence on the market, quality considered. 92 5 2t

There will be no Sunday school here in Fruitdale next Sunday afternoon as it is expected that all will attend the convention at the Christian church

Mrs. Riggs of Grants Pass has been visiting her sisters, Mrs. A. Boroghs and Mrs. E. E. Blanchard.

Cement coated box nails at Hair-Riddle's.

The native country of the grapevine is the region around the Caspian sea extending through Armenia and as far west as the Crimea. The grape has been cultivated from the remotest antiquity being mentioned in the Hebrew scriptures and in all of the most ancient writings.

Workman Falls from Building.

J. Bayliff, one of the workmen engaged on the new Booth brick building on 6th street met with an accident Monday night, had it not been for the presence of mud displayed by Mr. Bayliff, would probably have resulted in seriously injuring him. He was pushing a wheelbarrow of brick up on top of the building by means of a plank, and when nearly to the top

IRRIGATED

Best irrigated small farm in Jackson County for \$2500. 40 acres in tract. 30 acres under ditch. 20 acres under cultivation. Come and see for yourself.

BEN A. LOWELL WOODVILLE, OREGON

stepped on a piece of brick and fell off the plank. He hung on to the wheel barrow long enough to send it and its contents the opposite way from which he was sure to fall and then dropped he distance of about 15 feet to the ground, striking on his hands and knees into a pile of old boards. His clothing was badly torn and his hands, face and knees scratched and bruised but otherwise he was alright and able to go on with his work.

Now is the time to Decide

ON THAT RABBIT PROOF FENCE

The Page Woven Wire Fence Co. have a Special Rabbit Proof Fence, made especially for this locality—

18 Bars 46 Inch

Twenty-seven inches to first wide space. The same quality of all Page Fence. High carbon coiled Spring Steel. Stands a strain of over 18,000 pounds.

Standard Ranch Fence

Hog Sheep Coyote Lawn

Page Fence is guaranteed to be exactly as represented

An experienced man and tools are furnished to assist in the erection of all Page Fence, without extra cost. He will erect fence over any ground without cutting or lapping, bagging or sagging.
